POSTSECONDARY PREPARATION, 2019-20

Section 115.385 (d)1.-5., Wis. Stat., requires report cards to include data on pupil participation in various postsecondary preparation opportunities. All data are for grades 9-12. This is for information only and does not affect scores. Course and program data are reported by schools and districts to DPI, and this is the first time these data are included on report cards. Please use caution when interpreting these data. Asterisks replace all-student participation data if the district enrolled fewer than 20 students.
