CTE Data Consultant

October, 2022

Agenda

- **Snapshot**

- **CTE Data Team**

- **Data to be reviewed**

- **WISEdata Portal**

- **WISEdash for District**

- **Resources**

Snapshot

December 6, 2022 is the Snapshot for all 21.22 SY CTE and Career Education Data

- The Snapshot begins at the start of the business day on December 6, 2022.

- All CTE and Career Education data should be accurate in WISEdash for District on December 5, 2022. If you see it in WISEdash the day before the Snapshot, you know that the data has been sent.

- Start this work early and not the weekend before the Snapshot.

- It takes time for the data to flow from your Student Information System (SIS) to WISEdata Portal and into WISEdash for District.

- When the entire state is submitting data at the same time, the server gets slow.

- Changing data in your SIS does not automatically flow to WISE. Only new data automatically flows. Changed data calls for a resync from your SIS.

CTE Data Team

- Submitting accurate data to WISE takes a team!
- Many individuals play a part in accurate data collection, data entry, checking, and using the data for Perkins Accountability and school report cards.
- CTE Data Team roles and responsibilities:
  - Who creates the coursemaster?
    - [Roster Work Plan](#) - to organize your Career Ed data elements for each course
  - Who schedules students into courses?
  - How do you collect information from teachers that teach WBL, IRC's, Adv Opps, DE?
  - How do you collect information about Dual Enrollment courses off campus utilizing Early College Credit Program or Start College Now?
  - Identify who checks WISEdata Portal?
    - Certified/Non-Certified Export
    - Participants Export
    - Concentrators Export
    - Roster: Course Offerings Export
  - Identify who checks WISEdash for District
    - Snapshot>Career Education and Courses
    - Snapshot>Perkins

Data to be reviewed

- [CTE/Career Ed Data Quality Check](#) (demo)- simple start to reviewing CTE and Career Education
- [CTE/Career Ed Data Quality Check](#) (blank)
- Use your CTE Data Team to assist with these data checks
  - Someone can check WISEdata Portal
  - Someone can check WISEdash for District>Snapshot>Career Education and Coursework and Perkins dashboards
  - Someone can reference the [Roster Work Plan](#) and ensure that we counting all of our CTE courses, Work-Based Learning courses, Industry Recognized Credentials, Advanced Opportunities, and Dual Enrollment courses.
  - Someone can also check our Career Pathway data elements within the Roster Work Plan and Perkins application.
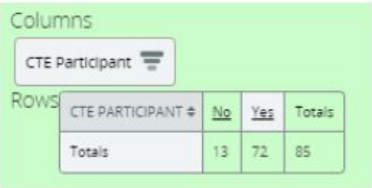

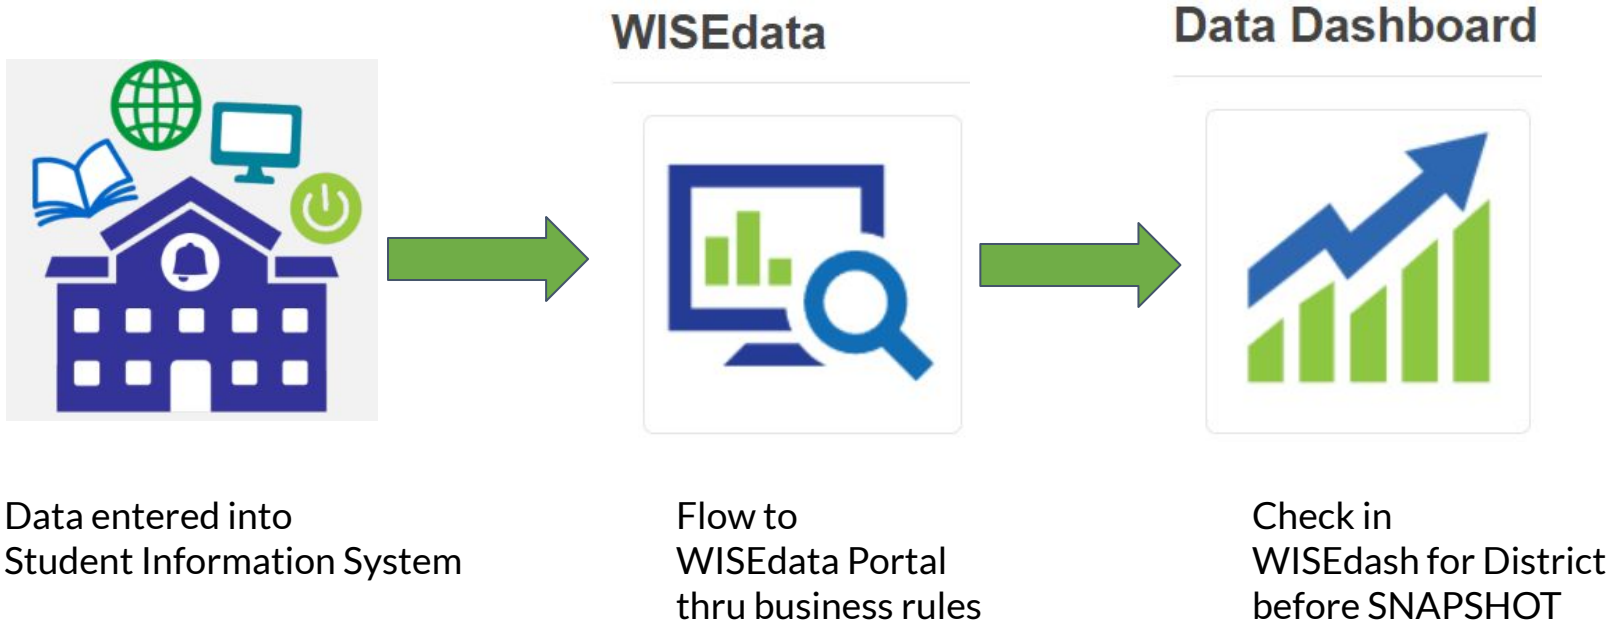

Data to be reviewed

DEMO
