November 15, 2023

WISCONSIN DEPARTMENT OF
Public Instruction
Jill K. Underly, PhD, State Superintendent

Agenda

- Dual enrollment course section check
 - WISEdata Portal
 - Roster: Sections – Student and Staff Count
- 

Dual Enrollment Course Check

- Review all dual enrollment course sections to ensure each section is reporting as dual enrollment within each high school in the district.
- If a section is not identified as dual enrollment in the course setup, it will not report correctly to WISE, thus students will not calculate for that section.
- Utilize the WISEdata export Roster: Sections-Student and Staff Count
- This export shows course sections, student counts, and dual enrollment program type (column W).
- Student enrollments can be viewed in the export Roster: Student Section Association (column V).
- Students are counted for dual enrollment based on their Primary Enrollment.
