Contents

Executive Summary

This executive summary provides high-level findings of the Wisconsin Statewide Electronic Database Inventory & Needs Assessment Study:

- A significant number of public libraries do not have access to database content other than that provided through BadgerLink.
- Overall, BadgerLink databases are seen as meeting the needs of various groups as required by Wisconsin Statute. However, K-12 school district participants interviewed felt that BadgerLink databases are geared toward a higher level than K-12. Conversely, public library and public library system participants interviewed felt that BadgerLink databases served K-12 well but did not include as much content for adult users.
- Overall, BadgerLink databases are seen as doing a good job in meeting users' needs. Those in the K-12 and Professional Learning subject areas were rated slightly better at meeting users' needs than did those in General Interest subject areas.
- Most respondents feel that library databases available through their own library or library system make up for any gaps in BadgerLink content.
- In K-12 and Professional Learning subject areas, the subjects identified for increased representation in BadgerLink are Collection Development, Computing & Information Technology, Science, Social Studies, and Test Preparation & Skill Building.
- In General Interest subject areas, the subjects identified for increased representation in BadgerLink are Consumer Information, Current News & Information, Genealogy, Historical News & Information, Job-seeking, and Local History.
- K-12 and Professional Learning and General Interest subject areas the format types identified for increased representation in BadgerLink are images, magazines, newspapers, sound / music, and video.
- There is consensus that there are usability issues with BadgerLink databases, particularly among the K-12 school districts.
- Lack of awareness of BadgerLink databases across the state is a commonly expressed concern.
- Opportunities for increased collaboration amongst public and K-12 public school libraries with purchasing, training, and marketing of databases is seen as a highly desirable outcome of the Wisconsin Statewide Inventory & Needs Assessment Project.

Based upon the findings summarized above, CDygert Solutions has made the following recommendations:
1) Strengthen select subject areas in BadgerLink.
2) Strengthen select format types in BadgerLink.
3) Explore options for improving the usability of BadgerLink content.
4) Develop an awareness campaign for BadgerLink.
5) Develop systemic opportunities for increased collaboration between public library systems, public libraries, and K-12 school districts.

Introduction

The Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study was commissioned by the Wisconsin Department of Public Instruction (DPI) to "first address the lack of consistent and comprehensive data about existing databases offered by public and K-12 public school libraries, and second to determine whether any gaps exist between those provided statewide through BadgerLink and those provided through public and K-12 public school libraries[1]." The study was undertaken in two phases. Phase one consisted of the development of a process by which Wisconsin's public K-12 school districts, public libraries and public library systems could submit their inventories to a central repository, and the subsequent processing of that inventory data. Phase two consisted of a needs assessment study, which gathered data through a survey mechanism, and multiple interviews and focus groups with stakeholders.

Phase One: Wisconsin Statewide Electronic Resource Database Inventory

The Wisconsin Statewide Electronic Resource Database Inventory was conducted to gather information about the databases licensed by public libraries, public library systems, and K-12 public school libraries across the state so that it may be used in conjunction with needs assessment data to identify coverage gaps between BadgerLink databases and those provided by public and K-12 libraries.

In designing the inventory submission process, the primary goals were to ensure that submissions were accompanied by a unique identifier, that they were submitted to a central repository rather than individually via email, and to minimize the amount of data clean-up required. CDygert Solutions worked closely with DPI staff throughout the inventory submission design process to ensure that these goals were met.

The statewide database inventory project was conducted with three library types as defined by DPI:

- Public Library System: This category includes Wisconsin's sixteen regional public library systems that provide services to public libraries in their area.
- Individual Public Library: This category is for individual municipal libraries.
- K-12 Public School District: This category is for the libraries in the public-school districts.

Fine-tuning the Database Inventory Template

The database inventory template used for the project was based upon the Statewide Database Inventory Template distributed with the Invitation to Bid. (See Appendix A for the final inventory template).   Through discussion with DPI, the fields "Contract Term" and "Funding Source" were dropped from the form, leaving five fields:

---

[1] Wisconsin Department of Public Instruction. (2021). Invitation to Bid: Wisconsin Statewide Database Inventory & Needs Assessment Study.

- Vendor
- Product/Database
- Contract Holder
- Purchased Through
- Authorized Users

For the fields "Purchased Through" and " Authorized Users," drop-down boxes were added to facilitate use of controlled language. DPI ultimately determined the controlled language for these fields as follows:

Purchased Through: This field was used to record the purchase method of the product/database. Controlled language for this field included:
- Vendor (enter the word vendor, not the vendor name)
- WiLS
- CESA Purchasing.

Authorized Users: This field was used to enter the authorized users for each database. Controlled language for this field included, for K-12 respondents:
- Elementary
- Elementary & Middle
- Middle
- Middle & High
- High
- All K-12

And for public libraries and systems:
- Service Population (for public libraries and systems)
- All Cardholders at System
- Service Population & All Cardholders at System

These could be overridden by those who were cutting and pasting into the form from other sources.

Developing the Database Inventory Submission Instructions

Once the fields for the database inventory submission form were finalized, CDygert Solutions and the DPI worked to develop instructions for submitting the inventory files. These instructions included:

- What to include in the database inventory
- What NOT to include in the database inventory
- How to complete the database inventory template

Information on getting help with questions or technical problems were also provided. On the instruction form for the public libraries, which was distributed a week later than those for the K-12 and public library system sectors, a link to an online form, *Wisconsin Statewide Electronic Resource Database Inventory – No Holdings Confirmation for Public Libraries* was included. Links to a similar form for the K-

12 District was sent to those contacts shortly after distribution of the instructions once the need was recognized. (See Appendix B for the complete Instructions form.)

Formatting Instructions

One of the primary goals in crafting instructions for the inventory was to facilitate the submission of quality data. CDygert Solutions' previous experience with a similar inventory project highlighted some potential data processing challenges, such as those depicted in the examples below, where multiple entries are provided on the same line, or in the same cell:

Table 1. Examples of submissions containing data processing challenges

Vendor	Product/Database
World Trade Press	AtoZ Maps; AtoZ Food America; AtoZ World Culture
Gale	Gale in Context: Biography; Gale Courses

Table 2. Examples of submissions containing data processing challenges

Vendor	Product/Database
World Trade Press	AtoZ Maps AtoZ Food America AtoZ World Culture
Gale	Gale in Context: Biography Gale Courses

Submissions in these formats require manual interaction with the data to reformat it so it is readily processed by standard Excel functionality, and multiple submissions of such formatted data quickly make for a labor intensive process. To avoid this, these examples were included in the instructions in what *not* to do when submitting data. Rather, submitters were asked to follow the format of the example below, where each product/database is presented on its own row:

Table 3. Examples of the proper way to format data

Vendor	Product/Database
Gale	Gale in Context: Biography
Gale	Gale Courses
World Trade Press	AtoZ Maps
World Trade Press	AtoZ Food America
World Trade Press	AtoZ World Culture

Including this level of detail in the instructions appears to have been successful, as only a handful of submissions did not adhere to the format above, where a single database is provided on a separate line.

File Naming Conventions

To ensure that submitted files were identifiable from one another, and linked to their home library, library system or school district, the instructions asked that the file name convention "Library/DistrictName_Inventory.xlxs" be utilized. While some submissions adhered to this naming convention, many did not. This is evident in the fact that 37 submissions were received with no change to the template name at all. Here again, the use of the online submission form with a backend organizing system was critical to efficiently conducting the inventory. Had these files been submitted individually via email, each would have required renaming before saved for further processing. The system, however, automatically assigned them a unique identifier as they were uploaded, thus resulting in multiple files with the naming convention of:

- Wisconsin Statewide Database Electronic Resource Database Inventory Template_1
- Wisconsin Statewide Database Electronic Resource Database Inventory Template_2
- Wisconsin Statewide Database Electronic Resource Database Inventory Template_3
- Wisconsin Statewide Database Electronic Resource Database Inventory Template_4

and so on up to _37.

Conducting the Database Inventory

The schedule for conducting the database inventory was developed in conjunction with DPI to accommodate the timing of meetings with the public library systems and subsequent meetings of those systems with their members, as well as the spring breaks of the K-12 sector.

Table 4. Inventory submission periods

Contacts/Library Type	Release Date	Due Date
Library System Directors	March 31, 2022	April 14, 2022
K-12 District Library Media Specialist	April 4, 2022	April 21, 2022
Public Library Directors	April 7, 2022	April 21, 2022

Upon release of the instructions to the K-12 District Library Media Specialists, the DPI and CDygert Solutions received several questions regarding how districts with no database holdings other than those available through BadgerLink should be recorded. After conferring with the DPI, CDygert Solutions created a brief form for those in this circumstance to complete. The link to the form for the K-12 District Library Media Specialists contacts was sent as an update to the original announcement on April 6. As the announcement of the project had not yet been sent to the Public Library Directors, it was incorporated into the announcement and the instructions that were distributed to that group.

On Friday, April 22, 2022, CDygert Solutions and DPI staff reviewed the number of submissions to date and determined to extend the deadline for submission to April 27th for all library types.

Developing an Online Submission Form

Having a central repository in which to receive and store the database inventory submissions was critical to the project. Alternatively, submissions would have had to be submitted and received via email, and manually moved to an appropriate file structure on a local computer. To streamline the submission process, CDygert Solutions created an online submission form that accomplished several objectives. Most importantly, it automatically linked the submitted file to its unique library type identifier using a drop-down box, as illustrated in the screen capture below:

Figure 1. Partial screenshot of Database Inventory submission form

On the backend, the submission system used library type as one of the organizing fields which was sortable and easily tracked the number of submissions by each sector. It also assisted with the identification of duplicate submissions, and the management of files submitted with the same names:

Figure 2. Screenshot of Database Inventory Submission Form backend

Cleaning up the Database Inventory

Cleaning up the database inventory submissions comprised the bulk of phase one of this project. Some data clean-up efforts were required to correct the ID for the submitting library, most was done in order to normalize vendor and database names.

Correcting IDs

In several cases, individual public libraries selected their library system, rather than their individual library, when submitting their inventory. As these files were processed for the final inventory, CDygert Solutions remapped them to the correct unique ID for the individual library.

Normalizing Vendor and Database Names

Significant effort was required to normalize vendor and database names. To ensure that the correct format of each was used in the final inventory, CDygert Solutions verified the correct form of product names by consulting vendor websites. We also used these sites to verify the form and spelling of vendors. This normalization process was required for most products with two or more entries.

Below is an example of multiple entries received for the product CultureGrams from ProQuest:

Table 5. Examples of data requiring normalization

K-12 District	Vendor	Product/Database
District One	Proquest	CultureGrams
District Two	ProQuest	ProQuest Culture Grams
District Three	Proquest, LLC	Culture Grams
District Four	ProQuest	CultureGram
District Five	ProQuest, Inc.	Culturegrams
District Six	ProQuest	Culturegrams Online

All sixty-one entries of this product were normalized as depicted in the table below:

Table 6. Normalized submission examples

K-12 District	Vendor	Product/Database
District One	ProQuest	CultureGrams
District Two	ProQuest	CultureGrams
District Three	ProQuest	CultureGrams
District Four	ProQuest	CultureGrams
District Five	ProQuest	CultureGrams
District Six	ProQuest	CultureGrams

Creating the Final Inventory

Once the data was normalized, the inventories for each library type were combined into a single Excel file titled "Wisconsin Database Inventory 2022", which has been provided to DPI via email, is also

available on the CDygert Solutions Portal's Wisconsin Statewide Electronic Database Inventory & Needs Assessment Study project page via the credentials provided, and is provided as Appendix C to this report.

The Excel format of the Inventory includes pivot tables and filters that allow the data to be viewed in multiple ways. For example, the data may be filtered to view only those databases licensed by one or more library types, or by a specific library, school district, or public library system.

Inventory Results

In addition to the submission of a database inventory, individual public libraries and K-12 school districts had the opportunity to complete a form confirming they had no database holdings outside of those accessed through BadgerLink. The total number of inventory submissions and no holding confirmations from each library type are provided in the table below, along with the overall response rate:

Table 7. Number of responses and response rate per library type

Library Type	Total Number of Entities in Library Type	Number of Database Inventory Submissions	Number of No Holdings Confirmed	Total Responses	Response Rate
Public Library System	16	16	N/A	16	100%
Individual Public Library	382	72	120	192	50%
K-12 Public School Districts (422) K-12 Tribal Schools (3) K-12 Residential Schools (2)	427	138	33	171	40%

Approximately four hundred sixty-two (462) database products were reported by all library types taken together[2], with a total of two thousand two hundred and forty-four (2,244) subscriptions. Perhaps most surprising of the database inventory results is the number of products for which only one subscription was held across all library types. As the chart below shows, two-hundred and forty-four (244) products were held by only one of the reporting libraries. Only fifty-three products were held by ten or more libraries:

---

[2] Some of these databases are versions of similar products, such as FactCite 123 Lingo and FactCite Complete. Best efforts were made to determine the uniqueness of content.
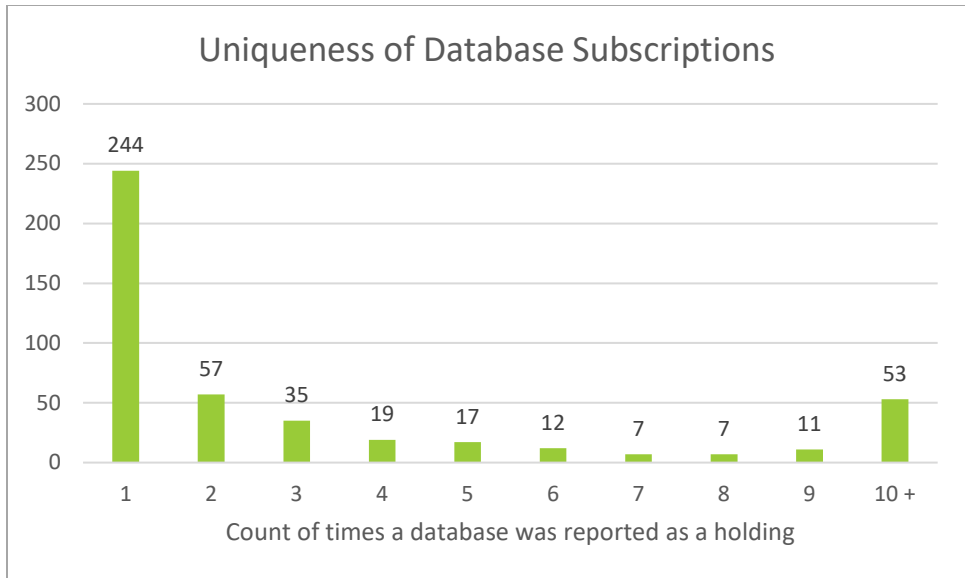

Figure 3. Distribution of databases by number of subscriptions held

The table below lists the fifty-three databases that have 10 or more subscribers among reporting library types:

Table 8. Databases with ten or more subscribers

Databases with Ten or More Subscribers

Phase Two: Wisconsin Statewide Database Needs Assessment

Phase two of the project consisted of a needs assessment study to determine whether any gaps exist between those databases provided through BadgerLink and those provided through public libraries and K-12 public school district libraries. To lay the groundwork for the assessment, CDygert Solutions developed a survey with input from the DPI.

Survey Development

The survey was designed to assess the importance and satisfaction of subject areas and format types currently covered by BadgerLink databases, as well as to identify gaps in coverage. While doing so, it asked respondents to keep the "following scope in mind when responding:

> *From personal interest to educational research, BadgerLink is Wisconsin's Online Library, providing Wisconsin residents with licensed trustworthy resources. The resources are designed to provide a foundational collection serving all Wisconsin residents, augmenting those available through K-12 schools, public libraries, public and private universities and technical colleges, medical and health-care facilities and practitioners, and state agencies.*"

Through discussion with DPI, it was determined that a single survey would be used for all three library types, and the survey began by asking respondents to identify as belonging to one of those groups. Questions about the type and size of population served were then presented dependent upon that choice. Once those were recorded, all respondents were presented the same content for the remainder of the survey.

Most survey questions were built around the general subject areas "K-12 and Professional Learning Subject Areas" and "General Interest Subject Areas" as defined by DPI, with each further broken down into specific subject areas (e.g., History and Reader's Advisory in the K-12 and Professional Learning Subject Areas, and Auto Repair and Consumer News & Information in the General Interest Subject Areas) and Format Types (e.g., Encyclopedias, Newspapers, Video.)   Questions were then designed with the purpose of having the respondent rate (i) the importance of, and satisfaction with, database content in each subject area, and (ii) the importance and satisfaction with various format types for content in each subject area.

The survey concluded by giving the respondents an opportunity to identify specific library databases they wished were available through BadgerLink, to identify up to two predefined outcomes they would like to see from the Wisconsin Statewide Electronic Database Inventory & Needs Assessment Study, and an opportunity to respond to an open-ended question about the project. Respondents could also elect to provide their contact information for follow-up purposes. (See Appendix D for the survey mechanism.)

Survey Results

The survey was distributed to the designated contacts for each library type by DPI on May 10, 2022, with a closing date of May 25, 2022. (See Appendix E for the responses by all library types combined. See

Appendix F for the survey responses compared by library type.) A total of 259 starts were made to the survey, of which 182 were complete and valid responses. The number of responses from each library type were as follows:

Public Library System: 31 (17%)
Individual Public Library: 43 (24%)
K-12 School District: 108 (59%)

As noted above, most survey questions were built around the general subject areas "K-12 and Professional Learning" and "General Interest" as defined by DPI, with each further broken down into specific subject areas. Ratings were done on a five-point Likert scale from "Not Important" to "Very Important." Following the subject area query section were questions that explored the impact of the COVID-19 pandemic, specific database recommendations, and desired project outcomes. This section of the report discusses the results of the survey in each of these areas separately accompanied by the corresponding survey question number.

Findings for Database Content in K-12 and Professional Learning Subject Areas

Questions six through nine asked respondents to rate the importance of, and satisfaction with, database content in K-12 and education/library professional learning subject areas in the BadgerLink databases. Questions ten through thirteen asked respondents to rate the importance of, and satisfaction with, various format types for content in K-12 and education/library professional learning subject areas in the BadgerLink databases.

Question Six: The Importance of Availability of Content

This question asked users to rate how important the availability of content in the K-12 and Professional Learning subject areas is to the respondent's user base. Overall, respondents found the subject areas in this category important, with the bulk of possible responses being assigned to either "important" (43%) or "very important" (25%).   Only 13% of possible responses were assigned to "not important" and "somewhat important", with Collection Development and Mathematics deemed the least important overall. Nineteen percent of possible responses were assigned to the category of neutral.

When the rankings of "important" and "very important" are combined, the level of importance of the availability of these subject areas to the respondent's user bases ranked in importance as follows:

1. History
2. Literature
3. Social Studies
4. Science
5. Education
6. Humanities
7. Reader's Advisory
8. Test Preparation & Skill Building
9. Computing & Information Technology

10. The Arts
11. Mathematics
12. Collection Development
13. Library and Information Science

The table below compares these rankings by library type:

Table 9. Comparison of rankings of importance of availability in K-12 and Professional Learning subject areas by library type

Public Library System	Individual Public Library	K-12 School District
1. History 2. Literature 3. Reader's Advisory 4. Education 5. Test Preparation & Skill Building 6. Computing & Information Technology 7. Collection Development 8. Humanities 9. Science 10. Social Studies 11. The Arts 12. Library and Information Science 13. Mathematics	1. Reader's Advisory 2. Test Preparation & Skill Building 3. Computing & Information Technology 4. Education 5. Literature 6. History 7. The Arts 8. Science 9. Humanities 10. Social Studies 11. Mathematics 12. Collection Development 13. Library and Information Science	1. Social Studies 2. History 3. Science 4. Literature 5. Humanities 6. Education 7. The Arts 8. Computing & Information Technology 9. Reader's Advisory 10. Test Preparation & Skill Building 11. Mathematics 12. Library and Information Science 13. Collection Development

Question Seven: How Well Databases Meet Users' Needs

This question asked respondents to rank how well BadgerLink databases met respondent's users' needs in each K-12 and Professional Learning subject area. Overall, respondents felt that these subject areas met users' need "well" or "very well", with over half (58%) of possible responses being assigned to these categories. Many respondents were neutral on the issue, with 32% of possible responses assigned to that category. The categories of "not well" and "somewhat well" accounted for only 10% of responses in this general subject area.

When the rankings of "well" and "very well" are combined, those subject areas deemed to best be meeting users' needs rank as follows:

1. Literature
2. History

Humanities
3. Reader's Advisory
   Science
   Social Studies
   Test Preparation & Skill Building
4. Education
5. Library and Information Science
   The Arts
6. Computing & Information Technology
7. Mathematics
8. Collection Development

The table below compares these rankings by library type:

Table 10. Comparison of rankings of how well BadgerLink databases meet users' needs in K-12 and Professional Learning subject areas by library type

Public Library System	Individual Public Library	K-12 School District

1. Test Preparation & Skill Building
2. Reader's Advisory
3. Literature
4. Education
    History
5. Science
6. Humanities
7. Computing & Information Technology
    Social Studies
    The Arts
8. Collection Development
    Library and Information Science
9. Mathematics
	1. Reader's Advisory
	    Test Preparation & Skill Building
	2. Literature
	3. Education
	    Humanities
	4. History
	5. Science
	    Social Studies
	6. The Arts
	7. Computing & Information Technology
	8. Library and Information Science
	9. Mathematics
	10. Collection Development
		1. History
		    Humanities
		    Social Studies
		2. Literature
		3. Science
		4. Education
		5. Reader's Advisory
		6. Test Preparation & Skill Building
		7. Library and Information Science
		8. The Arts
		9. Collection Development
		    Computing & Information Technology
		10. Mathematics

As one of the primary goals of the Project is to identify gaps in the collection, it is instructive to look at those areas that respondents felt did not "well" or only "somewhat well" meet users' needs. Again, only a small percentage of possible assigned rankings were given to these subject areas, but they do indicate potential gaps in the collection. When subject areas were deemed to "not well" or only "somewhat well" meet the needs of users', their ranking from least well is as follows:

1. Collection Development
2. Computing & Information Technology
   Mathematics
3. The Arts
4. Social Studies
5. Library and Information Science
6. History
7. Science
8. Education
   Test Preparation & Skill Building
9. Humanities
   Reader's Advisory
10. Literature

Table 11. Comparison of areas rankings of K-12 and Professional Learning subject areas that least well meet users' needs by library type

Public Library System	Individual Public Library	K-12 School District

1. Social Studies
2. History
   Humanities
   The Arts
3. Library and Information Science
4. Education
   Science
   Computing & Information Technology

		3. Mathematics
		4. Social Studies
		   Science
		   The Arts
		5. Literature
		   Reader's Advisory
		   Test Preparation & Skill Building
		6. Education
		7. History
		   Library and Information Science
		8. Humanities

Question Eight: Content Gaps Filled by Other Sources

This question sought to identify if electronic resource (library) databases available through other sources, such as the respondent's own library or library system, made up for any gaps in BadgerLink database K-12 and library/education professional learning subject areas.   For many with those additional resources, the answer was yes. However, just over 17% of respondents had only access to BadgerLink databases, as shown in the chart below:
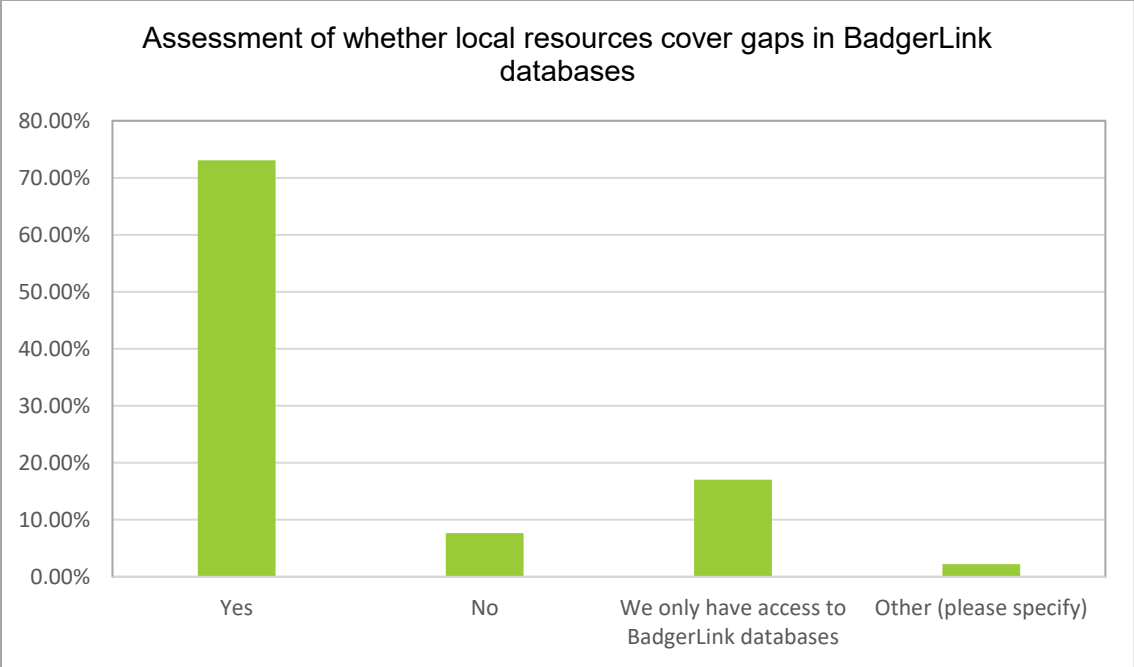

Figure 4. Assessment of whether local resources cover gaps in BadgerLink database

Question Nine: Areas for Increased Representation

This question gave respondents the opportunity to identify up to three areas within K-12 and Professional Learning subject areas for increased representation in BadgerLink. The chart below shows the combined results of all three library types, with Test Preparation & Skill Building, Computing and Information Technology, and Science the top three:
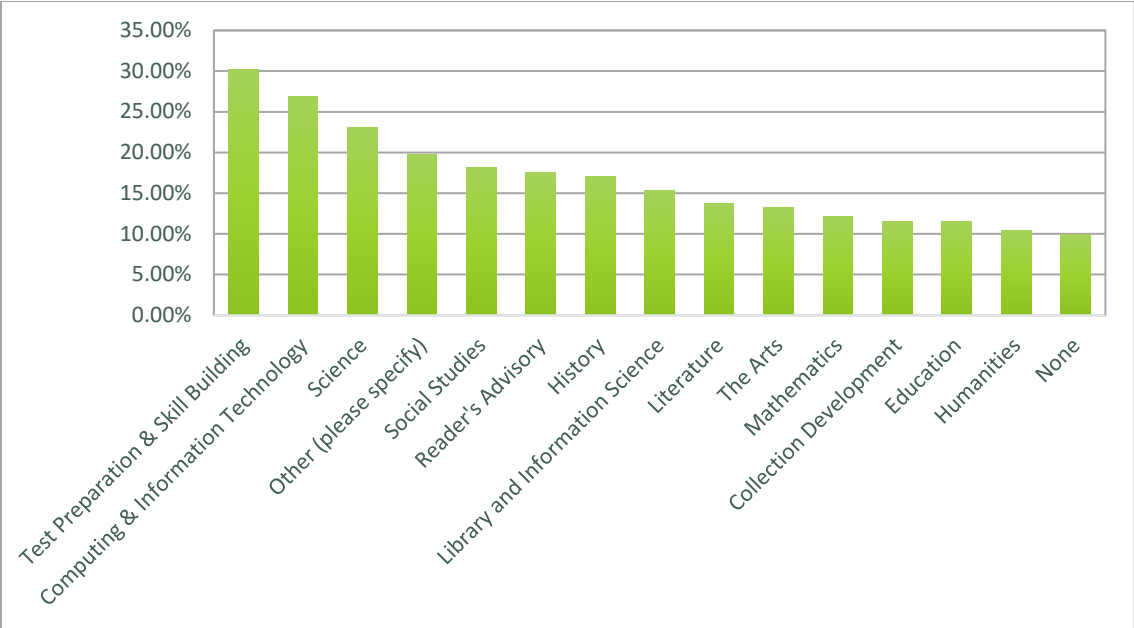

Figure 5. Rating of areas identified for greater representation in BadgerLink in K-12 and Professional Learning subject areas

The table below compares how the top three subject areas selected for increased representation in BadgerLink differ by library type:

Table 12. Comparison of top three subject areas selected for increased representation by library type

Public Library System	Individual Public Library	K-12S School District
1. Test Preparation & Skill Building 2. Collection Development 3. Computing & Information Technology	1. Test Preparation & Skill Building 2. Computing & Information Technology 3. Reader's Advisory	1. Social Studies 2. Science 3. Computing & Information Technology

As shown in the Figure 5, many respondents selected "Other" to provide an open-ended response to this question. Most respondents used this option to request specific databases or database types rather than subject areas, for example:

"Pro/Con; Opposing Viewpoints; Issues"

"Multimedia curricular resources"

"Bring back Soundzabound, Bill Nye the Science Guy videos"

"Resources for lower grades like 4K-5 / easy to access/ easy to read and use"

The remainder of responses largely cited subject areas in the General Interest subject area, which are covered later in the survey.

Question Ten: The Importance of Availability of Format Types

This question asks respondents to rate the importance of format types for content in K-12 and Professional Learning subject areas. Overall, respondents found the format types to be important, with the bulk of possible responses being assigned to "important" (39%) or "very important" (33%). Only 13% of possible responses were assigned to "not important" or "somewhat important". The remaining 15% were neutral on the topic.

When the rankings of "important" and "very important" are combined, the level of importance of these format types to the respondent's users' ranked in importance as follows:

1. Newspapers
2. Magazines
3. Images
   Journals
4. Scholarly / Peer-Reviewed Journals
5. Video
6. Encyclopedias

7. Sound / Music

The table below compares the rankings by library type:

Table 13. Comparison of how important format types are for K-12 and Professional Learning subject areas by library type

Public Library System	Individual Public Library	K-12 School District

1. Newspapers
2. Magazines
3. Images
   Journals
   Video
4. Scholarly / Peer-Reviewed Journals
5. Encyclopedias
6. Sound / Music

	2. Scholarly / Peer-Reviewed Journals
	3. Journals
	   Magazines
	4. Images
	5. Encyclopedias
	   Video
	6. Sound / Music
		1. Images
		2. Encyclopedias
		3. Magazines
		   Newspapers
		4. Video
		5. Journals
		6. Scholarly / Peer-Reviewed Journals
		   Sound / Music

Question Eleven: How Well Format Types Meet Users' Needs

This question asked respondents to rank how well BadgerLink databases met respondent's users' needs for K-12 and Professional Learning subject areas by format type. Overall, respondents felt that these format types met users' needs "well" or "very well", with over half (60%) of possible responses being assigned to these categories. Twenty seven percent (27%) of possible responses were assigned to neutral, with the remaining 13% assigned to "not well" or "somewhat well".

When the ranking of "well" and "very well" are combined, the format types deemed to best be meeting users' needs rank as follows:

1. Encyclopedias
2. Scholarly / Peer-Reviewed Journals
3. Journals
4. Magazines
   Newspapers
5. Images
6. Video

The table below compares the ranking by library type:

Table 14. Comparison of format types deem to best meet user needs by library type

Public Library Systems	Individual Public Library	K-12 School District

1. Encyclopedias
   Journals
   Magazines
   Newspapers
	1. Encyclopedias
	2. Scholarly / Peer-Reviewed Journals
	3. Journals
		1. Encyclopedias
		2. Journals
		3. Scholarly / Peer-Reviewed Journals

	4. Newspapers	4. Magazines
Scholarly / Peer-Reviewed Journals	5. Magazines	5. Newspapers
2. Images	6. Images	6. Images
3. Video	7. Video	7. Video

As one of the primary goals of the project is to identify gaps in BadgerLink, it is instructive to look at the format types that respondents felt were "not well" or only "somewhat well" represented. Again, only a small percentage of possible assignations across the metric were given to these rankings but do indicate potential gaps in the collection. When format types were deemed to "not well" or only "somewhat well" represented , their rankings by least well represented overall are as follows:

1. Video
2. Images
3. Magazines
4. Newspapers
5. Scholarly / Peer-Reviewed Journals
6. Journals
7. Encyclopedias

The table below compares the ranking by library type:

Table 15. Comparison of format types least well represented in K-12 and Professional Learning subject areas by library type

Public Library Systems	Individual Public Library	K-12 School District

2. Video
3. Magazines
    Newspapers
4. Encyclopedias
    Scholarly / Peer-Reviewed Journals
	1. Video
	2. Magazines
	3. Newspapers
	    Images
	4. Scholarly / Peer-Reviewed Journals
	    Journals
	5. Encyclopedias
		1. Video
		2. Images
		3. Scholarly / Peer-Reviewed Journals
		4. Journals
		    Magazines
		    Newspapers
		5. Encyclopedias

Note: The format type "Journals" did not receive any rankings of "not well or "somewhat well" from respondents in this library type.		

Question Twelve: Format Type Gaps Filled by Other Sources

This question sought to identify if electronic resource (library) databases available through other sources, such as the respondent's own library or library system, made up for any gaps in format types available through BadgerLink.   For many with those additional resources, the answer was yes.

However, nearly 17% identified this as a gap, and just over 18% of respondents had only access to these formats through BadgerLink databases, as shown in the chart below:

Assessment of whether local resources cover format type gaps in BadgerLink databases

- YES: 60.44%
- NO: 16.48%
- WE ONLY HAVE ACCESS TO BADGERLINK DATABASES: 18.68%
- OTHER (PLEASE SPECIFY): 4.40%
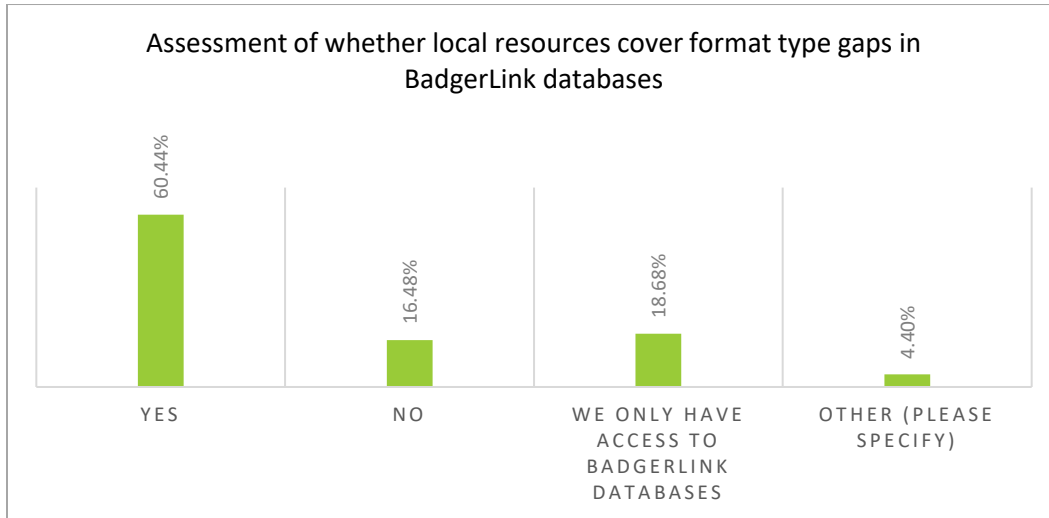

Figure 6. Assessment of whether local resources cover format type gaps in BadgerLink database in K-12 and Professional Learning subject areas

Question Thirteen: Format Types for Increased Representation

This question gave respondents the opportunity to identify up to three format types within K-12 and Professional Learning subject areas for increased representation in BadgerLink. The chart below shows the combined results of all three library types, with Video, Sound / Music, and Images the top three:

Responses by format type (approximate values):
- Video: ~51%
- Sound / Music: ~37%
- Images: ~34%
- Newspapers: ~29%
- Magazines: ~27%
- Scholarly / Peer-Reviewed...: ~18%
- Journals: ~16%
- Encyclopedias: ~13%
- None: ~9%
- Other (please specify): ~8%
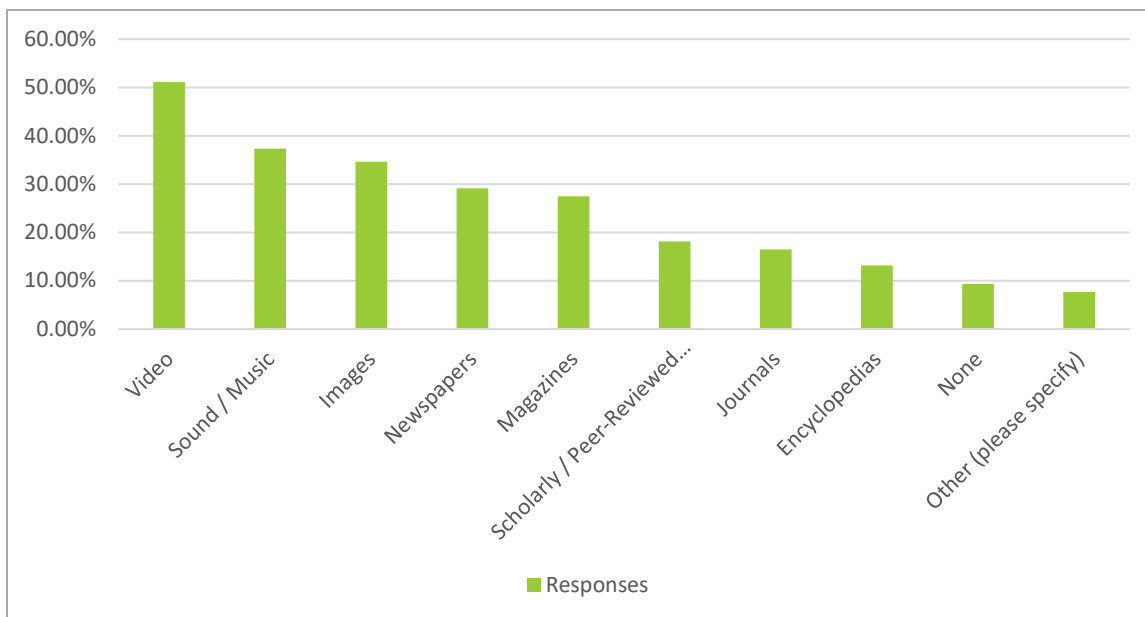

Figure 7. Format types selected for greater representation in K-12 and Professional Learning subject areas

The table below compares the top three selections by library type:

Table 16. Comparison of format types selected for greater representation in BadgerLink in K-12 and Professional Learning subject areas by library type

Public Library System	Individual Public Library	K-12 School District
1. Newspapers 2. Images 3. Magazines	1. Newspapers 2. Magazines 3. Video	1. Video 2. Sound / Music 3. Images

Findings for Database Content in General Interest Subject Areas

Questions fourteen through seventeen asked respondents to rate the importance of, and satisfaction with, database content in General Interest subject areas in the BadgerLink databases. Questions eighteen through twenty-one asked respondents to rate the importance of, and satisfaction with, various format types for content in General Interest subject areas in the BadgerLink databases.

Question Fourteen: The Importance of Availability of Content

This question asked respondents to rate how important the availability of content in the General Interest subject areas were to their users. Overall, respondents found the subject areas in this category important, with the bulk of possible responses being assigned to either "important" (39%) or "very important" (26%). Only 15% of possible responses were assigned to "not important" (7%) or "somewhat important" (8%). Twenty percent (20%) of possible responses were assigned to the category of neutral.

When the rankings of "important" and "very important" are combined for all responses, availability of these subject areas to the respondent's user bases are ranked in importance as follows:

1. Current News & Information
2. Historical News & Information
3. Test Preparation & Skill Building
4. General Health & Well-Being
5. Reader's Advisory
6. Local History
7. Consumer Information
8. Auto Repair
9. Financial Planning
10. Job-Seeking
11. Genealogy
12. Business News & Research
13. Hobbies

The table below compares the ranking by library type:

		7. Consumer Information
		8. Financial Planning
		9. Business News & Research
		10. Auto Repair
		11. Job-Seeking
		12. Hobbies
		13. Genealogy

Question Fifteen: How Well Databases Meet Users' Needs

This question asked respondents to rank how well BadgerLink databases met users' needs in General Interest subject areas.   Overall, respondents felt that these subjects met users' needs well, with half (50%) of possible responses being assigned to "well" (41%) or "very well" (9%). Many respondents were neutral on the issue, with 40% of possible responses assigned to that category. The categories of "not well" and "somewhat well" accounted for only 10% of responses in General Subject areas.

When the rankings of well and "very well" are combined, those subject areas deemed to best be meeting users' needs rank as follows:

1. Historical News & Information
2. Test Preparation & Skill Building
3. Current News & Information
4. Consumer Information
   General Health & Well-Being
   Reader's Advisory
5. Business News & Research
6. Auto Repair
7. Genealogy
   Job-Seeking
8. Local History

The table below compares the ranking by library type:

Table 18. Comparison of how well content in General Interest subject areas meet users' need by library type

Public Library System	Individual Public Library	K-12 School District

1. Test Preparation & Skill Building
2. Auto Repair
3. Consumer Information
   General Health & Well-Being
   Historical News & Information

4. Business News & Research
5. Current News & Information
6. Genealogy
7. Job-Seeking
8. Local History
	1. Auto Repair
	   Consumer Information
	2. General Health & Well-Being
	3. Historical News & Information
	   Reader's Advisory
	   Test Preparation & Skill Building
	4. Business News & Research
	   Current News & Information
	5. Genealogy
	   Job-Seeking
	6. Local History
		1. Historical News & Information
		2. Current News & Information
		   Test Preparation & Skill Building
		3. Reader's Advisory
		4. General Health & Well-Being
		5. Consumer Information
		6. Business News & Research
		7. Auto Repair
		8. Job-Seeking
		9. Genealogy
		10. Local History

As one of the primary goals of the Project is to identify gaps in the collection, it is instructive to look at those areas that respondents felt were "not well" or only "somewhat well" represented in BadgerLink. Again, only a small percentage of possible rankings were given to these subject areas, but they do indicate potential gaps in the collection. The ranking of subject areas that received "not well" or "somewhat well" assignments are:

1. Local History
2. Genealogy
3. Current News & Information
4. Job-Seeking
5. General Health & Well-Being
6. Historical News & Information
7. Business News & Research
8. Reader's Advisory
   Auto Repair
9. Test Preparation & Skill Building
10. Consumer Information

The table below compares these rankings by library type:

Table 19. Comparison of content deemed not well represented in General Interest subject areas by library type

Public Library System	Individual Public Library	K12 School District

1. Local History
2. Genealogy
3. Historical News & Information

		6. Auto Repair
		7. Historical News & Information
		   Job-Seeking
		8. Business News & Research
		   Genealogy
		9. Consumer Information

Note: The subject areas "Test Preparation & Skill Building" and "Reader's Advisory" did not receive any "not well" or "somewhat well" rankngs.	Note: The subject area "Reader's Advisory" did not receive any "not well" or "somewhat well" rankings.	

Question Sixteen: Content Gaps Filled by Other Sources

This question sought to identify if electronic resource (library) databases available through other sources, such as the respondent's own library or library system, made up for any gaps in BadgerLink in General Interest subject areas. For over half of those with additional local resources, the answer was yes. However, just over 20% of respondents felt that a gap in coverage remained:
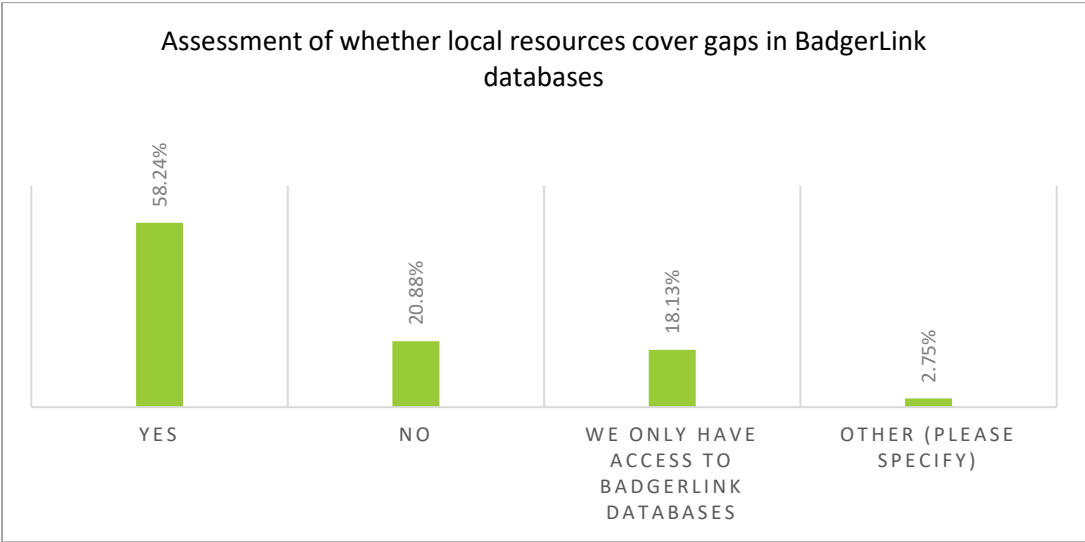

Figure 8. Assessment of whether local resources cover gaps in BadgerLink database in General Interest subject areas

Question Seventeen: Areas for Increased Representation

This question gave respondents the opportunity to identify up to three areas within General Interest subject areas for increased representation in BadgerLink. The chart below shows the combined results of all three library types, with the subject areas Current News & Information, Local History, and Genealogy the top three:
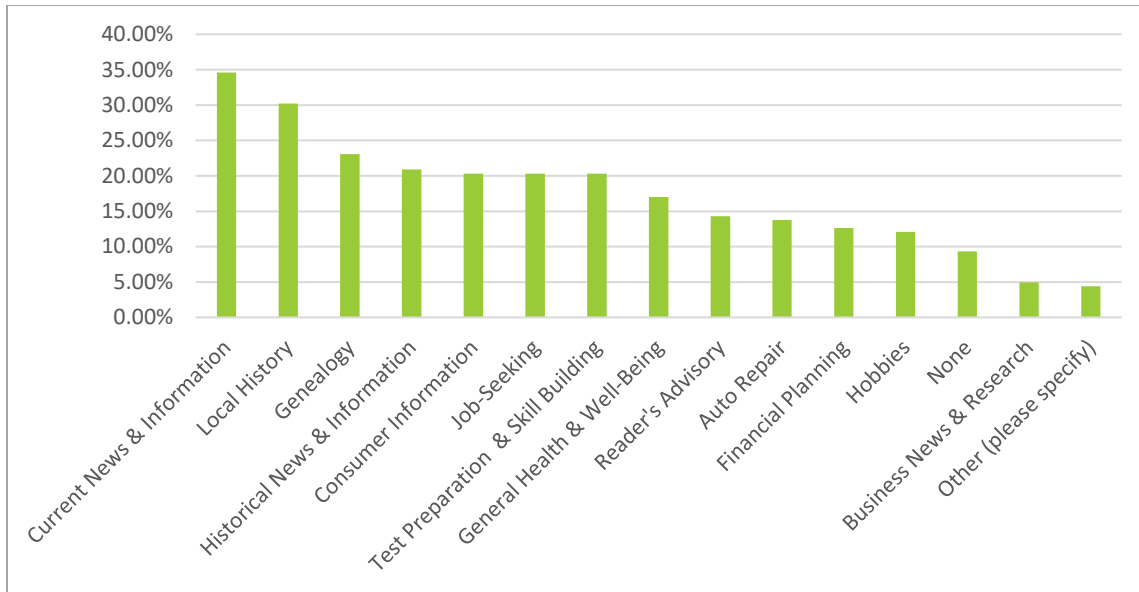

Figure 9. General Interest subject areas selected for increased representation in BadgerLink

The table below compares how the top three General Interest subject areas selected for increased representation in BadgerLink differ by library type:

Table 20. Comparison of top General Interest subject areas selected for increased representation by library type

Public Library System	Individual Public Library	K-12 School District
1. Genealogy 2. Job-Seeking 3. Consumer Information	1. Genealogy 2. Local History 3. Consumer Information	1. Current News & Information 2. Local History 3. Historical News & Information

Question Eighteen: The Importance of Format Types

This question asked respondents to rate the importance of format types for content in General Interest subject areas. Overall, respondents found the format types to be important, with the bulk of possible responses being assigned to "important" (41%) and "very important" (29%). Only 14% of possible responses were assigned to "not important" or "somewhat important". The remaining 16% were neutral.

When the ranking of "important" and "very important" are combined across all library types, the level of importance of these format types in General Interest subject areas ranked in importance as follows:

1. Newspapers
2. Magazines
3. Images
   Video
4. Encyclopedias

25

5. Journals
    Scholarly / Peer-Reviewed Journals
6. Sound / Music

The table below compares the ranking by library type:

Table 21. Comparison of importance of format types in General Interest subject areas by library type

Public Library System	Individual Library System	K12 School District
1. Newspapers 2. Magazines 3. Journals 4. Images 　　Scholarly / Peer-Reviewed Journals 　　Video 5. Encyclopedias 　　Sound / Music	1. Newspapers 2. Magazines 3. Journals 4. Scholarly / Peer-Reviewed Journals 5. Images 　　Video 6. Encyclopedias 7. Sound / Music	1. Newspapers 2. Encyclopedias 　　Images 　　Video 3. Magazines 4. Sound / Music 5. Scholarly / Peer-Reviewed Journals 6. Journals

Question Nineteen: How Well Format Types Meet Users' Needs

This question asks respondents to rank how well BadgerLink databases met respondent's user's needs in General Interest subject areas by format type. Overall, respondents felt that these format types met users' needs well, with the bulk of possible response being assigned to well (41%) or "very well" (14%). Thirty two percent (32%) were neutral, with the remaining 13% assigned to "not well" or "somewhat well".

When the rankings of well and "very well" are combined, the format types deemed to best be meeting users' needs in General Interest subject areas rank as follows:

1. Encyclopedias
2. Journals
3. Scholarly / Peer-Reviewed Journals
4. Magazines
5. Newspapers
6. Images
7. Video

The table below compares the rankings when broken out by library type:

Table 22. Comparison of format types that meet the needs of users in General Interest subject areas by library type

Public Library System	Individual Library System	K12 School District
1. Journals 2. Encyclopedias	1. Encyclopedias 　　Journals	1. Encyclopedias 2. Journals

3. Scholarly / Peer-Reviewed Journals 4. Magazines 5. Newspapers 6. Images 7. Video	2. Scholarly / Peer-Reviewed Journals 3. Newspapers 4. Magazines 5. Images 6. Video	3. Scholarly / Peer-Reviewed Journals 4. Magazines 5. Newspapers 6. Images 7. Video

As one of the primary goals of the project is to identify gaps on the BadgerLink, it is instructive to look at those format types that respondents felt were "not well" or only "somewhat well" represented. Again, only a small percentage of possible answers were assigned to these rankings but do indicate potential gaps in the collection. When format types were deemed to "not well" or only "somewhat well" meet users' needs in General Interest subject areas, the ranking across all three library types is as follows:

1. Video
2. Images
3. Newspapers
4. Scholarly / Peer-Reviewed Journals
5. Magazines
6. Journals
7. Encyclopedias

Public Library System	Individual Public Libraries	K12 School Districts
1. Video 2. Images 3. Newspapers 4. Scholarly / Peer-Reviewed Journals 5. Magazines 6. Encyclopedias 7. Journals	1. Video 2. Newspapers 3. Scholarly / Peer-Reviewed Journals 4. Magazines 5. Journals Images 6. Encyclopedias	1. Video 2. Images 3. Newspapers 4. Scholarly / Peer-Reviewed Journals 5. Magazines 6. Journals 7. Encyclopedias

Question Twenty: Format Type Gaps Filled by Other Sources

This question sought to identify if electronic resource (library) databases available through other sources, such as the respondent's own library or library system, made up for any gaps in format types in General Interest subject areas. For many (nearly 65%) with additional resources available to them, the answer was yes. However, nearly 18% of respondents identified this as a gap, and nearly 15% had access to these formats only through BadgerLink:

Assessment of whether local resources cover format type gaps in BadgerLink databases

64.81%
YES

17.59%
NO

14.81%
WE ONLY HAVE ACCESS TO BADGERLINK DATABASES

2.78%
OTHER (PLEASE SPECIFY)
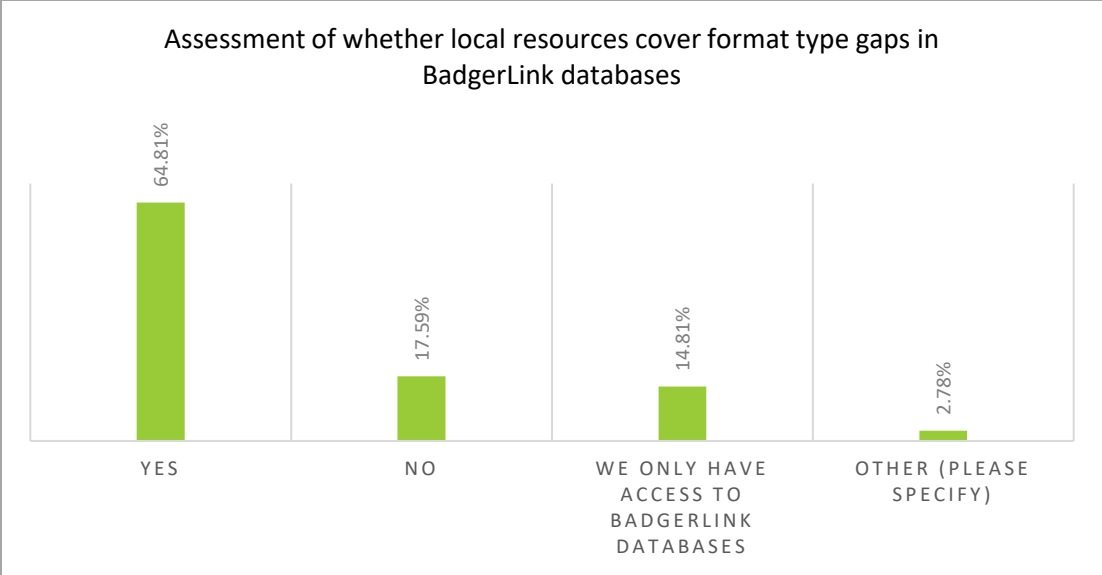

Figure 10. Assessment of whether local resources compensate for gaps in format types in BadgerLink databases in General Interest subject areas

Question Twenty-One: Format Types for Increased Representation

This question gave respondents the opportunity to identify up to three format types within General Interest subject areas for increased representation in BadgerLink. The chart below shows the combined results for all three library types, with Video the most frequently selected format, and the formats Sound /Music, Images, Magazines, and Newspapers all ranked equally as the next most frequently selected format:

Video, Sound / Music, Images, Magazines, Newspapers, Journals, Scholarly / Peer-Reviewed..., None, Encyclopedias, Other (please specify)

■ Responses
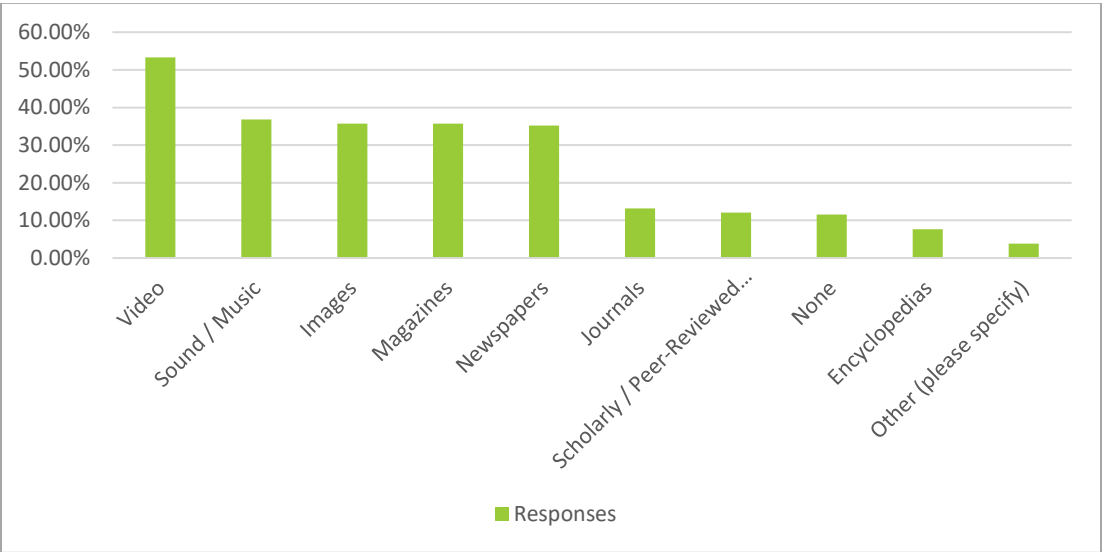

Figure 11. Format types selected for greater representation in General Interest subject areas

The table below compares the top three format types selected for greater representation in BadgerLink in General Interest subject areas by library type:

Findings for COVID-19 Implications

Questions twenty-two and twenty-three gave respondents an opportunity to share information about the impact the COVID-19 pandemic had on their database needs.

Question Twenty-Two: Gaps in Content Highlighted by COVID-19 Pandemic

This question asked respondents if the recent COVID-19 pandemic highlighted any gaps in the databases available to their user base, either through BadgerLink or their own local resources. Yes and no responses were fairly equal for each library type, although individual public libraries reported less recognition of collection gaps than did library systems or K-12 school districts:
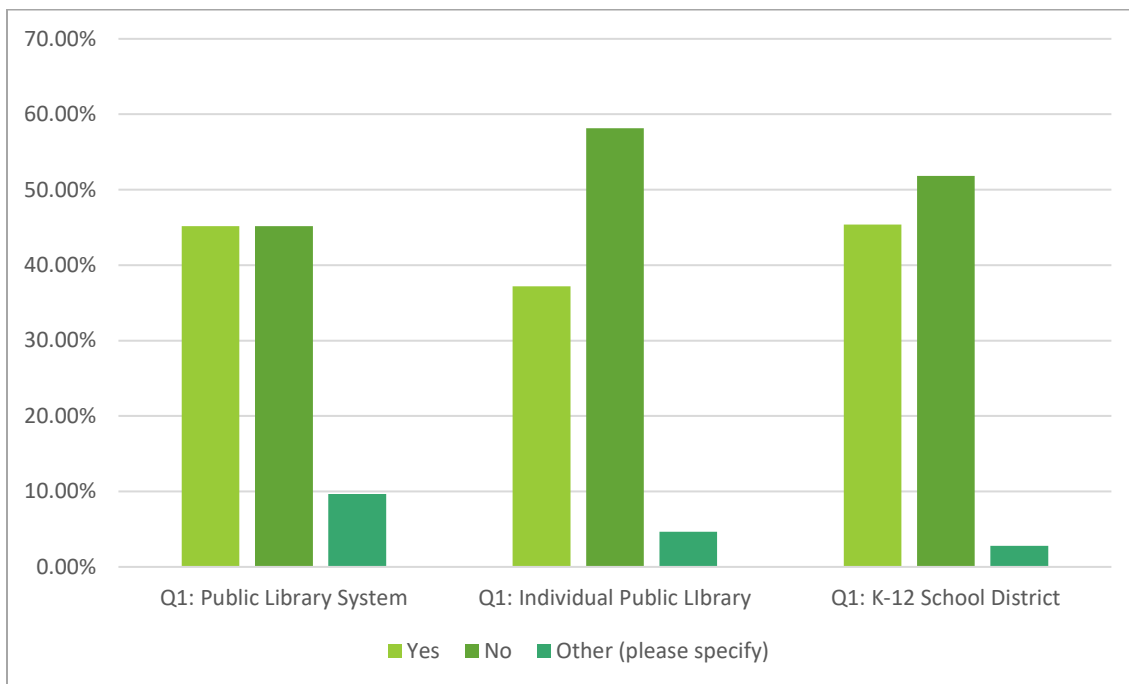

Figure 12. Assessment of whether COVID-19 highlighted gaps in online collections

Question Twenty-Three: Open-ended Comments About Effects of COVID-19

This question was a follow-up to question twenty-two and gave respondents who answered "yes" to that question an opportunity to provide additional information about coverage gaps highlighted by COVID-19. Below is a representative sampling of the results. Many respondents noted specific gaps, several mentioned adding new resources in response to the pandemic, some noted heightened digital divide issues, and others a lack of awareness of available databases:

> *"Remote access to some of the databases (Ancestry, NewspaperArchive, etc.) became very important when our libraries had to close their doors due to the pandemic. SCLS member libraries added databases like CreativeBug, RBDigital, Reference Solutions, New York Times, World Trade Press, Gale Courses, and more."*

> *"Video and Sound clips for creating their own videos. Video creating software. Material at a lower level (Middle and down) but higher interest level. Reliable current events with a neutral viewpoint. Simple interface for middle grades (EBSC0). Newsela, BrainPop, PebbleGo, Flocabularly are all programs our buildings wanted to use during the pandemic."*

> *"There is very little for young-learners—and very little that is aligned with Math, Science, Business standards at the HS level."*

> *"We needed to purchase more in the language arts, theater, performance, Shakespeare area."*

> *"There was a gap in lower-level content."*

> *"We're interested in streaming video service. At the HS level, the teachers use PBS videos but I don't think an institutional paid service is an option. I wonder if there is something like that? The middle and elementary level are also requesting video streaming options. Thank you. We love BadgerLink!"*

Findings for Additional Database Needs

Questions twenty-five and twenty-six asked gave respondents the opportunity to name specific databases they wished were available through BadgerLink or other cooperative purchasing opportunities.

Question Twenty-Five: Identification of Specific Databases for BadgerLink or Other Cooperative Purchasing Opportunities

This question gave respondents the opportunity to list up to five specific library databases they wished were available to their users through BadgerLink or other cooperative purchasing opportunities. A total of three hundred and sixty-eight (368) entries were received, representing approximately one hundred sixty-five (165) unique titles. Where possible, database names submitted were normalized. However, determining the exact number of unique database names submitted is difficult, given the free-form nature of submissions and variations of titles. The table below provides the list of databases that received five entries for this question, broken out by library type:

Table 25. Databases that received five or more entries across library types

Database	Public Library System	Individual Public Library	K-12 School District	Total
PebbleGo			23	23
Ancestry Library Edition	8	6	1	15
BrainPOP			15	15
Culturegrams	1		14	15
Gale In Context: Opposing Viewpoints			12	12
PebbleGo Next			8	8
Soundzabound			8	8
Consumer Reports	5	2		7
Hoopla	2	5		7
Newsela			7	7
TumbleBookLibrary			7	7
Brittanica Image Quest			6	6
Creativebug	3	3		6
Gale Courses	4	2		6
Kanopy	2	4		6
Teen Health & Wellness			6	6
World Book			6	6
Discovery Education			5	5
Learn360			5	5
Swank K-12 Streaming			5	5

Many of the titles suggested for purchase through BadgerLink or other cooperative purchasing opportunities are those with the highest subscription rate among library types, referenced in Table Eight: Databases with Ten or More Subscribers. (See Appendix G for the complete list of databases identified in question 25.)

Findings for Desired Project Outcomes

Questions twenty-six through twenty-eight gave respondents the opportunity to identify outcomes they would like to see from the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study, and to provide additional comments through two open-ended questions.

Question Twenty-Six: Desired Outcomes of the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study

This Question asked respondents to select up to two outcomes of the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study that were most important to them. The opportunity for increased collaboration was highly rated as a desired outcome, with the determination of gaps in existing collection very close behind. The table below show the results for this question:

Table 26. Rating of desired project outcomes

Project Outcomes	%	No.
Provide an opportunity for increased collaboration amongst public and K-12 public school libraries with purchasing, training, and marketing of databases.	46.33%	82
Determine whether any gaps exist between databases provided statewide through BadgerLink and those provided through public and K-12 public school libraries.	45.20%	80
Provide an opportunity for future development of a "living" inventory of library databases licensed by public and public K-12 school libraries.	31.64%	56
Addressing the lack of consistent and comprehensive information about what library databases are being licensed by public libraries, public library systems, and K-12 public school libraries.	29.94%	53
Inform potential changes or updates to the BadgerLink Procurement Collections, which are based on the general selection principles as outlined in the BadgerLink Collection Development Policy.	16.95%	30

Question Twenty-Seven: Additional Desired Study Outcomes

This question provided a follow-up to the previous question by giving respondents the opportunity to add additional outcomes they would like to see from the study. Twenty-five respondents provided substantive responses, which were fairly wide-ranging in their suggestions. The majority of hoped for outcomes center around changes being made to the BadgerLink collection:

"…supply the top 10 databases all libraries wish for."

"I would like to see more resources added to Badgerlink for younger students. Especially 4K-Grade 5. I don't use it as much as I would like because lower grade students don't have much to choose from that is pertinent to their needs and accessible to their reading levels."

"Looking forward to seeing an even more list robust BadgerLink resources. Thanks for all that you do!"

Others addressed issues of training, equity, usability, and awareness:

"I'd like some more comprehensive resources for patrons about what resources are available and how to use them. A lot of our patrons are confused about what they have access to, and are shocked when I tell them they have free access to BadgerLink databases."

"Equity between urban and rural, large and small, affluent and impoverished communities."

"Redoing webpage that is more user friendly for students. I realize that you have colleges as well, but what about a separate link to those database items that younger age students can use."

Question Twenty-Eight: Additional Thoughts

This question offered respondents the opportunity to share any additional thoughts. Twenty-nine respondents provided substantive responses, which, as with the open-ended questions regarding outcomes, were fairly wide ranging. The majority of responses were commentary about BadgerLink content and awareness surrounding it:

> *"I would like to see more (and only) full text results. EBSCO sources should be easier to search – it is too complex. Students rarely take the time to sort through results even after instruction."*

> *"Is it possible to get access to daily newspapers like The New York Times through BadgerLInk for current event classes?"*

> *"It would be great if digital collections like Hoopla, Kanopy, and Feegl could qualify for cooperative purchasing. I think that is where public libraries are seeing a big demand and the cost/circ model is difficult to sustain."*

> *"I think it's very easy for us to forget about BadgerLink. When we remember it, most patrons find it very useful, and we always have the information on hand for it—but we haven't had a big push for people to make use of it because I don't think our general patrons understand what it's function is (or some of our library staff, to be quite honest)."*

> *"For me the most important thing is the disseminating and training aspect, informing people about what is available and getting them familiar with how to dive into using it."*

> *"I did not even know half of what badgerlink offered until recently. I am also still unsure how to market these to our patrons, having some kind of strategy would be great. Also, training is important, but being a small library, this is not something I can take time myself to do, so it would be great if there can be something through dpi to help show how these databases work, and it is targeted towards all staff, not just manager and directors."*

Focus Groups and Interviews

CDygert Solutions conducted a series of interviews and focus groups to further explore the perception of the BadgerLink collection and to delve more deeply into some of the survey results. Three separate focus groups of 1.5 hours were scheduled with representatives from public library systems, individual public libraries, and library media specialists from K-12 public school districts. Five interviews of forty-five minutes each were conducted with individuals from each of those sectors, plus an interview with a representative of WiLS. (See Appendix H for the list of focus group participants and interviewees.) All focus groups and interviews followed the same format, with a set of five questions that were developed with and approved by DPI staff. (See Appendix I for the interview and focus group questions.)

This section of the report provides a summary of the outcome of the focus groups and interviews and is organized around the questions presented to participants. The first question is a general question regarding whether BadgerLink databases serves the groups as required by Wisconsin Statute; three are

based upon data drawn from the survey which focus on identifying gaps in BadgerLink, and the final question explores opportunities for increased collaboration amongst public and K-12 public school libraries around various aspects of acquiring and using electronic library databases.

As discussed in the section on the survey results, each of the library types identified a different set of subject areas and format types for increased representation in BadgerLink, although there was considerable overlap among the groups. Here, they are merged under the appropriate question for ease of reporting and review. The discussion of question one is broken out by library type.

Question One: BadgerLink's Provision of Content as Required by Wisconsin Statute

The first question asked participants if they felt that BadgerLink databases provide content to all groups as required by statute, which include state agency libraries and state employees, public library systems, public libraries, school libraries, and other types of libraries.

Across the board, the answers were of the "Yes, but…" nature. Many participants expressed uncertainty of who comprised the state agency libraries and felt they could not speak to the needs of that user group and whether BadgerLink content met their needs. Other summary findings include:

K-12 School District Discussion

- The majority of K-12 public school district representatives felt that most of the BadgerLink content is geared toward a higher level than K-12.
- BadgerLink is too difficult to navigate.
- BadgerLink databases themselves are too difficult to navigate. EBSCO databases were repeatedly cited in this discussion. Participants noted there were far too many clicks to get to useful search results. Another issue with EBSCO databases was the problem of students using the search result URL rather than the permalink, which ultimately ruins their project as the direct link to content is lost.
- Awareness and use of BadgerLink may be higher at rural and less-well funded schools without local database collections.
- There is a shared concern that their local public libraries have a low level of awareness of BadgerLink databases.
- NoveList was repeatedly cited as key resource, and an example of BadgerLink's positive impact.

Public Library Discussion

- In general, BadgerLink has resources that serve school library and public library needs, particularly family needs. It does not serve adult users as well, although the Small Engine Repair Reference Center (usually referred to as the automobile repair manuals) were cited repeatedly as the type of desirable content for this user group.
- Consumer health information was also cited as a need for adult users, and the need for Consumer Reports as a standalone resource as a gap in BadgerLink.
- There was agreement amongst this group that BadgerLink isn't as well-known as it should be, and that patron awareness of BadgerLink was very low.

- NoveList was cited as key resource, and an example of BadgerLink's positive impact.

Public Library System Discussion

- Most public library system representatives felt that BadgerLink content is geared toward the school libraries.
- There was agreement that there is a place for the full-text article databases in BadgerLink.
- There is agreement that BadgerLink content also meets many of the needs of public libraries. This group also cited the Small Engine Repair manuals as the type of content that meets the needs of adult users.
- NoveList was cited as key resource, and an example of BadgerLink's positive impact.

Question Two: Areas Identified for Increased Representation in BadgerLink in K-12 and Professional Learning Subject Areas

Among the three library types, the following areas were identified for increased representation in BadgerLink:

- Collection Development
- Computing & Information Technology
- Science
- Social Studies
- Test Preparation & Skill Building

Below is a summary of the discussion of the above K-12 and Professional Learning subject areas:

Collection Development

- This subject area generated little discussion, other than that held around the product NoveList, which is covered in Reader's Advisory.

Computing & Information Technology

- The need for content in this area ranges from simple computer use skill building, such as a using a mouse, to advanced MicroSoft Excel and Word skills. Several libraries subscribed or had subscribed to Gale Courses to fill this need, although the reviews of this product were mixed. Patrons need to "commit" to a course, rather than being able to dip in and out of it for snippets as needed, and the cost can be prohibitive.
- LinkedIn Learning (formerly Lynda.com) was mentioned several times as an ideal product to meet Computing & Information Technology needs, as well those in the Skill Building category.
- YouTube videos were cited as being used frequently for short, skill building videos.
- One of the K-12 participants noted that they were a Microsoft Teams school, which provides them with an educational component. Volunteers from the community teach computer science skills through the program to teachers and students using a Microsoft provided curriculum.

Reader's Advisory

- The importance of having access to NoveList through BadgerLink was raised more than any other database. Many participants, particularly in the public library or library systems groups, noted that they also subscribe to NoveList Plus, as it also covers non-fiction, and think that this would be an appropriate addition to BadgerLink.

Science

- One participant mentioned the need for support in test preparation in science specific to the ACT. It was unclear whether they were aware of the BadgerLink subscription to Learning Express Library College Admissions Test Preparation.
- This subject area did not generate much discussion. There seemed to be a vague sense that additional content was needed in this area, but the participants could not cite specific topics or databases that were lacking.

Social Studies

- Several participants felt strongly that the lack of a good pro/con databases was a major gap in BadgerLink. In this category, both Gale Opposing Viewpoints and ProQuest's SIRS Issues Researcher were mentioned.
- Several of the K-12 participants noted that social studies teachers were struggling with the new social studies standards that were established several years ago and it would be helpful if the DPI could link some of their content to those standards in some way.
- There was a general sense that there is a gap in history resources in BadgerLink, particularly for the lower K-12 grades. One participant noted that the History Reference Center only provides brief entries on topics, which aren't sufficient for a school paper, and noted that students often end up on Wikipedia.
- One participant noted that there is insufficient content in Psychology for the junior level.

Test Preparation & Skill Building

- BadgerLink's subscription to LearningExpress Library products meets most of the needs in this area, although some libraries find a need to complement these with resources like Tutor.com.
- Participants felt that one of the major gaps in BadgerLink is the lack of a language learning program. This was seen as critical point of need, as many libraries are unable to provide these resources individually. It was noted that these resources also have relevance as career development resources, as they are useful in supporting those in business and medical environments, as well as in the educational and hobby space. The product Mango Languages was most often cited as the desirable product, but participants also mentioned the product Transparent Languages Online.
- Several participants felt that, although they tried to market the test preparation content in BadgerLInk, it wasn't being used as frequently as it should. Still, they felt it was important that it was there.

Question Three: Areas Identified for Increased Representation in BadgerLink in General Interest Subject Areas

Among the three library types, the following areas were identified for increased representation in BadgerLink:

- Consumer Information
- Current News & Information
- Genealogy
- Historical News & Information
- Job-Seeking
- Local History

Below is a summary of the discussion of the above General Interest subject areas:

Consumer Information
- Participants in all groups noted the need for better access to consumer information in BadgerLink. There was much discussion about the publication Consumer Reports, and how access through EBSCO via BadgerLink was insufficient for user needs. Participants also noted that Consumer Reports is the standard-bearer in this subject area, with no real substitute or alternative.
- One participant noted that the Consumer Reports annual Buying Guide is not included in the EBSCO access, which constitutes a major failing of content.
- Several participants noted that they cancelled other databases to afford local subscriptions to Consumer Reports.

Current News & Information
- This topic generated a lot of discussion about the demise of local newspapers, and the increasing difficulty in getting current local news.
- The need for better access to the New York Times online was raised, and the difficulty of getting the print discussed. It was recognized that it is available through the U.S. Newsstream product in BadgerLink, but that it wasn't a user-friendly solution. One of the public library participants stated that they didn't get the New York Times because it was cost-prohibitive. One of the K-12 participants reported subscribing to the New York Times for their district due to the difficulty of having students access it through BadgerLink.
- Participants also expressed frustration with accessing Wisconsin newspapers through BadgerLink databases.

Genealogy
- For public library and library system participants, the need for quality genealogy research databases is very high. There was much discussion around the desire to have Ancestry.com provided by DPI as part of BadgerLink. While many expressed an appreciation for the inclusion

of HeritageQuest as an important and useful compliment to Ancestry.com, it clearly is not seen as a replacement.

- There was also discussion of the desire to have remote access to Ancestry.com restored, as use soared during the pandemic when Ancestry changed its policies to allow that access.

Historical News & Information

- This subject category did not generate much discussion. What discussion there was centered around the difficulty of easily finding and using pieces from databases in the classroom, and the need for "grab and go" content.

Job-Seeking

- There was a general sense among participants that there is a need for more job-seeking resources, although people seemed unaware of what specific products or resources were available in the marketplace.
- One participant mentioned the LAWDS project and speculated that the approach taken in that project to support job-seeking needs could continue. It was noted that a challenge to the public libraries is that their service areas don't always align with those of job centers in the state.

Local History

- Multiple participants cited frustration with the lack of centralized local history resources. Several participants mentioned the Wisconsin Historical Newspaper project and expressed disappointment that the project was on hold.
- Among K-12 participants, the discussion focused on making the local history content that is available through BadgerLink more easily found and used, even if it was a one-page help document. As one participant put it, we need pieces that we can just "grab and go."

Question Four: Format Types Identified for Increased Representation in BadgerLink

Among the three library types, the following areas were identified for increased representation in BadgerLink:

- Images
- Magazines
- Newspapers
- Sound / Music
- Video

Images

- Several K-12 participants discussed the need for a searchable image database on BadgerLink, so they did not have to worry about inappropriate materials resulting from Google searches or copyright issues with images pulled from the web. None mentioned BadgerLink's subscriptions

to Britannica School Images & Videos for Middle and High School, so it is unknown whether this content is unfamiliar to them, or if it is insufficient to meet their needs.

- One public library system participant noted they felt the there was a gap in the availability of art images in BadgerLink.

Magazines

- Several participants noted that the inclusion of magazines in OverDrive has allowed them to drop other products like EBSCO's Flipster, and that usage is ramping up on the OverDrive platform.
- No specific gaps in BadgerLink for magazines were identified by any participants.

Newspapers

- Several participants raised the issue of the BadgerLink subscription to NewspaperArchive being replaced by a subscription to Newspapers.com, which they felt was an inferior product.
- The consensus across the various groups is that BadgerLink could have more extensive coverage of newspapers.

Sound / Music

- The loss of access to the product Soundzabound through BadgerLink was noted by several K-12 participants as having created a gap in available content.
- K-12 participants identified the lack of copyright free sound and music databases in BadgerLink as a gap. They need clips that are easily found and used by students for inclusion in school projects.

Video

- One K-12 participant noted the need for streaming videos, as much of the technology available to them (e.g., desktop or laptop computers) don't have disc drives to play DVDs.
- In the public library environment, the desire for streaming video is largely for entertainment content. There was general agreement during this discussion that it is not the role of BadgerLink to provide that type of material.
- All participants agreed that the need for video on demand is increasing. One public library respondent said they recently added Access Video on Demand, which provides access to documentaries, educational films, and that is has been well received by their patrons.
- One of the public library system participant's collection development committee had recently discussed the need for a systemwide subscription to a service such as Hoopla or Kanopy, but that the cost was prohibitive.

Question Five: Achieving Increased Collaboration Amongst Public & K-12 Public School Libraries

- There is a consensus that DPI is a collaborative agency and that they welcome opportunities to collaborate.

- Marketing was identified by several participants as an area for increased collaboration. For example, one public library system cited their development of "toolkits" for various products that can be used on various social media platforms to highlight various electronic databases throughout the year.
- Participants from the public library systems noted that they already collaborate and have marketing and IT groups that meet during the year, but not an electronic resources group. There was consensus that this might be a useful group to establish to foster greater collaboration.
- Several participants expressed frustration over the lack of uptake by school districts for public library programs that automatically create and provide library cards (virtual or otherwise) for the students enrolled in the district.
- The sense that there is "competition" between the public and school libraries was raised by multiple participants.
- Collaboration amongst public libraries & K-12 public school libraries can largely be personality driven rather than part of regular organizational operations. Thus, changes in staffing can derail forward progress.
- In the discussion with public library system representatives, one reported that during the pandemic they made an effort to reach out to school principals, counselors, and teachers to publicize the database resources they have available. There was some agreement that this may be more effective than working with the library media specialists only.
- One suggestion was to identify where digital literacy was being taught and by whom in the school districts, and coordinate with that group to raise awareness of databases in both the school district and public library.
- There was consensus among all groups that to be sustainable and systematic, collaboration needs to be coordinated at a higher level than the library media specialists and individual public libraries, but rather at an administrative level that includes "the people that are paying the bills," for example, city administrators and business managers.
- Several participants cited the DPI's grant for Beanstack as a mechanism that fostered collaboration between public libraries and their local school system. This is another area where participants felt that a higher level of involvement and policy development on a statewide basis could be effective, so "each district and public library isn't having to start from scratch… and duke it out themselves."
- Several participants cited the statewide e-book and audiobook consortium as a collaborative model that could be followed.
- In the public library focus group, the need to have a DPI licensed individual present for programming conducted through the school district creates a barrier to collaborative efforts.

Additional Observations

Awareness of BadgerLink

A theme throughout the interviews and focus groups was a concern that there was a significant lack of awareness of BadgerLink databases across the state. As one public library participant said, "It has

probably been, I think, the biggest challenge for BadgerLink as a resource to get the word out of what is available" and noted that DPI used to do things like having a booth at the State Fair. Another noted that, when gathering feedback from library staff before completing the survey, the new services staff admitted they had barely used BadgerLink.

Usability of Resources

The difficulty of using BadgerLink databases was cited repeatedly as a barrier. Many participants commented on the number of clicks it took to reach the target resources, and this was particularly a concern for younger users. Specific to EBSCO databases was the concern that results for which no full-text was available is a problem, and participants wondered if the default for EBSCO databases could be changed to initially display full-text results only. Among the public library and public library system participants, there was a lot of discussion of the tool Niche Academy, and how important it has become to helping users. Niche Academy provides training to users when and where it is needed in the online resources space.

BadgerLink Training Materials

When BadgerLink training materials came up in conversation, it was clear that most of the participants were relatively unfamiliar with them. Those who were did find them helpful but commented that they would be more useful if they didn't assume BadgerLink as a starting point, but were more generic, as many users arrive at BadgerLink resources through direct links on library web pages.

Quality vs. Quantity in BadgerLink

In all focus groups, the suggestion was made that BadgerLink could be improved by having less content but focused on the acquisition of high-quality content that would better meet the needs of all library types.

Recommendations

These recommendations are based upon the results of the database inventory, the survey, and the interviews and focus groups conducted with stakeholders.

1. Strengthen Select Subject Areas in BadgerLink

The DPI should consider increased representation of several subject areas in BadgerLink, including:

- Computing and Information Technology resources.
- Consumer information.
- Genealogy.
- General Interest materials for adults, particularly in the "how-to" genre.
- Language Learning.
- Reader's Advisory additions.
- Social Studies materials for K-12, particularly a pro/con database, and some comprehensive lower-level history resources.
- Wisconsin historical information.

2. Strengthen Select Format Types in BadgerLink

The DPI should consider increased representation of several format types in BadgerLink, including:

- Images.
- Newspapers.
- Sound / music.
- Video.

3. Explore Options for Improving the Usability of Content

Librarians and their patrons have long struggled with the issue of usability of content in electronic format. DPI should explore options for improving or supporting the usability of content in BadgerLink database. This may include:

- Making the default of EBSCO database search results display full-text results only.
- Revising training materials to be less specific to BadgerLink as an entry point.
- Strengthening the usability component in future procurement efforts.

4. Develop an Awareness Campaign for BadgerLink

The consensus among those interviewed was that Wisconsin residents have a low level of awareness of BadgerLink. The level of awareness of BadgerLink content varies greatly even among those interviewed, with some mentioning as gaps content that does exist, such as images for use in the K-12 environment. The DPI should develop an awareness campaign that includes materials which can be used by the different library types in multiple social media and print venues.

5. Develop Systemic Opportunities for Increased Collaboration

The consensus among those interviewed was that increased collaboration between public libraries and K-12 school districts will only be sustainable if led at a high, administrative level. The DPI should explore ways to develop systematic opportunities for increased collaboration between these two groups. This exploration may include:

- Building upon the experience of the grant to implement BeanStack for the Summer Reading program.
- Working with the Public Library Systems and K-12 School Districts to establish venues in which public librarians and school district library media specialists can come together on a regular basis to share ideas.
- Continuing to strengthen the partnership with WiLS to achieve statewide collection development goals.

Appendix A: Wisconsin Statewide Database Inventory Template

Appendix B: Wisconsin Statewide Database Inventory Submission Instructions

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project
Phase 1 Inventory: Submission Instructions

About the Project

The purpose of the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project is to gather information about the databases licensed by public libraries and K-12 public school libraries across the state. This data will be used in conjunction with focus groups and online surveys to conduct a needs assessment to identify coverage gaps between BadgerLink databases and those provided by public and K-12 libraries and inform potential changes or updates to the BadgerLink Collections.

This project is being conducted by the Wisconsin Department of Public Instruction with assistance from the library consulting firm, CDygert Solutions.

Instructions for Submitting Inventory Files

An Excel template, *Wisconsin Statewide Electronic Resource Database Inventory Template*, is being provided for use when submitting database inventories. Detailed instructions for using the template are included in this document. ***Only files that use the template will be accepted.*** Completed inventory spreadsheets may be uploaded at the Wisconsin Statewide Electronic Resource Database Inventory Project Submission Form. Please follow the recommended file name convention Library/District Name_Inventory.xlsx.

> **Submission Due Dates:**
>
> - **Public Library Systems – Thursday, April 14**
> - **K-12 School Districts – Thursday, April 21**
> - **Public Libraries – Thursday, April 21**

What to include in the database inventory

The electronic resource database inventory should include electronic resource databases licensed as of January 2022 that require authentication/password to access and are offered in addition to those provided through BadgerLink. For K-12 public school libraries, only include the databases that qualify for purchase through Common School Funds. Public library systems should only include databases licensed for all member libraries.

What NOT to include in the database inventory

- Resources that circulate or have a loan period, such as eBooks or audiobooks from the library's Overdrive collection.
- Specialized interfaces that provide a means to search multiple databases at the same time. For example, the inventory would not include products similar to *EBSCO's Explora* interfaces but would include the specific databases included within the interfaces.
- Public libraries should not include databases licensed for all member libraries through their system.
- School libraries should not include any curriculum software packages.
- Please do not include databases provided through BadgerLink, or the Beanstack grants. Current BadgerLink databases are being distributed along with these instructions and the *Wisconsin Statewide Electronic Resource Database Inventory Template* for reference. If you need a copy of the list of BadgerLink databases, please contact Claire Dygert at cdygert@cdygertsolutions.com.

How to complete the database inventory template

All database inventories submissions must use the Excel template, *Wisconsin Statewide Electronic Resource Database Inventory Template* which is being distributed with this document. (If you need an additional copy of the template please email Claire Dygert at cdygert@cdygertsolutions.com.)

The template includes the following data elements:

Vendor: Use this field to record the vendor that provides the database, such as Gale or World Trade Press. If you purchase a database through a third party, such as WiLS or CESA Purchasing, supply the vendor that produces the product, not the name of the third party. The name of the third party will go in the "Purchased Through" field.

Product/Database: Use this field to provide the complete, official name of the product. Do not abbreviate. Use the spacing and spelling conventions used by the vendor**.** For example, the vendor World Trade Press has a series of products that are named AtoZ (e.g., AtoZ maps Online, AtoZ Food America, etc.). Names of these products should be given following the "AtoZ" convention, not provided as "A to Z."

Each product/database must be presented on its own row, as in the example below:

Vendor	Product/Database
Gale	Gale in Context: Biography
Gale	Gale Courses
World Trade Press	AtoZ Maps
World Trade Press	AtoZ Food America
World Trade Press	AtoZ World Culture

2

Do not list multiple databases from a vendor in a single cell. Submissions that include entries like the following may be rejected:

Vendor	Product/Database
World Trade Press	AtoZ Maps; AtoZ Food America; AtoZ World Culture
Gale	Gale in Context: Biography; Gale Courses

Vendor	Product/Database
World Trade Press	AtoZ Maps AtoZ Food America AtoZ World Culture
Gale	Gale in Context: Biography Gale Courses

Contract Holder: Use this field to provide the entity that holds the contract with the vendor. For K-12 respondents, enter the school district name.

Purchased Through: Use this field to record the purchase method of the product/database. Acceptable entries for this fields are:
- Vendor (enter the word vendor, not the vendor name)
- WiLS
- CESA Purchasing.

Authorized Users: Use this field to enter the authorized users for each database. Acceptable entries for this field for K-12 respondents are:
- Elementary
- Elementary & Middle
- Middle
- Middle & High
- High
- All K-12

Acceptable entries for this field for public libraries and systems are:
- Service Population
- All Cardholders at System
- Service Population & All Cardholders at System

3

Below is an example of correctly formatted entries for the Contract Holder, Purchased Through, and Authorized Users fields:

Contract Holder	Purchased Through	Authorized Users
Altoona School District	CESA Purchasing	High
Altoona School District	CESA Purchasing	Middle
Altoona School District	CESA Purchasing	Elementary & Middle
Altoona School District	WiLS	Elementary

If you are manually entering data into the template, the acceptable entries for the Purchased Through and Authorized Users fields may be selected from the drop-down list:
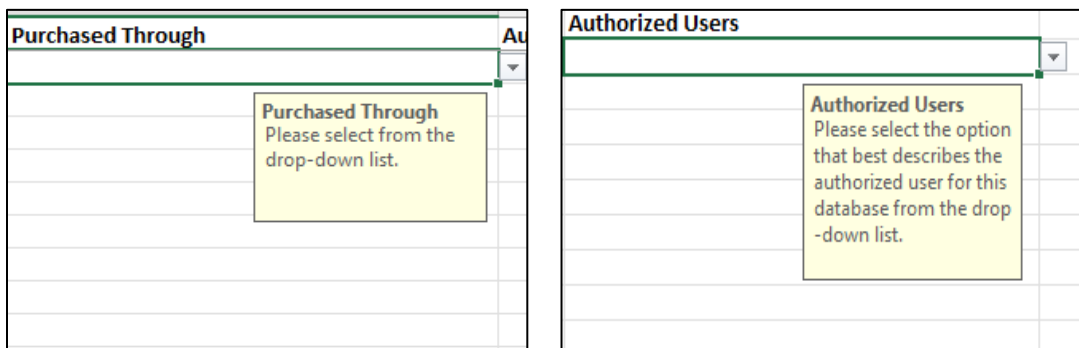

Need Help?

If you have questions about how to complete the inventory template or what to include in it, contact Elizabeth Neuman, at libraryteam@dpi.wi.gov.

If you have technical problems with the online submission form, contact Claire Dygert at cdygert@cdygertsolutions.com.

Don't Independently License Electronic Resource Databases?

If your library **does not** independently license any electronic resource databases, and you have no file to submit, you may log that information using the online form: Wisconsin Statewide Electronic Resource Database Inventory – No Holdings Confirmation for Public Libraries.

	Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey
WISCONSIN DEPARTMENT OF Public Instruction	

Introduction

We want to hear from you about the importance and satisfaction of subject areas and format types currently covered by <u>BadgerLink databases</u>. Data gathered will be used to inform potential changes or updates to the <u>BadgerLink Procurement Collections</u>, which are based on the general selection principles as outlined in the <u>BadgerLink Collection Development Policy</u>.

As the designated contact for your library or district, please submit only one response for your entire public library system, public library, or K-12 public school district. This survey should take approximately 20 minutes to complete. Please keep the Collection Development Policy, Procurement Collections, and following scope in mind when responding:

From personal interest to educational research, BadgerLink is Wisconsin's Online Library, providing Wisconsin residents with licensed trustworthy resources. The resources are designed to provide a foundational collection serving all Wisconsin residents, augmenting those available through K-12 schools, public libraries, public and private universities and technical colleges, medical and health-care facilities and practitioners, and state agencies.

WISCONSIN DEPARTMENT OF Public Instruction	

About

* 1. Please select your library type:

○ Public Library System

○ Individual Public LIbrary

○ K-12 School District

	Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey
WISCONSIN DEPARTMENT OF Public Instruction	

Public Library Population Served

* 2. My library or library system serves the following population size:

○ <1,000 ○ 10,000-19,999 ○ 50,000-99,999

○ 1,000-2,999 ○ 20,000-29,999 ○ 100,000 and above

○ 3,000-4,999 ○ 30,000-39,999 ○ Don't know

○ 5,000-9,999 ○ 40,000-49,999

WISCONSIN DEPARTMENT OF Public Instruction

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

School District Population Served

* 3. My school district population size:

○ 1-299 ○ 2,500-4,999

○ 300-599 ○ 5,000-7,499

○ 600-999 ○ 7,500 or more

○ 1,000-2,499

WISCONSIN DEPARTMENT OF Public Instruction

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

Home County & Community Served

* 4. Please select the county your library is in from the drop-down list below (Library Systems should select the county their home office is located in, School Districts should choose their District Office location):

[▼]

* 5. Would you classify your library / library system / district as primarily serving a community that is:

○ Urban

○ Suburban

○ Town

○ Rural

○ Don't know

Database Content in K-12 and Professional Learning Subject Areas

The following questions ask you to rate the importance of, and satisfaction with, database content in K-12 and education/library professional learning subject areas in the BadgerLink databases.

* 6. How important is the availability of content in each subject area below to your user base:

	Not important	Somewhat important	Neutral	Important	Very important
Collection Development	○	○	○	○	○
Computing & Information Technology	○	○	○	○	○
Education	○	○	○	○	○
History	○	○	○	○	○
Humanities	○	○	○	○	○
Library and Information Science	○	○	○	○	○
Literature	○	○	○	○	○
Mathematics	○	○	○	○	○
Reader's Advisory	○	○	○	○	○
Science	○	○	○	○	○
Social Studies	○	○	○	○	○
Test Preparation & Skill Building	○	○	○	○	○
The Arts	○	○	○	○	○

* 7. How well do the BadgerLink databases meet your users' needs in each subject area?
When responding, please consider the databases in Collections 1, 2, 3, 4, 7, 8, and 9 in the
BadgerLink Procurement Collections document.

	Not well	Somewhat well	Neutral	Well	Very well
Collection Development	○	○	○	○	○
Computing & Information Technology	○	○	○	○	○
Education	○	○	○	○	○
History	○	○	○	○	○
Humanities	○	○	○	○	○
Library and Information Science	○	○	○	○	○
Literature	○	○	○	○	○
Mathematics	○	○	○	○	○
Reader's Advisory	○	○	○	○	○
Science	○	○	○	○	○
Social Studies	○	○	○	○	○
Test Preparation & Skill Building	○	○	○	○	○
The Arts	○	○	○	○	○

* 8. In general, do electronic resource (library) databases available through other sources, such as your own library or library system, make up for any gaps in BadgerLink database K-12 and library/education professional learning subject area coverage indicated in the previous question?

○ Yes

○ No

○ We only have access to BadgerLink databases

○ Other (please specify)

[ ]

* 9. If you could pick up to three areas from those below for increased representation in BadgerLink, what would they be?

☐ None	☐ Literature
☐ Collection Development	☐ Mathematics
☐ Computing & Information Technology	☐ Reader's Advisory
☐ Education	☐ Science
☐ History	☐ Social Studies
☐ Humanities	☐ Test Preparation & Skill Building
☐ Library and Information Science	☐ The Arts
☐ Other (please specify)

WISCONSIN DEPARTMENT OF **Public Instruction**

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

COVID-19 Implications

The following questions address how the COVID-19 pandemic has affected the needs of your user base.

* 22. Did the COVID-19 pandemic highlight any coverage gaps in the electronic resource (library) database content available to your user base, either through BadgerLink or your library / library system?

○ Yes

○ No

○ Other (please specify)

[   ]

WISCONSIN DEPARTMENT OF **Public Instruction**	Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

COVID Coverage Response

* 23. Please tell us about the coverage gaps that the COVID-19 pandemic highlighted.

[   ]

WISCONSIN DEPARTMENT OF **Public Instruction**	Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

Additional Database Needs

* 24. Are there specific library databases you wish were available to your users through BadgerLink, other cooperative purchasing, etc.?

○ Yes

○ No

Wisconsin Statewide Electronic Resource

Specific Database Recommendations

* 25. List the specific databases below (up to five entries allowed). *Please keep in mind BadgerLink is unable to license specific databases by name but commonalities may help address the broad procurement collection areas.*

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

Project Outcomes

* 26. Which of the following identified outcomes from the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study are the most important to you? Please select up to two outcomes.

☐ Addressing the lack of consistent and comprehensive information about what library databases are being licensed by public libraries, public library systems, and K-12 public school libraries.

☐ Determine whether any gaps exist between databases provided statewide through BadgerLink and those provided through public and K-12 public school libraries.

☐ Inform potential changes or updates to the BadgerLink Procurement Collections, which are based on the general selection principles as outlined in the BadgerLink Collection Development Policy.

☐ Provide an opportunity for increased collaboration amongst public and K-12 public school libraries with purchasing, training, and marketing of databases.

☐ Provide an opportunity for future development of a "living" inventory of library databases licensed by public and public K-12 school libraries.

27. Are there any additional outcomes you would like to see from this study?

[   ]

28. Is there anything else you would like to share?

29. If you would like to be contacted with any follow up questions, please enter your email address below.

Q1 Please select your library type:

Answered: 182   Skipped: 0

ANSWER CHOICES	RESPONSES	
Public Library System	17.03%	31
Individual Public LIbrary	23.63%	43
K-12 School District	59.34%	108
TOTAL		182

Q2 My library or library system serves the following population size:

Answered: 74   Skipped: 108

ANSWER CHOICES	RESPONSES	
<1,000	10.81%	8
1,000-2,999	13.51%	10

2	unsure	5/20/2022 2:33 PM
3	I started after Covid hit, but I don't think Badgerlink was well-represented on our website. Due to staff turnover, our website has not been updated, I would like to showcase badgerlink and specific resources in the future, but at this time, I don't know how well it is used by our user base.	5/20/2022 2:17 PM
4	maybe math skill building (but I did not look)	5/20/2022 1:23 PM
5	Not content, but access related.	5/16/2022 1:17 PM
6	during covid students who had wifi service that was not coded as being a WI service couldn't gain access to Badgerlink until the problem was solved	5/10/2022 4:05 PM
7	No one started using databases ever, even during pandemic restrictions.	5/10/2022 2:07 PM
8	Our clientele is still learning how to use BadgerLink.	5/10/2022 10:50 AM

Q23 Please tell us about the coverage gaps that the COVID-19 pandemic highlighted.

Answered: 80   Skipped: 102

#	RESPONSES	DATE
1	`Coverage Gaps` Libby	5/25/2022 6:18 PM
2	`Coverage Gaps` `Need for Remote Access` `New Acquisitions` Remote access to some of the databases (Ancestry, NewspaperArchive, etc.) became very important when our libraries had to close their doors due to the pandemic. SCLS member libraries added databases like CreeativeBug, RBDigital, Reference Solutions, New York Times, World Trade Press, Gale Courses, and more.	5/24/2022 6:05 PM
3	`Coverage Gaps` During Covid, we had a significant increase in the number of patrons interested in researching their family trees, and they were hungry for any and all information they could find.	5/24/2022 4:54 PM
4	`Training Needs` People did not know how to use electronic systems and there was not really a good way to provide instruction without in person help.	5/24/2022 1:38 PM
5	`Coverage Gaps` We could use an additional enclyclopedia for the elementary grades. PebbleGo and World Book are both used extensively.	5/24/2022 1:29 AM
6	`Coverage Gaps` - Job skills, resumes and cover letters, etc - Amount of full text literature available - Some newspaper gaps	5/23/2022 4:30 PM
7	`Coverage Gaps` Video and Sound clips for creating their own videos. Video creating software. Material at a lower level (Middle and down) but higher interest level . Reliable current events with a neutral viewpoint. Simple interface for middle grades (EBSCO). Newsela, BrainPop, PebbleGo, Flocabulary are all programs our buildings wanted to use during the pandemic.	5/23/2022 2:33 PM
8	`Coverage Gaps` `Need for Remote Access` We realized that many database contracts which permitted onsite access only were a real issue during the pandemic. Also, the need for educational resources for K-12 learners became much more important during the pandemic.	5/23/2022 11:10 AM
9	`Coverage Gaps` The need for streaming video of feature films became evident.	5/23/2022 9:48 AM
10	`Need for Remote Access` Ancestry was available for at home use. Test prep was available on line.	5/20/2022 5:26 PM
11	`Not User Friendly` The difficulty and ease of use were brought to my attention more frequently while staff and students were forced to access these databases from off campus.	5/20/2022 5:17 PM
12	`Coverage Gaps` Not enough ebook and eaudiobook content from recent publication years.	5/20/2022 4:58 PM

117

13	.	5/20/2022 3:55 PM
14	`Coverage Gaps` There is very little for young learners--and very little that is aligned with Math, Science, Business standards at the HS level.	5/20/2022 3:47 PM
15	`Coverage Gaps` The COVID 19 coverage	5/20/2022 2:16 PM
16	`Coverage Gaps` Additional ebooks were available.	5/20/2022 2:16 PM
17	`Coverage Gaps` access to e-books	5/20/2022 1:12 PM
18	`Digital Divide Issues` there is a generation of people not technology savvy, and then everything went "online". Many of the elderly and baby boomer generation were lost.	5/20/2022 1:07 PM
19	`Coverage Gaps` Research materials that students could access from home.	5/20/2022 12:56 PM
20	`Coverage Gaps` `New Acquisitions` We needed to purchase more in the language arts, theater, performance, Shakespeare area.	5/20/2022 12:54 PM
21	`Need for Remote Access` We noticed when Proquest Ancestry allowed remote access, the usage ballooned. Now we have gone back to in-library only access and are missing the massive spike in usage. We also appreciated the remote access to Access Newspaper Archive for the temporary time it was available/	5/19/2022 3:59 PM
22	`Coverage Gaps` Access to ebooks such as Scholastic BookFlix and Epic, educational databases and online subscriptions like Flocabulary and BrainPop.	5/19/2022 2:42 PM
23	`Coverage Gaps` Video streaming was a gap for our high school teachers. It would have been helpful if they could have given students links to videos for learning.	5/19/2022 12:48 PM
24	`Coverage Gaps` `Training Needs` Reader advisory, access to electronic information, videos, knowledge by our base on where to go to locate information.	5/19/2022 10:34 AM
25	`Digital Divide Issues` Just general connectivity and access particularly for students lacking broadband. I don't know of a specific subject.	5/18/2022 6:19 PM
26	`Lack of Awareness` `Not User Friendly` Awareness of what was available,user experience, ability to logon from home was sometimes difficult if they didn't have a public library card	5/18/2022 3:02 PM
27	`Lack of Awareness` They needed on demand information. They were unaware of BadgerLink resources	5/17/2022 5:38 PM
28	`Coverage Gaps` Increased demand for: genealogy access streaming video downloadable content	5/17/2022 12:01 PM
29	`Coverage Gaps` There was a gap in lower level ebooks.	5/17/2022 9:43 AM
30	`Coverage Gaps` We needed video streaming services. We needed the ability for students to access more online resources. We needed resources that could be accessed offline as well as online.	5/16/2022 7:19 PM
31	`Lack of Awareness` Just that we were made more aware of what our patrons needed.	5/16/2022 3:54 PM
32	`Coverage Gaps` `Need for Remote Access` Despite efforts to help reduce the wait times in Overdrive/Libby by putting LSTA grant money towards duplicate copies, the hold lines for items were very high during the pandemic and the feedback from patrons is that they are still long waits. People were introduced to the resource during the pandemic and now will remain on the platform. Patrons were interested in accessing our local newspaper (Milwaukee Journal-Sentinel) online when they couldn't enter the building but Badgerlink does not have it. Ancestry.com responded well to the pandemic by allowing our users access from home. Now they have removed that feature and patrons would prefer it back. It makes sense from their business model why, but we would like the opportunity to pay more for an "at home access" package however the vendor has said they do not have that to offer.	5/16/2022 2:35 PM
33	`Coverage Gaps` `Lack of Awareness` Hobbies, though a supplementary subscription to CreativeBug was not well used. Most people gravitate toward Pinterest and other internet sources but might find value in non-ad-based resources if they had enough time for exposure and enough marketing.	5/16/2022 2:03 PM
34	`Coverage Gaps` We need more access to video resources and resources that can be easily put into Google Classroom.	5/16/2022 1:50 PM

35	`Digital Divide Issues` We realized a lot of our students are lacking access to internet so if they are not able to be in school they may not have access to online information. This makes things difficult for students to have necessary materials and information.	5/16/2022 1:49 PM
36	`Coverage Gaps` We're interested in streaming video services. At the HS level, the teachers use PBS videos but I don't think an institutional paid service is an option. I wonder if there is something like that? The middle and elementary levels are also requesting video streaming options. Thank you. We love Badgerlink!	5/16/2022 1:23 PM
37	`Coverage Gaps` We were lacking in teacher-directed digital books.	5/16/2022 1:05 PM
38	`Coverage Gaps` `Lack of Awareness` Skill development for both vocation and hobbies. Also could use help in getting the word out about what we do offer.	5/16/2022 1:02 PM
39	`Not User Friendly` Ease of remote access for any of our digital resources. Ability to count those resources toward any of our funding-related performance indicators.	5/16/2022 1:00 PM
40	`Coverage Gaps` `Need for Remote Access` No option for movie-watching, and not enough information about hobbies. However, all of our patrons appreciated the ability to access Ancestry from home.	5/14/2022 3:31 PM
41	`Coverage Gaps` `New Acquisitions` Our users were really interested in video streaming and local/national/global news, so we sought out additional databases to help fill the gap.	5/13/2022 12:26 PM
42	`Coverage Gaps` `Not User Friendly` * lack of some databases to switch languages * not as much in depth journals * not enough sound/image open source	5/12/2022 4:36 PM
43	`Coverage Gaps` homework help, tutoring	5/12/2022 1:27 PM
44	`Coverage Gaps` We needed access to more biographies.	5/12/2022 12:23 PM
45	`Coverage Gaps` Research: Getting online materials that are credible/reliable	5/12/2022 11:43 AM
46	`Coverage Gaps` `New Acquisitions` Streaming video services were something that we were missing. We purchased Learn360 for the district and Ebsco PBS for the high school. COVID demanded more online resource access.	5/11/2022 3:29 PM
47	`Coverage Gaps` I am unfamiliar with the specifics. I was not with my district at the time. But, ebooks is likely.	5/11/2022 2:28 PM
48	`Coverage Gaps` `Need for Remote Access` We keenly felt the need for some type on-demand content service to supplement Overdrive, a product like Hoopla or Kanopy. We eventually added the latter, but it would be fantastic if Badger Link could provide statewide access to these services. Not sure if this is feasible on that scale with their PPU model. Kanopy is costing us A LOT and I have a feeling these PPU services are out of reach for most small-to-mid-sized libraries. Remote access to Ancestry during the pandemic was nice but that's not BadgerLink (Heritage Quest is better then nothing but no Ancestry.)	5/11/2022 11:13 AM
49	`Coverage Gaps` We used a lot of pre-made videos that demonstrated classwork that couldn't be done live in the in classroom during the lockdowns.	5/11/2022 10:32 AM
50	`Coverage Gaps` We needed access to more online formats of databases, ebooks, media that we could access at school and at home for free or an affordable price. We are a very small school, so the budget doesn't allow us to purchase many online database or ebook options. Badgerlink can help fill those gaps where our budget doesn't allow us to purchase our own materials.	5/11/2022 10:20 AM
51	`Need for Remote Access` Due to licensing agreements many resources were unavailable offsite of the library. Resulted in people not having access because they couldn't, or didn't feel comfortable, come in to the building.	5/11/2022 9:16 AM
52	`Coverage Gaps` More interest in crafts & hobbies. More interest in tutoring type assistance.	5/10/2022 6:19 PM
53	`Misc.` Students accessed databases since they couldn't have access to books	5/10/2022 4:42 PM
54	`Coverage Gaps` Age appropriate online books.	5/10/2022 4:02 PM
55	`Digital Divide Issues` We have a district in a very rural area of the state that has a difficulty with access to decent internet connection in homes. It has been hard to gain access to any digital resources for some of our families when forced to work and school from home.	5/10/2022 3:04 PM

56	**Lack of Awareness** **Training Needs** It showed the lack and awareness that patrons have for the services, including the staff. Even now, badgerlink is not properly utilized and definitely needs to be marketed better. Due to being a small library, marketing is difficult, and there is no training (that I know of) for staff on how to use these databases. Staff don't want to talk about them when they don't even know what they are, and this is a failure of communication between staff and the management. But having more how-tos about badgerlink would be helpful.	5/10/2022 2:30 PM
57	**Need for Remote Access** Digital resources/databases available to our students off-site are very important. We used to have some resources that were only available on campus.	5/10/2022 2:26 PM
58	**Coverage Gaps** After many of the free resources used with students during lockdown were no longer available, we realized that anything outside of social studies was not adequately represented.	5/10/2022 2:20 PM
59	**Need for Remote Access** Our library had ebooks at the middle and high school level that students did not have access to. We also just added SORA so students would have more access to ebooks. Having the books with no access to them was not helpful to students at all! The ES had no previous access to ebooks at all.	5/10/2022 2:20 PM
60	**Digital Divide Issues** **Training Needs** Lack of good broadband in the area and lack of proper training on how to use digital resources.	5/10/2022 2:15 PM
61	**Coverage Gaps** There are not enough resources and reference materials for students lower than high school. The only Badgerlink source my students are the Britannica School encyclopedias	5/10/2022 2:05 PM
62	**Coverage Gaps** More resources needed for elementary students	5/10/2022 2:02 PM
63	**Digital Divide Issues** Availablity of access while at home. Gaps in internet coverage and resources that were not able to be downloaded and accessed at later times.	5/10/2022 1:23 PM
64	**Coverage Gaps** **Need for Remote Access** We subscribe to Ancestry and people really liked having that resource available from home. There was also more time for people to do genealogy but not more newspaper resources for people to use. It was frustrating to look for Wisconsin coverage from the 1970s and 1980s as there aren't any great sources for that.	5/10/2022 1:22 PM
65	**Coverage Gaps** Student research in some science areas, plus current events. Video also saw an increased use/need.	5/10/2022 1:17 PM
66	**Coverage Gaps** eBook access, full magazine access	5/10/2022 1:16 PM
67	**Coverage Gaps** Online videos and images	5/10/2022 12:34 PM
68	**Coverage Gaps** I think our need for digital instructional resources vastly increased during covid and we found we were lacking with affordable tools that would fill the gap	5/10/2022 12:08 PM
69	**Coverage Gaps** Noticed gap: Elementary version of databases to support research. The only one students at the level use is Brittancia.	5/10/2022 11:53 AM
70	**Coverage Gaps** **New Acquisitions** We needed ebooks added to our collection. By joining the Wisconsin Schools Digital Library Consortium, we were able to supply our students/staff with easy access to digital books. We also needed to add a resource management tool to our K-8 building as students were now needing to check out Hotspots, Chromebooks, etc...to take home.	5/10/2022 11:39 AM
71	**Coverage Gaps** digital audiobooks, ebooks,	5/10/2022 11:38 AM
72	**Coverage Gaps** access to video and images	5/10/2022 11:32 AM
73	**Need for Remote Access** We realized most of our resources were not digitally based. It has been a process to identify ways that our staff and students can access materials online. Badgerlink has been an amazing asset.	5/10/2022 11:28 AM
74	**Coverage Gaps** Lower level information	5/10/2022 11:28 AM
75	**Coverage Gaps** Not enough science resource or differentiated/leveled resources.	5/10/2022 11:17 AM
76	**Coverage Gaps** The Pandemic highlighted the need tomove to streaming video for all of our video needs as well as the need to move to more digital access for a variety of other resources.	5/10/2022 11:17 AM

77	Coverage Gaps Generally access to resources for genealogy and consumer advocacy, like Consumer Reports. Also, more and better access to newspaper content like Pressreader.	5/10/2022 11:02 AM
78	Coverage Gaps Magazines ebooks science and math databases	5/10/2022 10:59 AM
79	New Acquisitions We have increased the number of ebooks in our collections since COVID.	5/10/2022 10:34 AM
80	Coverage Gaps Job seeking resources	5/10/2022 10:31 AM

Q24 Are there specific library databases you wish were available to your users through BadgerLink, other cooperative purchasing, etc.?

Answered: 182   Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	60.99%	111
No	39.01%	71
TOTAL		182

Q25 List the specific databases below (up to five entries allowed). Please keep in mind BadgerLink is unable to license specific databases by name but commonalities may help address the broad procurement collection areas.

Answered: 109   Skipped: 73

Q26 Which of the following identified outcomes from the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study are the most important to you? Please select up to two outcomes.

Answered: 177   Skipped: 5

ANSWER CHOICES	RESPONSES	
Addressing the lack of consistent and comprehensive information about what library databases are being licensed by public libraries, public library systems, and K-12 public school libraries.	29.94%	53
Determine whether any gaps exist between databases provided statewide through BadgerLink and those provided through public and K-12 public school libraries.	45.20%	80
Inform potential changes or updates to the BadgerLink Procurement Collections, which are based on the general selection principles as outlined in the BadgerLink Collection Development Policy.	16.95%	30
Provide an opportunity for increased collaboration amongst public and K-12 public school libraries with purchasing, training, and marketing of databases.	46.33%	82
Provide an opportunity for future development of a "living" inventory of library databases licensed by public and public K-12 school libraries.	31.64%	56
Total Respondents: 177		

Q27 Are there any additional outcomes you would like to see from this study?

Answered: 75   Skipped: 107

#	RESPONSES	DATE
1	None None I can think of	5/25/2022 11:24 AM
2	None n/a	5/24/2022 4:55 PM
3	Changes to BadgerLink I would like to see the databases that were recommended to me ordered for our staff.	5/24/2022 4:43 PM
4	None no	5/24/2022 1:40 PM
5	None Not at this time	5/24/2022 12:22 PM
6	Awareness The first outcome in the list is also important: "Addressing the lack of consistent and comprehensive information..."	5/23/2022 4:33 PM
7	None No	5/23/2022 2:37 PM
8	None no	5/23/2022 11:40 AM

131

9	Changes to BadgerLink Thank you Looking forward to seeing an even more list robust BadgerLink resources. Thanks for all that you do!	5/23/2022 11:12 AM
10	Increased Usage yes, increased use of the databases	5/21/2022 1:30 AM
11	None n/a	5/20/2022 4:59 PM
12	Changes to BadgerLink Yes, supply the top 10 databases all libraries wish for.	5/20/2022 2:46 PM
13	Training Needs I am new to the area, and where I came from, we did not have such a state-wide resource. I am excited about it, but I would like training on how to do outreach. I would love to have SHORT tutorial videos (each targeted at specific search or information skills, such as a kind of book-talk for databases. (e.g. Need a business database, let me show you a few!") I would like to add such customer training videos on the new website we plan to develop.)	5/20/2022 2:36 PM
14	None No	5/20/2022 2:19 PM
15	None No	5/20/2022 2:14 PM
16	None No	5/20/2022 2:07 PM
17	Awareness Training Needs I'd like some more comprehensive resources for patrons about what resources are available and how to use them. A lot of our patrons are confused about what they have access to, and are shocked when I tell them they have free access to BadgerLink databases.	5/20/2022 1:13 PM
18	None No	5/20/2022 12:57 PM
19	None None at this time	5/19/2022 4:02 PM
20	Purchasing Guidelines If necessary, we'd like to see the purchasing guidelines change to accommodate educational and instructional subscription purchases for school districts to meet the educational needs of students.	5/19/2022 2:54 PM
21	None None	5/19/2022 12:50 PM
22	None No	5/19/2022 11:33 AM
23	Awareness As a rural library Badger Link is not known to many of our patrons. I would like to see more awareness. Also, I made an educated guess for many of the questions as I had no patrons approach me with concerns.	5/19/2022 10:38 AM
24	None Nothing I can think of at this time. I like all the ones listed above!	5/18/2022 6:24 PM
25	None N/A	5/18/2022 3:05 PM
26	Increased Collaboration More collaborative purchasing through public library systems and WiLS	5/17/2022 12:02 PM
27	Awareness Share the outcomes of the study.	5/16/2022 7:30 PM
28	Awareness Nothing specific, although it's made me realize how little I know about the database selection process!	5/16/2022 4:20 PM
29	Changes to BadgerLink Equity With the addition of a variety of streaming platforms, we are seeing longer waits for patrons to be able to access popular culture films and tv series. Many times these streaming platforms will not physically release the shows for years. As a result, there is an increasing divide on those who have access to these popular culture materials (a divide that in the past libraries have been able to bridge). I am hoping that an analysis can be done to see if there is ever an opportunity for "library database" versions of these major streaming platforms. Even if they are slimmed down versions.	5/16/2022 2:43 PM
30	Improved Usability Improve UI for resources like MasterFile, which might get more use if they had a more browse-friendly appearance. Library databases should look and feel like commercial electronic resources that the average user is accustomed to. A nearly blank white screen with a search box and a lot of small text is basically a dead end before a person even starts. Especially for someone just curious, or a novice.	5/16/2022 2:07 PM
31	None Not at this time	5/16/2022 1:52 PM

32	None N/A	5/16/2022 1:36 PM
33	None no	5/16/2022 1:19 PM
34	None NA	5/16/2022 1:07 PM
35	None no	5/16/2022 1:02 PM
36	None no	5/13/2022 11:55 AM
37	None No	5/13/2022 10:45 AM
38	None no	5/13/2022 10:17 AM
39	Thank you Thank you for conducting the study.	5/12/2022 4:39 PM
40	Changes to BadgerLink More K12 Content We would like to see more K-12 friendly databases	5/12/2022 2:28 PM
41	None N/A	5/12/2022 1:57 PM
42	None no	5/12/2022 1:29 PM
43	None N/a	5/11/2022 1:46 PM
44	Changes to BadgerLink More K12 Content I would like to see more resources added to Badgerlink for younger students. Especially 4k-Grade 5. I don't use it as much as I would like because lower grade students don't have much to choose from that is pertinent to their needs and accessible to their reading levels.	5/11/2022 10:28 AM
45	None no	5/11/2022 9:47 AM
46	None No	5/11/2022 9:38 AM
47	Equity Would like statewide provision of basic/enhanced digital resources so local libraries and systems can have access. Equity of information / resources access!	5/11/2022 9:18 AM
48	None n/a	5/10/2022 7:02 PM
49	None no	5/10/2022 4:36 PM
50	None No	5/10/2022 4:13 PM
51	Improved Usability Redoing webpage that is more user friendly for students. I realize that you have colleges as well, but what about a separate link to those database items that younger age students can use.	5/10/2022 4:04 PM
52	None no	5/10/2022 3:06 PM
53	None none that I can think of here and now	5/10/2022 3:03 PM
54	None No	5/10/2022 2:36 PM
55	None Not at the moment	5/10/2022 2:36 PM
56	None nope	5/10/2022 2:23 PM
57	ALL of the options listed above would be great!	5/10/2022 2:21 PM
58	None no	5/10/2022 2:17 PM
59	More K12 Content I would like to see more usable databases. They are too high level. Not enough reference texts	5/10/2022 2:07 PM
60	None no	5/10/2022 2:05 PM
61	None No	5/10/2022 1:21 PM
62	None No	5/10/2022 12:47 PM
63	None No	5/10/2022 12:34 PM
64	More K12 Content WE are a K-8 district so tools and resources that are geared for elementary studenst are always appreciated.	5/10/2022 12:18 PM

133

65	None Not at this time.	5/10/2022 12:08 PM
66	None None at this time.	5/10/2022 12:02 PM
67	None no	5/10/2022 11:40 AM
68	Awareness Continued consistent communication about Badgerlink proposed resources so schools are able to fiscally plan as necessary.	5/10/2022 11:40 AM
69	None no	5/10/2022 11:39 AM
70	Equity Equity between urban and rural, large and small, affluent and impoverished communities.	5/10/2022 11:39 AM
71	None Not that I can think of at this time.	5/10/2022 11:23 AM
72	Changes to BadgerLink Generally to help us fill the needs of our member libraries and reduce financial burdens on systems that typically are called upon to fill those gaps.	5/10/2022 11:04 AM
73	None no	5/10/2022 10:51 AM
74	None Unsure at this time	5/10/2022 10:36 AM
75	None No	5/10/2022 10:33 AM

Q28 Is there anything else you would like to share?

Answered: 74   Skipped: 108

#	RESPONSES	DATE
1	BadgerLink Content Review Usability Our staff and students do not use BadgerLink often, though we do share information about it regularly. Because it isn't used as much as we would like to see, it is difficult to get feedback from staff and students about the resources available. Staff and students find the EBSCO results to be cumbersome. They struggle to find the right keywords and often have results they feel are not really related to what they are looking for. While this is a good opportunity to teach them about how to do a more complex search, they would rather just Google it. Encyclopedia Britannica entries tend to be very short. The library uses NoveList K-8 often to help students find books. Students get frustrated because we do not carry all of the books suggested in NoveList, but this isn't the fault of the resource.	5/25/2022 11:24 AM
2	Survey Critique In Question 5, I would have liked an option for "all of the above" for public library systems. We have libraries ranging from Urban to Rural in our library system. It was hard to choose one when we serve libraries of all sizes.	5/24/2022 6:09 PM
3	n/a	5/24/2022 4:55 PM
4	Thank you Thank you for this opportunity.	5/24/2022 4:43 PM
5	I do not feel informed enough to make judgement calls about most of the items in this survey. I do not have statistics to match with the information needed.	5/24/2022 2:34 PM
6	no	5/24/2022 1:40 PM
7	Not at this time	5/24/2022 12:22 PM
8	Accessibility Issues Accessibility is an issue in databases. New and current resources should be evaluated to ensure equitable access for those using screen readers or other accessibility tools.	5/23/2022 4:33 PM
9	Survey Critique This survey was difficult to do. We do not actually have any idea if our patrons use Badgerlink or if they do which areas they like or dislike. I personally feel Badgerlink is a great resource but I am not sure if the public as a whole knows it exists.	5/23/2022 3:02 PM
10	No Thank you	5/23/2022 2:37 PM
11	no	5/23/2022 11:40 AM

12	no	5/21/2022 1:30 AM
13	n/a	5/20/2022 4:59 PM
14	`Usability` Please develop Badgerlink so it is a more user friendly up to date website.	5/20/2022 2:46 PM
15	`Accessibility Issues` I appreciate that the usage of Badgerlink databases was updated to be accessible from homes versus just an IP address.	5/20/2022 2:19 PM
16	`BadgerLink Content Review` Bring back Soundzabound, Bill Nye the Science Guy videos. Would be nice to have copyright free images as a database (even though there are a lot of websites out there that already provide that, it's good to have it all in one place). Advertise Archive of Wisconsin Newspapers more - that database is awesome and very useful!	5/20/2022 2:14 PM
17	No	5/20/2022 2:07 PM
18	`BadgerLink Content Review` `Thank you` I am so grateful for Badgerlink services. My students and staff LOVE access to Encyclopedia Britannica.	5/20/2022 1:14 PM
19	`Technical Help` When a patron has trouble with a database that I'm not able to fix for them, it would be nice if there was a number I could call or a ticketing system I could report this to. I have a patron who consistently has trouble with the auto repair databases offered both through BadgerLink and through our own library's subscription to it, and it would be nice to be able to report those issues to someone.	5/20/2022 1:13 PM
20	No	5/20/2022 12:57 PM
21	`Increased Collaboration` We think it would be beneficial to encourage school districts to work with public libraries in regard to resources available in their communities and cross-promoting resources and training.	5/19/2022 4:02 PM
22	`Survey Critique` The survey was rather confusing for a K-12 school district to comment on the needs of K-12 user's needs vs. professional learning needs. We feel these are two separate components and found it difficult to access our needs when they are combined in one question.	5/19/2022 2:54 PM
23	Not at this time.	5/19/2022 12:50 PM
24	No	5/19/2022 11:33 AM
25	Not at this time.	5/19/2022 10:38 AM
26	`BadgerLink Content Review` It would be great if digital collections like Hoopla, Kanopy, and Freegl could qualify for cooperative purchasing. I think that is where public libraries are seeing a big demand and the cost/circ model is difficult to sustain.	5/18/2022 6:24 PM
27	No	5/18/2022 3:05 PM
28	`BadgerLink Content Review` This is rather specific, but has caused many problems for our patrons; our newspaper is not included on the library version of the newspapers.com library database and newspapers.com is unable to share that database with us.	5/18/2022 1:23 PM
29	`Awareness` `BadgerLink Content Review` I wish I had a better understanding of what badgerlink can do and how to share it with my patrons and students.	5/17/2022 5:40 PM
30	x	5/17/2022 12:02 PM
31	`Thank you` Thank you for doing this.	5/16/2022 7:30 PM
32	`BadgerLink Content Review` `Usability` I would like to see more (and only) full text results. EBSCO sources should be easier to search - it is too complex. students rarely take the time to sort through results even after instruction	5/16/2022 2:45 PM
33	No	5/16/2022 1:52 PM
34	N/A	5/16/2022 1:36 PM
35	no	5/16/2022 1:19 PM
36	`Awareness` As a large school district I can provide more for my staff and students. I don't feel like I know Badgerlink resources as well as other smaller schools do as they only have access to Badgerlink while I have access to many others.	5/16/2022 1:07 PM

37	no	5/16/2022 1:02 PM
38	no	5/13/2022 11:55 AM
39	BadgerLink Content Review We really miss Sounds a Bounds and the author pronunciation and teaching books.net	5/13/2022 10:45 AM
40	no	5/13/2022 10:17 AM
41	Usability * I know there is always a constant evaluating of the website, but Badgerlink is still quite difficult to navigate. I realize that we can take individual items out and use them.	5/12/2022 4:39 PM
42	N/A	5/12/2022 1:57 PM
43	no	5/12/2022 1:29 PM
44	Awareness I only know which resources we use because I specifically seek out resources within BadgerLink when I need something specific. I would like the opportunity to have a quick walk-through/training of the available resources.	5/12/2022 11:14 AM
45	no	5/11/2022 9:47 AM
46	BadgerLink Content Review Is it possible to get access to daily newspapers like The New York Times through Badgerlink for current event classes?	5/11/2022 9:38 AM
47	no	5/11/2022 9:18 AM
48	n/a	5/10/2022 7:02 PM
49	no	5/10/2022 4:36 PM
50	No	5/10/2022 4:13 PM
51	Usability I find it to be so hard to locate the correct resources. When I go into the BadgerLink and I research by super search, I don't get specifically what I want for a age group. I don't find it user friendly. Your encyclopedia for students is a better set up, but again, if there was an icon page, it would work better for younger students.	5/10/2022 4:04 PM
52	no	5/10/2022 3:06 PM
53	no	5/10/2022 3:03 PM
54	Awareness Training Needs I'm fully aware that we underutilize the Badgerlink Resources in our school district.	5/10/2022 2:36 PM
55	Awareness Training Needs I did not even know half of what badgerlink offered until recently. I am also still unsure how to market these to our patrons, having some kind of strategy would be great. Also, training is important, but being a small library, this is not something I can take time myself to do, so it would be great if there can be something through dpi to help show how these databases work, and it is targeted towards all staff, not just managers and directors.	5/10/2022 2:36 PM
56	nope	5/10/2022 2:23 PM
57	Not at this time.	5/10/2022 2:21 PM
58	no	5/10/2022 2:17 PM
59	No	5/10/2022 2:07 PM
60	no	5/10/2022 2:05 PM
61	Usability I would really like to see more PDF full text content for magazines and newspapers and better federated searching--something more like Explora rather than the Super Search.	5/10/2022 1:26 PM
62	no	5/10/2022 1:21 PM
63	No	5/10/2022 12:47 PM
64	BadgerLink Content Review It would be great to offer access to current online issues of major newspapers like Milwaukee Journal-Sentinel, Wall Street Journal, NY Times	5/10/2022 12:34 PM
65	Awareness I think it's very easy for us to forget about Badgerlink. When we remember it,	5/10/2022 12:08 PM

136

	most patrons find it very useful, and we always have the information on hand for it --but we haven't had a big push for people to make use of it because I don't think our general patrons understand what it's function is (or some of our library staff, to be quite honest).	
66	`Usability` I really appreciate the recent revamp of the homepage to BadgerLink. It has helped students find the collection easier to navagate through. One small request - make the top banner smaller. Most people don't scroll and the information banner is so large, most don't see the awesome category button list.	5/10/2022 12:02 PM
67	`Awareness` `Training Needs` For me the most important thing is the dissemination and training aspect, informing people about what is available and getting them familiar with how to dive into using it.	5/10/2022 11:54 AM
68	no	5/10/2022 11:40 AM
69	no	5/10/2022 11:39 AM
70	`Awareness` I wish there was a better way to know what other databases school librarians are purchasing for their students across the state (and the U.S.). I want to make sure I am doing the best for my students.	5/10/2022 11:39 AM
71	Not that I can think of at this time.	5/10/2022 11:23 AM
72	no	5/10/2022 10:51 AM
73	Not at this time	5/10/2022 10:36 AM
74	No	5/10/2022 10:33 AM

#	Q1: PUBLIC LIBRARY SYSTEM	DATE
1	`Specific Database Type` Small Engine Repair, Creative Bug, Gale Courses	5/25/2022 6:02 PM
2	`General Interest Subjects` Business, genealogy. language	5/24/2022 5:40 PM
3	`Specific Database Type` Recreation, reading for kids (e.g.scholastic bookflix, etc.)	5/20/2022 2:07 PM
4	`Specific Database Type` Language tools	5/19/2022 3:49 PM
5	`General Interest Subjects` genealogy	5/10/2022 6:14 PM

#	Q1: INDIVIDUAL PUBLIC LIBRARY	DATE
1	`General Interest Subjects` consumer protection, personal finance, mental health	5/21/2022 1:12 AM
2	`General Interest Subjects` Investment Tools	5/20/2022 1:16 PM
3	`General Interest Subjects` Genealogy	5/18/2022 6:11 PM
4	`Specific Database Type` skill development - skillshare, udemy, lynda	5/16/2022 12:57 PM
5	`Useability Note` It's not really a subject area but the main problem with BL resources are searching and formats available. The federated search is very clunky and not enough content is PDF full text.	5/10/2022 1:16 PM

#	Q1: K-12 SCHOOL DISTRICT	DATE
1	`Specific Database Type` Multimedia files for student projects (like Soundzabound) and SEARS List of Subject Headings online access	5/24/2022 12:01 PM
2	`General Interest Subjects` Current Events	5/23/2022 1:24 PM
3	`Specific Database Type` Pro/Con database & Bio database	5/23/2022 11:56 AM
4	`Specific Database Type` Opposing viewpoints	5/23/2022 9:33 AM
5	`Specific Database Type` Research items for Younger students K-3	5/20/2022 2:31 PM
6	`Specific Database Type` Bring Back Soundzabound, Bill Nye the Science Guy videos.	5/20/2022 1:52 PM
7	`Specific Database Type` creativity support; i.e. Soundzabound, Canva	5/20/2022 1:06 PM
8	`Specific Database Type` Resources for emerging readers like Scholastic Book Flix and Pebble Go and Pebble Go Next	5/19/2022 12:24 PM
9	`Specific Database Type` CTE	5/17/2022 1:25 PM
10	`Specific Database Type` multimedia on children's literature and books, elementary research (BrainPop, PebbleGo)	5/16/2022 1:13 PM
11	`Specific Database Type` Multimedia resources	5/11/2022 4:10 PM
12	`Specific Database Type` Foreign Language Learning (Mango)	5/11/2022 2:21 PM
13	`Specific Database Type` Resources for lower grades like 4k-5 / easy to access/ easy to read and use	5/11/2022 10:13 AM
14	`Specific Database Type` argumentative type source such as Issues Researcher from SIRS and we need Native American History database	5/10/2022 4:23 PM
15	`Specific Database Type` databases that give information on both sides of an issue	5/10/2022 1:57 PM
16	`Specific Database Type` Science - specifically health/ medical	5/10/2022 1:55 PM
17	`Specific Database Type` Academic Search Complete	5/10/2022 1:39 PM
18	`Specific Database Type` copyright free or permitted images and audio - music, sounds	5/10/2022 1:30 PM
19	`Specific Database Type` information literacy/digital citizenship	5/10/2022 1:13 PM
20	`Specific Database Type` ebooks	5/10/2022 1:11 PM
21	`Specific Database Type` Multimedia curricular resources	5/10/2022 12:01 PM
22	`Specific Database Type` Early Learner Databases & Learning Languages	5/10/2022 11:28 AM
23	`Specific Database Type` learning Foreign Language	5/10/2022 11:22 AM
24	`Specific Database Type` Pro/Con; Opposing Viewpoints; Issues	5/10/2022 11:19 AM
25	`Specific Database Type` Teen Health? SEL	5/10/2022 11:09 AM
26	`Specific Database Type` Tech ed: traditional woods, and metals plus graphics, marketing etc.	5/10/2022 10:32 AM

Q10 How important is the availability of K-12 and professional learning subject area content in each format type below?

#	**Q1: PUBLIC LIBRARY SYSTEM**	**DATE**
1	`Coverage Gaps` Libby	5/25/2022 6:18 PM
2	`Coverage Gaps` `Need for Remote Access` `New Acquisitions` Remote access to some of the databases (Ancestry, NewspaperArchive, etc.) became very important when our libraries had to close their doors due to the pandemic. SCLS member libraries added databases like CreeativeBug, RBDigital, Reference Solutions, New York Times, World Trade Press, Gale Courses, and more.	5/24/2022 6:05 PM
3	`Training Needs` People did not know how to use electronic systems and there was not really a good way to provide instruction without in person help.	5/24/2022 1:38 PM
4	`Coverage Gaps` - Job skills, resumes and cover letters, etc - Amount of full text literature available - Some newspaper gaps	5/23/2022 4:30 PM
5	`Need for Remote Access` Ancestry was available for at home use. Test prep was available on line.	5/20/2022 5:26 PM
6	`Need for Remote Access` We noticed when Proquest Ancestry allowed remote access, the usage ballooned. Now we have gone back to in-library only access and are missing the massive spike in usage. We also appreciated the remote access to Access Newspaper Archive for the temporary time it was available/	5/19/2022 3:59 PM
7	`Coverage Gaps` `Training Needs` Reader advisory, access to electronic information, videos, knowledge by our base on where to go to locate information.	5/19/2022 10:34 AM
8	`Coverage Gaps` Increased demand for: genealogy access streaming video downloadable content	5/17/2022 12:01 PM
9	`Lack of Awareness` Just that we were made more aware of what our patrons needed.	5/16/2022 3:54 PM
10	`Coverage Gaps` `Need for Remote Access` No option for movie-watching, and not enough information about hobbies. However, all of our patrons appreciated the ability to access Ancestry from home.	5/14/2022 3:31 PM
11	`Coverage Gaps` homework help, tutoring	5/12/2022 1:27 PM
12	`Coverage Gaps` More interest in crafts & hobbies. More interest in tutoring type assistance.	5/10/2022 6:19 PM
13	`Lack of Awareness` `Training Needs` It showed the lack and awareness that patrons have for the services, including the staff. Even now, badgerlink is not properly utilized and definitely needs to be marketed better. Due to being a small library, marketing is difficult, and there is no training (that I know of) for staff on how to use these databases. Staff don't want to talk about them when they don't even know what they are, and this is a failure of communication between staff and the management. But having more how-tos about badgerlink would be helpful.	5/10/2022 2:30 PM
14	`Coverage Gaps` Generally access to resources for genealogy and consumer advocacy, like Consumer Reports. Also, more and better access to newspaper content like Pressreader.	5/10/2022 11:02 AM

160

Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Project Survey

#	Q1: INDIVIDUAL PUBLIC LIBRARY	DATE
1	`Coverage Gaps` During Covid, we had a significant increase in the number of patrons interested in researching their family trees, and they were hungry for any and all information they could find.	5/24/2022 4:54 PM
2	`Coverage Gaps` `Need for Remote Access` We realized that many database contracts which permitted onsite access only were a real issue during the pandemic. Also, the need for educational resources for K-12 learners became much more important during the pandemic.	5/23/2022 11:10 AM
3	`Coverage Gaps` Not enough ebook and eaudiobook content from recent publication years.	5/20/2022 4:58 PM
4	`Coverage Gaps` Additional ebooks were available.	5/20/2022 2:16 PM
5	`Digital Divide Issues` there is a generation of people not technology savvy, and then everything went "online". Many of the elderly and baby boomer generation were lost.	5/20/2022 1:07 PM
6	`Digital Divide Issues` Just general connectivity and access particularly for students lacking broadband. I don't know of a specific subject.	5/18/2022 6:19 PM
7	`Coverage Gaps` `Need for Remote Access` Despite efforts to help reduce the wait times in Overdrive/Libby by putting LSTA grant money towards duplicate copies, the hold lines for items were very high during the pandemic and the feedback from patrons is that they are still long waits. People were introduced to the resource during the pandemic and now will remain on the platform. Patrons were interested in accessing our local newspaper (Milwaukee Journal-Sentinel) online when they couldn't enter the building but Badgerlink does not have it. Ancestry.com responded well to the pandemic by allowing our users access from home. Now they have removed that feature and patrons would prefer it back. It makes sense from their business model why, but we would like the opportunity to pay more for an "at home access" package however the vendor has said they do not have that to offer.	5/16/2022 2:35 PM
8	`Coverage Gaps` `Lack of Awareness` Hobbies, though a supplementary subscription to CreativeBug was not well used. Most people gravitate toward Pinterest and other internet sources but might find value in non-ad-based resources if they had enough time for exposure and enough marketing.	5/16/2022 2:03 PM
9	`Coverage Gaps` `Lack of Awareness` Skill development for both vocation and hobbies. Also could use help in getting the word out about what we do offer.	5/16/2022 1:02 PM
10	`Not User Friendly` Ease of remote access for any of our digital resources. Ability to count those resources toward any of our funding-related performance indicators.	5/16/2022 1:00 PM
11	`Coverage Gaps` `New Acquisitions` Our users were really interested in video streaming and local/national/global news, so we sought out additional databases to help fill the gap.	5/13/2022 12:26 PM
12	`Coverage Gaps` `Need for Remote Access` We keenly felt the need for some type on-demand content service to supplement Overdrive, a product like Hoopla or Kanopy. We eventually added the latter, but it would be fantastic if Badger Link could provide statewide access to these services. Not sure if this is feasible on that scale with their PPU model. Kanopy is costing us A LOT and I have a feeling these PPU services are out of reach for most small-to-mid-sized libraries. Remote access to Ancestry during the pandemic was nice but that's not BadgerLink (Heritage Quest is better then nothing but no Ancestry.)	5/11/2022 11:13 AM
13	`Need for Remote Access` Due to licensing agreements many resources were unavailable offsite of the library. Resulted in people not having access because they couldn't, or didn't feel comfortable, come in to the building.	5/11/2022 9:16 AM
14	`Digital Divide Issues` `Training Needs` Lack of good broadband in the area and lack of proper training on how to use digital resources.	5/10/2022 2:15 PM
15	`Coverage Gaps` `Need for Remote Access` We subscribe to Ancestry and people really liked having that resource available from home. There was also more time for people to do genealogy but not more newspaper resources for people to use. It was frustrating to look for Wisconsin coverage from the 1970s and 1980s as there aren't any great sources for that.	5/10/2022 1:22 PM
16	`Coverage Gaps` Job seeking resources	5/10/2022 10:31 AM
#	Q1: K-12 SCHOOL DISTRICT	DATE
1	`Coverage Gaps` We could use an additional enclyclopedia for the elementary grades. PebbleGo and World Book are both used extensively.	5/24/2022 1:29 AM
2	`Coverage Gaps` Video and Sound clips for creating their own videos. Video creating software. Material at a lower level (Middle and down) but higher interest level . Reliable current events with a neutral viewpoint. Simple interface for middle grades (EBSCO). Newsela, BrainPop, PebbleGo, Flocabulary are all programs our buildings wanted to use during the pandemic.	5/23/2022 2:33 PM
3	`Coverage Gaps` The need for streaming video of feature films became evident.	5/23/2022 9:48 AM
4	`Not User Friendly` The difficulty and ease of use were brought to my attention more frequently while staff and students were forced to access these databases from off campus.	5/20/2022 5:17 PM
5	.	5/20/2022 3:55 PM
6	`Coverage Gaps` There is very little for young learners--and very little that is aligned with Math, Science, Business standards at the HS level.	5/20/2022 3:47 PM
7	`Coverage Gaps` The COVID 19 coverage	5/20/2022 2:16 PM
8	`Coverage Gaps` access to e-books	5/20/2022 1:12 PM
9	`Coverage Gaps` Research materials that students could access from home.	5/20/2022 12:56 PM

10	`Coverage Gaps` `New Acquisitions` We needed to purchase more in the language arts, theater, performance, Shakespeare area.	5/20/2022 12:54 PM
11	`Coverage Gaps` Access to ebooks such as Scholastic BookFlix and Epic, educational databases and online subscriptions like Flocabulary and BrainPop.	5/19/2022 2:42 PM
12	`Coverage Gaps` Video streaming was a gap for our high school teachers. It would have been helpful if they could have given students links to videos for learning.	5/19/2022 12:48 PM
13	`Lack of Awareness` `Not User Friendly` Awareness of what was available,user experience, ability to logon from home was sometimes difficult if they didn't have a public library card	5/18/2022 3:02 PM
14	`Lack of Awareness` They needed on demand information. They were unaware of BadgerLink resources	5/17/2022 5:38 PM
15	`Coverage Gaps` There was a gap in lower level ebooks.	5/17/2022 9:43 AM
16	`Coverage Gaps` We needed video streaming services. We needed the ability for students to access more online resources. We needed resources that could be accessed offline as well as online.	5/16/2022 7:19 PM
17	`Coverage Gaps` We need more access to video resources and resources that can be easily put into Google Classroom.	5/16/2022 1:50 PM
18	`Digital Divide Issues` We realized a lot of our students are lacking access to internet so if they are not able to be in school they may not have access to online information. This makes things difficult for students to have necessary materials and information.	5/16/2022 1:49 PM
19	`Coverage Gaps` We're interested in streaming video services. At the HS level, the teachers use PBS videos but I don't think an institutional paid service is an option. I wonder if there is something like that? The middle and elementary levels are also requesting video streaming options. Thank you. We love Badgerlink!	5/16/2022 1:23 PM
20	`Coverage Gaps` We were lacking in teacher-directed digital books.	5/16/2022 1:05 PM
21	`Coverage Gaps` `Not User Friendly` * lack of some databases to switch languages * not as much in depth journals * not enough sound/image open source	5/12/2022 4:36 PM
22	`Coverage Gaps` We needed access to more biographies.	5/12/2022 12:23 PM
23	`Coverage Gaps` Research: Getting online materials that are credible/reliable	5/12/2022 11:43 AM
24	`Coverage Gaps` `New Acquisitions` Streaming video services were something that we were missing. We purchased Learn360 for the district and Ebsco PBS for the high school. COVID demanded more online resource access.	5/11/2022 3:29 PM
25	`Coverage Gaps` I am unfamiliar with the specifics. I was not with my district at the time. But, ebooks is likely.	5/11/2022 2:28 PM
26	`Coverage Gaps` We used a lot of pre-made videos that demonstrated classwork that couldn't be done live in the in classroom during the lockdowns.	5/11/2022 10:32 AM
27	`Coverage Gaps` We needed access to more online formats of databases, ebooks, media that we could access at school and at home for free or an affordable price. We are a very small school, so the budget doesn't allow us to purchase many online database or ebook options. Badgerlink can help fill those gaps where our budget doesn't allow us to purchase our own materials.	5/11/2022 10:20 AM
28	`Misc.` Students accessed databases since they couldn't have access to books	5/10/2022 4:42 PM
29	`Coverage Gaps` Age appropriate online books.	5/10/2022 4:02 PM
30	`Digital Divide Issues` We have a district in a very rural area of the state that has a difficulty with access to decent internet connection in homes. It has been hard to gain access to any digital resources for some of our families when forced to work and school from home.	5/10/2022 3:04 PM
31	`Need for Remote Access` Digital resources/databases available to our students off-site are very important. We used to have some resources that were only available on campus.	5/10/2022 2:26 PM
32	`Coverage Gaps` After many of the free resources used with students during lockdown were no longer available, we realized that anything outside of social studies was not adequately represented.	5/10/2022 2:20 PM
33	`Need for Remote Access` Our library had ebooks at the middle and high school level that students did not have access to. We also just added SORA so students would have more access to ebooks. Having the books with no access to them was not helpful to students at all! The ES had no previous access to ebooks at all.	5/10/2022 2:20 PM
34	`Coverage Gaps` There are not enough resources and reference materials for students lower than high school. The only Badgerlink source my students are the Britannica School encyclopedias	5/10/2022 2:05 PM
35	`Coverage Gaps` More resources needed for elementary students	5/10/2022 2:02 PM
36	`Digital Divide Issues` Availablity of access while at home. Gaps in internet coverage and resources that were not able to be downloaded and accessed at later times.	5/10/2022 1:23 PM
37	`Coverage Gaps` Student research in some science areas, plus current events. Video also saw an increased use/need.	5/10/2022 1:17 PM
38	`Coverage Gaps` eBook access, full magazine access	5/10/2022 1:16 PM
39	`Coverage Gaps` Online videos and images	5/10/2022 12:34 PM
40	`Coverage Gaps` I think our need for digital instructional resources vastly increased during covid and we found we	5/10/2022 12:08 PM

162

	were lacking with affordable tools that would fill the gap	
41	Coverage Gaps Noticed gap: Elementary version of databases to support research. The only one students at the level use is Brittancia.	5/10/2022 11:53 AM
42	Coverage Gaps New Acquisitions We needed ebooks added to our collection. By joining the Wisconsin Schools Digital Library Consortium, we were able to supply our students/staff with easy access to digital books. We also needed to add a resource management tool to our K-8 building as students were now needing to check out Hotspots, Chromebooks, etc...to take home.	5/10/2022 11:39 AM
43	Coverage Gaps digital audiobooks, ebooks,	5/10/2022 11:38 AM
44	Coverage Gaps access to video and images	5/10/2022 11:32 AM
45	Need for Remote Access We realized most of our resources were not digitally based. It has been a process to identify ways that our staff and students can access materials online. Badgerlink has been an amazing asset.	5/10/2022 11:28 AM
46	Coverage Gaps Lower level information	5/10/2022 11:28 AM
47	Coverage Gaps Not enough science resource or differentiated/leveled resources.	5/10/2022 11:17 AM
48	Coverage Gaps The Pandemic highlighted the need tomove to streaming video for all of our video needs as well as the need to move to more digital access for a variety of other resources.	5/10/2022 11:17 AM
49	Coverage Gaps Magazines ebooks science and math databases	5/10/2022 10:59 AM
50	New Acquisitions We have increased the number of ebooks in our collections since COVID.	5/10/2022 10:34 AM

Q24 Are there specific library databases you wish were available to your users through BadgerLink, other cooperative purchasing, etc.?

Answered: 182   Skipped: 0

	YES	NO	TOTAL
Q1: Public Library System	54.84% 17	45.16% 14	17.03% 31
Q1: Individual Public LIbrary	46.51% 20	53.49% 23	23.63% 43

Q26 Which of the following identified outcomes from the Wisconsin Statewide Electronic Resource Database Inventory & Needs Assessment Study are the most important to you? Please select up to two outcomes.

Answered: 177   Skipped: 5

171

	ADDRESSING THE LACK OF CONSISTENT AND COMPREHENSIVE INFORMATION ABOUT WHAT LIBRARY DATABASES ARE BEING LICENSED BY PUBLIC LIBRARIES, PUBLIC LIBRARY SYSTEMS, AND K-12 PUBLIC SCHOOL LIBRARIES.	DETERMINE WHETHER ANY GAPS EXIST BETWEEN DATABASES PROVIDED STATEWIDE THROUGH BADGERLINK AND THOSE PROVIDED THROUGH PUBLIC AND K-12 PUBLIC SCHOOL LIBRARIES.	INFORM POTENTIAL CHANGES OR UPDATES TO THE BADGERLINK PROCUREMENT COLLECTIONS, WHICH ARE BASED ON THE GENERAL SELECTION PRINCIPLES AS OUTLINED IN THE BADGERLINK COLLECTION DEVELOPMENT POLICY.	PROVIDE AN OPPORTUNITY FOR INCREASED COLLABORATION AMONGST PUBLIC AND K-12 PUBLIC SCHOOL LIBRARIES WITH PURCHASING, TRAINING, AND MARKETING OF DATABASES.	PROVIDE AN OPPORTUNITY FOR FUTURE DEVELOPMENT OF A "LIVING" INVENTORY OF LIBRARY DATABASES LICENSED BY PUBLIC AND PUBLIC K-12 SCHOOL LIBRARIES.	TOTAL
Q1: Public Library System	23.33% 7	33.33% 10	26.67% 8	46.67% 14	23.33% 7	25.99% 46
Q1: Individual Public LIbrary	42.86% 18	50.00% 21	16.67% 7	40.48% 17	23.81% 10	41.24% 73
Q1: K-12 School District	26.67% 28	46.67% 49	14.29% 15	48.57% 51	37.14% 39	102.82% 182
Total Respondents	53	80	30	82	56	177

Q27 Are there any additional outcomes you would like to see from this study?

Answered: 75   Skipped: 107

	ARE THERE ANY ADDITIONAL OUTCOMES YOU WOULD LIKE TO SEE FROM THIS STUDY?	TOTAL
Q1: Public Library System	100.00% 15	20.00% 15
Q1: Individual Public LIbrary	100.00% 17	22.67% 17
Q1: K-12 School District	100.00% 43	57.33% 43
Total Respondents	75	75

#	Q1: PUBLIC LIBRARY SYSTEM	DATE
1	`None` no	5/24/2022 1:40 PM
2	`Awareness` The first outcome in the list is also important: "Addressing the lack of consistent and comprehensive information..."	5/23/2022 4:33 PM
3	`None` no	5/23/2022 11:40 AM
4	`Training Needs` I am new to the area, and where I came from, we did not have such a state-wide resource. I am excited about it, but I would like training on how to do outreach. I would love to have SHORT tutorial videos (each targeted at specific search or information skills, such as a kind of book-talk for databases. (e.g. Need a business database, let me show you a few!") I would like to add such customer training videos on the new website we plan to develop.)	5/20/2022 2:36 PM
5	`None` None at this time	5/19/2022 4:02 PM
6	`Awareness` As a rural library Badger Link is not known to many of our patrons. I would like to see more awareness. Also, I made an educated guess for many of the questions as I had no patrons approach me with concerns.	5/19/2022 10:38 AM
7	`Increased Collaboration` More collaborative purchasing through public library systems and WiLS	5/17/2022 12:02 PM
8	`None` no	5/12/2022 1:29 PM
9	`None` N/a	5/11/2022 1:46 PM
10	`None` no	5/11/2022 9:47 AM
11	`None` n/a	5/10/2022 7:02 PM
12	`None` none that I can think of here and now	5/10/2022 3:03 PM
13	`None` Not at the moment	5/10/2022 2:36 PM

14	Changes to BadgerLink Generally to help us fill the needs of our member libraries and reduce financial burdens on systems that typically are called upon to fill those gaps.	5/10/2022 11:04 AM
15	None no	5/10/2022 10:51 AM
#	**Q1: INDIVIDUAL PUBLIC LIBRARY**	**DATE**
1	None n/a	5/24/2022 4:55 PM
2	Changes to BadgerLink Thank you Looking forward to seeing an even more list robust BadgerLink resources. Thanks for all that you do!	5/23/2022 11:12 AM
3	Increased Usage yes, increased use of the databases	5/21/2022 1:30 AM
4	None n/a	5/20/2022 4:59 PM
5	Changes to BadgerLink Yes, supply the top 10 databases all libraries wish for.	5/20/2022 2:46 PM
6	None No	5/20/2022 2:07 PM
7	Awareness Training Needs I'd like some more comprehensive resources for patrons about what resources are available and how to use them. A lot of our patrons are confused about what they have access to, and are shocked when I tell them they have free access to BadgerLink databases.	5/20/2022 1:13 PM
8	None Nothing I can think of at this time. I like all the ones listed above!	5/18/2022 6:24 PM
9	Changes to BadgerLink Equity With the addition of a variety of streaming platforms, we are seeing longer waits for patrons to be able to access popular culture films and tv series. Many times these streaming platforms will not physically release the shows for years. As a result, there is an increasing divide on those who have access to these popular culture materials (a divide that in the past libraries have been able to bridge). I am hoping that an analysis can be done to see if there is ever an opportunity for "library database" versions of these major streaming platforms. Even if they are slimmed down versions.	5/16/2022 2:43 PM
10	Improved Usability Improve UI for resources like MasterFile, which might get more use if they had a more browse-friendly appearance. Library databases should look and feel like commercial electronic resources that the average user is accustomed to. A nearly blank white screen with a search box and a lot of small text is basically a dead end before a person even starts. Especially for someone just curious, or a novice.	5/16/2022 2:07 PM
11	None no	5/16/2022 1:02 PM
12	Equity Would like statewide provision of basic/enhanced digital resources so local libraries and systems can have access. Equity of information / resources access!	5/11/2022 9:18 AM
13	None No	5/10/2022 4:13 PM
14	None no	5/10/2022 2:17 PM
15	None No	5/10/2022 12:47 PM
16	None No	5/10/2022 12:34 PM
17	None Not at this time.	5/10/2022 12:08 PM
#	**Q1: K-12 SCHOOL DISTRICT**	**DATE**
1	None None I can think of	5/25/2022 11:24 AM
2	Changes to BadgerLink I would like to see the databases that were recommended to me ordered for our staff.	5/24/2022 4:43 PM
3	None Not at this time	5/24/2022 12:22 PM
4	None No	5/23/2022 2:37 PM
5	None No	5/20/2022 2:19 PM
6	None No	5/20/2022 2:14 PM
7	None No	5/20/2022 12:57 PM
8	Purchasing Guidelines If necessary, we'd like to see the purchasing guidelines change to accommodate educational and instructional subscription purchases for school districts to meet the educational needs of students.	5/19/2022 2:54 PM
9	None None	5/19/2022 12:50 PM
10	None No	5/19/2022 11:33 AM
11	None N/A	5/18/2022 3:05 PM
12	Awareness Share the outcomes of the study.	5/16/2022 7:30 PM
13	Awareness Nothing specific, although it's made me realize how little I know about the database selection process!	5/16/2022 4:20 PM
14	None Not at this time	5/16/2022 1:52 PM
15	None N/A	5/16/2022 1:36 PM
16	None no	5/16/2022 1:19 PM
17	None NA	5/16/2022 1:07 PM

173

18	None no	5/13/2022 11:55 AM
19	None No	5/13/2022 10:45 AM
20	None no	5/13/2022 10:17 AM
21	Thank you Thank you for conducting the study.	5/12/2022 4:39 PM
22	Changes to BadgerLink More K12 Content We would like to see more K-12 friendly databases	5/12/2022 2:28 PM
23	None N/A	5/12/2022 1:57 PM
24	Changes to BadgerLink More K12 Content I would like to see more resources added to Badgerlink for younger students. Especially 4k-Grade 5. I don't use it as much as I would like because lower grade students don't have much to choose from that is pertinent to their needs and accessible to their reading levels.	5/11/2022 10:28 AM
25	None No	5/11/2022 9:38 AM
26	None no	5/10/2022 4:36 PM
27	Improved Usability Redoing webpage that is more user friendly for students. I realize that you have colleges as well, but what about a separate link to those database items that younger age students can use.	5/10/2022 4:04 PM
28	None no	5/10/2022 3:06 PM
29	None No	5/10/2022 2:36 PM
30	None nope	5/10/2022 2:23 PM
31	ALL of the options listed above would be great!	5/10/2022 2:21 PM
32	More K12 Content I would like to see more usable databases. They are too high level. Not enough reference texts	5/10/2022 2:07 PM
33	None no	5/10/2022 2:05 PM
34	None No	5/10/2022 1:21 PM
35	More K12 Content WE are a K-8 district so tools and resources that are geared for elementary studenst are always appreciated.	5/10/2022 12:18 PM
36	None None at this time.	5/10/2022 12:02 PM
37	None no	5/10/2022 11:40 AM
38	Awareness Continued consistent communication about Badgerlink proposed resources so schools are able to fiscally plan as necessary.	5/10/2022 11:40 AM
39	None no	5/10/2022 11:39 AM
40	Equity Equity between urban and rural, large and small, affluent and impoverished communities.	5/10/2022 11:39 AM
41	None Not that I can think of at this time.	5/10/2022 11:23 AM
42	None Unsure at this time	5/10/2022 10:36 AM
43	None No	5/10/2022 10:33 AM

Q28 Is there anything else you would like to share?

Answered: 74   Skipped: 108

	IS THERE ANYTHING ELSE YOU WOULD LIKE TO SHARE?	TOTAL
Q1: Public Library System		100.00% 14	18.92% 14
Q1: Individual Public LIbrary		100.00% 17	22.97% 17
Q1: K-12 School District		100.00% 43	58.11% 43
Total Respondents	74		74

#	Q1: PUBLIC LIBRARY SYSTEM	DATE
1	Survey Critique In Question 5, I would have liked an option for "all of the above" for public library systems. We have libraries ranging from Urban to Rural in our library system. It was hard to choose one when we serve libraries of all sizes.	5/24/2022 6:09 PM
2	no	5/24/2022 1:40 PM
3	Accessibility Issues Accessibility is an issue in databases. New and current resources should be evaluated to ensure equitable access for those using screen readers or other accessibility tools.	5/23/2022 4:33 PM

174

4	no	5/23/2022 11:40 AM
5	`Increased Collaboration` We think it would be beneficial to encourage school districts to work with public libraries in regard to resources available in their communities and cross-promoting resources and training.	5/19/2022 4:02 PM
6	Not at this time.	5/19/2022 10:38 AM
7	`BadgerLink Content Review` This is rather specific, but has caused many problems for our patrons; our newspaper is not included on the library version of the newspapers.com library database and newspapers.com is unable to share that database with us.	5/18/2022 1:23 PM
8	x	5/17/2022 12:02 PM
9	no	5/12/2022 1:29 PM
10	no	5/11/2022 9:47 AM
11	n/a	5/10/2022 7:02 PM
12	no	5/10/2022 3:03 PM
13	`Awareness` `Training Needs` I did not even know half of what badgerlink offered until recently. I am also still unsure how to market these to our patrons, having some kind of strategy would be great. Also, training is important, but being a small library, this is not something I can take time myself to do, so it would be great if there can be something through dpi to help show how these databases work, and it is targeted towards all staff, not just managers and directors.	5/10/2022 2:36 PM
14	no	5/10/2022 10:51 AM
#	**Q1: INDIVIDUAL PUBLIC LIBRARY**	**DATE**
1	n/a	5/24/2022 4:55 PM
2	I do not feel informed enough to make judgement calls about most of the items in this survey. I do not have statistics to match with the information needed.	5/24/2022 2:34 PM
3	`Survey Critique` This survey was difficult to do. We do not actually have any idea if our patrons use Badgerlink or if they do which areas they like or dislike. I personally feel Badgerlink is a great resource but I am not sure if the public as a whole knows it exists.	5/23/2022 3:02 PM
4	no	5/21/2022 1:30 AM
5	n/a	5/20/2022 4:59 PM
6	`Usability` Please develop Badgerlink so it is a more user friendly up to date website.	5/20/2022 2:46 PM
7	No	5/20/2022 2:07 PM
8	`Technical Help` When a patron has trouble with a database that I'm not able to fix for them, it would be nice if there was a number I could call or a ticketing system I could report this to. I have a patron who consistently has trouble with the auto repair databases offered both through BadgerLink and through our own library's subscription to it, and it would be nice to be able to report those issues to someone.	5/20/2022 1:13 PM
9	`BadgerLink Content Review` It would be great if digital collections like Hoopla, Kanopy, and Freegl could qualify for cooperative purchasing. I think that is where public libraries are seeing a big demand and the cost/circ model is difficult to sustain.	5/18/2022 6:24 PM
10	no	5/16/2022 1:02 PM
11	no	5/11/2022 9:18 AM
12	No	5/10/2022 4:13 PM
13	no	5/10/2022 2:17 PM
14	`Usability` I would really like to see more PDF full text content for magazines and newspapers and better federated searching--something more like Explora rather than the Super Search.	5/10/2022 1:26 PM
15	No	5/10/2022 12:47 PM
16	`BadgerLink Content Review` It would be great to offer access to current online issues of major newspapers like Milwaukee Journal-Sentinel, Wall Street Journal, NY Times	5/10/2022 12:34 PM
17	`Awareness` I think it's very easy for us to forget about Badgerlink. When we remember it, most patrons find it very useful, and we always have the information on hand for it --but we haven't had a big push for people to make use of it because I don't think our general patrons understand what it's function is (or some of our library staff, to be quite honest).	5/10/2022 12:08 PM
#	**Q1: K-12 SCHOOL DISTRICT**	**DATE**
1	`BadgerLink Content Review` `Usability` Our staff and students do not use BadgerLink often, though we do share information about it regularly. Because it isn't used as much as we would like to see, it is difficult to get feedback from staff and students about the resources available. Staff and students find the EBSCO results to be cumbersome. They struggle to find the right keywords and often have results they feel are not really related to what they are looking for. While this is a good opportunity to teach them about how to do a more complex search, they would rather just Google it. Encyclopedia Britannica entries tend to be very short. The library uses NoveList K-8 often to help students find books. Students get frustrated because we do not carry all of the books suggested in NoveList, but this isn't the fault of the resource.	5/25/2022 11:24 AM

175

2	`Thank you` Thank you for this opportunity.	5/24/2022 4:43 PM
3	Not at this time	5/24/2022 12:22 PM
4	No Thank you	5/23/2022 2:37 PM
5	`Accessibility Issues` I appreciate that the usage of Badgerlink databases was updated to be accessible from homes versus just an IP address.	5/20/2022 2:19 PM
6	`BadgerLink Content Review` Bring back Soundzabound, Bill Nye the Science Guy videos. Would be nice to have copyright free images as a database (even though there are a lot of websites out there that already provide that, it's good to have it all in one place). Advertise Archive of Wisconsin Newspapers more - that database is awesome and very useful!	5/20/2022 2:14 PM
7	`BadgerLink Content Review` `Thank you` I am so grateful for Badgerlink services. My students and staff LOVE access to Encyclopedia Britannica.	5/20/2022 1:14 PM
8	No	5/20/2022 12:57 PM
9	`Survey Critique` The survey was rather confusing for a K-12 school district to comment on the needs of K-12 user's needs vs. professional learning needs. We feel these are two separate components and found it difficult to access our needs when they are combined in one question.	5/19/2022 2:54 PM
10	Not at this time.	5/19/2022 12:50 PM
11	No	5/19/2022 11:33 AM
12	No	5/18/2022 3:05 PM
13	`Awareness` `BadgerLink Content Review` I wish I had a better understanding of what badgerlink can do and how to share it with my patrons and students.	5/17/2022 5:40 PM
14	`Thank you` Thank you for doing this.	5/16/2022 7:30 PM
15	`BadgerLink Content Review` `Usability` I would like to see more (and only) full text results. EBSCO sources should be easier to search - it is too complex. students rarely take the time to sort through results even after instruction	5/16/2022 2:45 PM
16	No	5/16/2022 1:52 PM
17	N/A	5/16/2022 1:36 PM
18	no	5/16/2022 1:19 PM
19	`Awareness` As a large school district I can provide more for my staff and students. I don't feel like I know Badgerlink resources as well as other smaller schools do as they only have access to Badgerlink while I have access to many others.	5/16/2022 1:07 PM
20	no	5/13/2022 11:55 AM
21	`BadgerLink Content Review` We really miss Sounds a Bounds and the author pronunciation and teaching books.net	5/13/2022 10:45 AM
22	no	5/13/2022 10:17 AM
23	`Usability` * I know there is always a constant evaluating of the website, but Badgerlink is still quite difficult to navigate. I realize that we can take individual items out and use them.	5/12/2022 4:39 PM
24	N/A	5/12/2022 1:57 PM
25	`Awareness` I only know which resources we use because I specifically seek out resources within BadgerLink when I need something specific. I would like the opportunity to have a quick walk-through/training of the available resources.	5/12/2022 11:14 AM
26	`BadgerLink Content Review` Is it possible to get access to daily newspapers like The New York Times through Badgerlink for current event classes?	5/11/2022 9:38 AM
27	no	5/10/2022 4:36 PM
28	`Usability` I find it to be so hard to locate the correct resources. When I go into the BadgerLink and I research by super search, I don't get specifically what I want for a age group. I don't find it user friendly. Your encyclopedia for students is a better set up, but again, if there was an icon page, it would work better for younger students.	5/10/2022 4:04 PM
29	no	5/10/2022 3:06 PM
30	`Awareness` `Training Needs` I'm fully aware that we underutilize the Badgerlink Resources in our school district.	5/10/2022 2:36 PM
31	nope	5/10/2022 2:23 PM
32	Not at this time.	5/10/2022 2:21 PM
33	No	5/10/2022 2:07 PM

35	no	5/10/2022 1:21 PM
36	`Usability` I really appreciate the recent revamp of the homepage to BadgerLink. It has helped students find the	5/10/2022 12:02 PM

	collection easier to navagate through. One small request - make the top banner smaller. Most people don't scroll and the information banner is so large, most don't see the awesome category button list.	
37	`Awareness` `Training Needs` For me the most important thing is the dissemination and training aspect, informing people about what is available and getting them familiar with how to dive into using it.	5/10/2022 11:54 AM

40	`Awareness` I wish there was a better way to know what other databases school librarians are purchasing for their students across the state (and the U.S.). I want to make sure I am doing the best for my students.	5/10/2022 11:39 AM
41	Not that I can think of at this time.	5/10/2022 11:23 AM
42	Not at this time	5/10/2022 10:36 AM

Public Library

Public Library System

K-12 School District

Wisconsin Department of Public Instruction
Statewide Database Inventory & Needs Assessment Project

K-12 Public School District Library Focus Group & Interview Questions

1. Wisconsin Statute requires that the Department of Public Instruction maintain resources that serve state agency libraries and state employees, public library systems, public libraries, school libraries, and other types of libraries. Do you feel that the current BadgerLink databases provide content to all these groups?

Questions based upon survey responses from K-12 Public School District Library responders:

2. In K-12 and Professional Learning subject areas, the top three areas identified for increased representation in BadgerLink were Social Studies, Science, and Computing & Information Technology. Can you discuss the needs of your users in each of these areas?

3. In General Interest subject areas, the top three areas identified for increased representation in BadgerLink were Current News & Information, Local History, and Historical News & Information. Can you discuss the needs of your users in each of these areas?

4. For both K-12 and Professional Learning and General Interest Subject areas, Video, Sound/Music, and Image formats were highly rated as needing greater representation in BadgerLink. Can you discuss the needs of your users for each of these formats?

5. The opportunity for increased collaboration amongst public and K-12 public school libraries with purchasing, training, and marketing of databases was rated highly as a desired outcome of this project. How do you think that increased collaboration might be achieved?
