What is the LegalTuneUp tool?

Legal Tune Up seeks to address inequity by assisting folks in navigating through vast and overwhelming public databases that house information that result in barriers to housing, employment, and economic stability.

Such as driver's license suspensions, evictions, convictions, child support arrears, and consumer debt.

The importance of accurate records

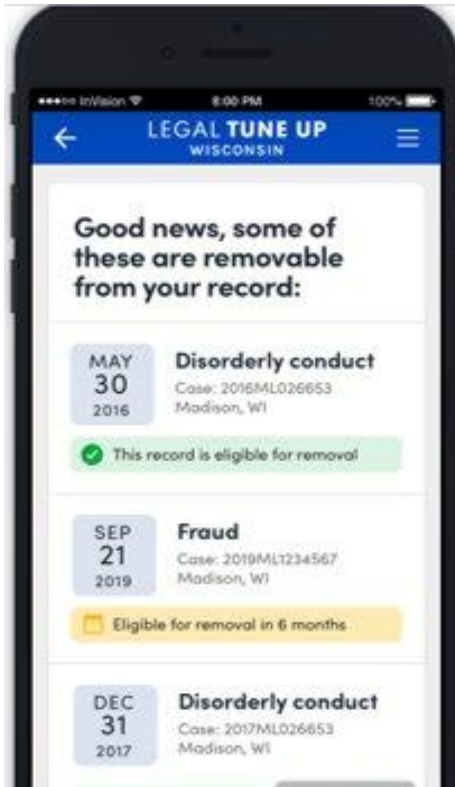

Landlords and employers can search criminal records in approving renters or in hiring people.

Removing eligible criminal records can have a positive impact for people and their families.

Removing these records can increase the opportunities to get a new job or housing.

The Wisconsin Policy Forum estimates that 1.4 million (1 in 4) people in Wisconsin have a criminal record.

Searches CCAP to identify and remove criminal records

Sometimes, criminal records are incomplete or just plain wrong. There are four common errors:

1. Incorrect charge information
2. Missing disposition information
3. Incorrect disposition information
4. Identity theft

What criminal records may be removed from CCAP?

- Charges that have been dismissed
- Arrests where the user was not charged
- Cases of mistaken identity
