RE: Attendance Data Errata

It has come to our attention that our 2021-22 Sunnyside Elementary absenteeism data has ninety (90) students marked not attending any days during the 21-22 school year. Upon investigation, we found that our kindergarten course and one section of our 3rd grade course had been made inactive for the 21-22 school year, the new secretary did not catch this and therefore our data for these students did not update with the Department of Public Instruction. These students did attend school during that time. See the list below:
