Re: Incorrect Number of Students Receiving Special Education Services

To Whom It May Concern,

Please accept this letter as evidence that the student snapshot submitted on October 1, 2021 contained an error in our record of Special Education students.

Due to a change in staffing that occurred around this date, the information that was confirmed in the Wise system was not accurately updated.

The information pulled on October 1, 2021 reflected no students who received Special Education services. In actuality, our school had ten (10) students receiving Special Education services on that date.

Please accept this letter as official notification of the error of data.

Respectfully,
