Re: Data Errata

To Whom It May Concern,

For the December WISEDData Snapshot for the 2021-22 school year, there were a few errors in the data that was submitted.

The Shawano School District reported 145 students completing the IRC State Approved WTCS – Associates Degree. This was a misunderstanding of the field and coding issue. None of our students completed the WTCS – Associates Degree.

The Shawano School District reported 31 students completing the IRC State Approved WTCS – Technical Diploma. This was a misunderstanding of the field and coding issue. None of our students completed the WTCS – Technical Diploma.

The Shawano School District reported 1 student completing the IRC State Approved Business & Industry Certification. This was a misunderstanding of the field and coding issue. 32 of our students completed the State Approved Business & Industry Certification.

The Shawano School District reported 30 students completing an Advanced Placement course. This was a coding issue. 47 of our students completed an Advanced Placement Course.

Please accept this letter as official notification of the error in our data submission. With better understanding of the process, procedures are now in place to ensure this data is reported properly on each data snapshot.

Sincerely,

Cory J. Kaisler
