RE: 2020-2021 WISEstaff Data Errata

This data errata letter to the DPI is to correct the years of experience recorded for Amy Keup. The DPI site indicates that she has 23 years' experience. She actually has held a WI teaching license since 1992. The Whitnall School District's records reflect 29 years of experience. I am requesting that Amy's years of experience be updated from 23 years to 29 years. She is currently starting her 30th year of teaching.

Thank you for your assistance in resolving this matter.

Sincerely,

A handwritten signature in cursive script that reads "Cindy Mixon".
