

January 5, 2022

Wisconsin Department of Public Instruction
125 S. Webster Street • Madison, WI 53703

Greetings,

Regarding the December snapshot for the 2020-21 school year:

Prior to the December snapshot, we were unable to resolve a data error related to 9 students in one course who had received an industry credential through the **Assistant Child Care Teacher Program (ACCT)** program.

The error message was: *Certificated Program Status type has not been submitted on the Grades record for a Certified Career Education Program that is associated to a course.*

We have verified that all student did successfully complete the course and successfully earn the ACCT credential – which were provided to DPI at the end of the 2020-21 school year.

Working in conjunction with Skward, we have been able to resolve the error and the WISEData online validation tool has confirmed this.

Please update our snapshot data as appropriate to include these students as having completed the Certified Career Education Program.

Sincerely,

Christy Weinstock
