# USDA Child Nutrition Programs Administrative Review Summary Report

School Food Authority: Monroe School District Agency Code: 233682

School(s) Reviewed: Parkside Elementary

Review Date(s): April 24-26, 2018 Date of Exit Conference: April 26, 2018

State agencies (SA) are required to conduct administrative reviews to assess School Food Authority (SFA)'s administration of the National School Lunch Program (NSLP), School Breakfast Program (SBP), and other school nutrition programs. The objectives of the Administrative Reviews are to:

Determine whether the SFA meets program regulations,

- Provide technical assistance.
- Secure needed corrective action,
- Assess fiscal action, and when applicable, recover improperly paid funds.

# **General Program Reminders/Updates:**

- The Department of Public Instruction (DPI) School Nutrition Team (SNT) conducts School Nutrition Skills Development Courses (SNSDC) each summer in various locations around the state. Courses cover many areas of the school nutrition programs including administrative responsibilities, program basics, meal pattern requirements and menu planning, financial management, meal benefit determination process, professional standards, procurement, and many other topics. More information along with other upcoming trainings and webinars can be found on the Wisconsin DPI <a href="School Nutrition Training">School Nutrition Training</a> webpage (dpi.wi.gov/school-nutrition/training).
- SFA staff are encouraged to pursue GOALS Certification. GOALS stands for Goal Oriented Achievement Learning Skills. This is a certificate endorsed by the DPI and is obtained by completing training in nutrition, program administration and operations, or communications and marketing. For more information go to the Wisconsin DPI <u>School Nutrition Training</u> webpage (dpi.wi.gov/school-nutrition/training/goal-oriented-achievement-learning-skills).
- The US Department of Agriculture (USDA) has a toolkit of resources to assist schools in meeting
  the nutrition standards on their <u>Healthier School Day: The School Day Just Got Healthier</u> webpage.
  The topics covered include Smart Snacks, offering fruits and vegetables, reducing sodium, and
  serving whole grain-rich products (http://www.fns.USDA.gov/healthierschoolday).
- The Smarter Lunchrooms Movement encourages schools to implement low-cost and no-cost lunchroom solutions to help students select healthier meal options
   (http://smarterlunchrooms.org). Smarter Lunchroom techniques are easy to begin implementing and help encourage student consumption of fruits, vegetables, legumes, non-flavored milk, and other healthful choices. These strategies are effective and research-based. Consider trying the Smarter Lunchroom techniques for increasing consumption of white milk.

# Appreciation/Commendations/Noteworthy Initiatives:

Thank you to the staff at Monroe SD for the courtesies extended to us during the on-site review and for being available to answer questions and provide additional information. All were very receptive to recommendations and guidance. In addition, thank you for taking the time to respond to the off-site questions and requests, as well as pulling records for the on-site portion of the review.

#### **REVIEW AREAS**

#### 1. MEAL ACCESS AND REIMBURSEMENT

### **Certification and Benefit Issuance**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

420 eligibility determinations were reviewed, one error was identified.

# Free and Reduced Price Meal Applications

- Applications must be reviewed in a timely manner. An eligibility determination must be made, the family notified of its status, and the status implemented within 10 operating days of the receipt of the application.
- Children are eligible for free or reduced price meal benefits on the date their eligibility is determined by the Determining Official.
- When a household has income in addition to a loss from a business, that income must be included on the free and reduced application in full and is not offset by the business loss. A business loss (negative dollar amount) would become \$0 for the income on the application.

# **Annual Income**

• There has been a recent modification to the requirement pertaining to the reporting of annual income on an application. USDA released SP-19, 2017 on March 20, 2017 allowing households to report current income as an *annual figure*. Annual income is typically reported for households with jobs that are seasonal, self-employed, or agricultural work since that is a more accurate representation of *current income*. These applications may now be processed at face value. However, most households that receive regular pay checks, will report income based on what is *currently earned* and the frequency of that pay, i.e. weekly, biweekly, bimonthly or monthly.

# Household Size Box

• The total household member size box includes all children and adults in the household and must match the number of names on the application for that application to be considered complete.

# **Incomplete Applications**

Any application that is missing required information, contains inconsistent information, or is unclear is
considered an incomplete application and may not be determined until clarified with the household.
The SFA may return the application to the household or contact the child's parent or guardian either
by phone or in writing/email. The determining official should document the details of the
conversation plus date and initial. Applications missing signatures must be returned to the parent to
obtain. Reasonable effort should be made to obtain the missing information prior to denying the
application.

### Other Source Categorical

- If a household submits an application that indicates Other Source Categorical Eligibility, such as
  homeless, migrant, or runaway, the SFA must confirm the children's status by an appropriate program
  official either through direct contact with the agency or by a list of names provided by the agency,
  before meal benefits can be provided. Once confirmed, this eligibility is only available to the
  designated child and is not extended to other members of the household.
- Applications that indicate a child is a foster child are categorically eligible for free meals. The child's status for free meals does not require confirmation of eligibility prior to receiving benefits. This benefit is not extended to other household members. Technical assistance was provided.

# **Effective Date of Eligibility**

SFAs may establish the date of submission of an application as the effective date of eligibility, rather
than the date the application is reviewed and eligibility is determined. This flexibility applies only to
complete applications containing all required information. See memo SP 11-2014 for more
information. The SNT must be contacted prior to implementing this flexibility for approval. Contact
Karrie Isaacson at karrie.isaacson@dpi.wi.gov for more information and approval. Technical
assistance was provided.

# **Public Release**

- All SFAs are required to distribute a <u>Public Release</u> before the start of the school year (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/free-reduced-applications#apps). The purpose is to inform the public that free and reduced price are available. SFAs must annually distribute the Public Release to:
- Local news media
- o Grassroots organizations (local organizations providing services to populations in need)
- Major employers contemplating or experiencing large layoffs
- Local Unemployment Office (as applicable)
- SFAs are not required to pay to have the public release published but must maintain documentation of whom it was sent to along with the specific materials distributed.

# <u>Limited English Proficiency (LEP)</u>

- Application materials and other communications with households concerning eligibility
  determinations must be provided in a language that parents or guardians can understand in order to
  diminish any language barriers to participation for individuals with limited English proficiency.
- The USDA Food and Nutrition Service (FNS) website offers many other <u>foreign language translations</u> of the <u>Application for Free and Reduced Price School Meals</u> (https://www.fns.usda.gov/school-meals/translated-applications).
- The nonprofit food service account may be used to pay for translation services if there is a need to translate materials in a language that is not currently available.

# **Direct Certification**

- As a reminder, you are required to run direct certification a minimum of three times a year: at or near the beginning of the school year, three months after the initial run and six months after the initial run.
- The effective eligibility date for a DC eligible student is the date of the original output file.
- It was noted that direct certification runs were conducted including students from a parochial school to identify free eligible for other funding sources (i.e., Title 1). DC runs are only for school nutrition

and it is not allowable to be running it for other schools outside of your district or for purposes other than school nutrition programs. **Technical assistance was provided.** 

# **Transferring Students**

• Transferring the eligibility determination between LEAs ensures that qualifying students continue to receive school meal benefits as they transition to new schools, and avoids the possibility of unpaid meal charges. FNS strongly encourages LEAs to immediately accept the eligibility determinations made at a student's previous LEA (if they participated in NSLP) when a student transfers between LEAs during the school year, over the summer, or at the start of the next school year. Wisconsin DPI requires source documentation of the student's previous eligibility. The transfer of eligibility between LEAs for students attending CEP schools will be required by July 1, 2019.

# **Disclosure**

- The information provided by the family on the free and reduced price application is to be used only for determining eligibility for meal or milk benefits.
- The LEA must seek written consent from the parent or guardian to use the information provided on
  the application or through direct certification for non-program purposes, such as athletic or testing
  fee waivers, registration fee waiver, school fees, etc. Consent must be obtained each school year. Find
  the <a href="Sharing Information with Other Programs">Sharing Information with Other Programs</a> template on the Free and Reduced Meal Applications
  and Eligibility webpage (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/sharing-infoother-programs.doc). Technical assistance was provided.
- For anyone receiving eligibility information to approve students for non-food service program
  benefits after parental consent is received, the *Disclosure Agreement* form should be signed and on file
  at the district. A template <u>Disclosure of Free and Reduced Price Information</u> form is located on the
  SNT website (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/disclosureagreement.docx).

# Findings and Corrective Action Needed: Certification and Benefit Issuance

☐ Finding #1: The finding was that the district is able to access free and reduced parochial school information through software that is shared between the two schools  Corrective Action Needed: Please stop this practice and submit a statement on how this will be corrected.
☐ Finding 2: The district is disclosing individual free and reduced meal eligibilities for local initiatives like school fee waivers and athletic fee waivers without obtaining <i>prior</i> parental consent.  Corrective Action Needed: Discontinue this practice. Reviewer suggests implementing a Sharing of Information Form (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/free-reduced-applications). Please submit a copy of what the SFA will use for fee waivers moving forward.

#### Verification

### Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

• When applications are chosen for verification, the person designated as the Confirming Official must review the application(s) to ensure the initial determination is correct prior to contacting the family. There is a place for the Confirming Official to sign and date on the back of the application.

• When a benefit eligibility status increases, the change must take place within 3 days. When a benefit eligibility decreases, the change cannot take place before 10 calendar days and a notice of adverse action is sent in writing with appeal rights procedures.

# Findings and Corrective Action Needed: Verification

☐ **Finding #1**: The verification process was conducted but there was not documentation to show determine that a confirmation review took place.

**Corrective Action Needed**: Please review the verification process on the DPI website. Submit a detailed statement of what the confirmation official's role is and how the SFA will document that a confirmation review took place.

# **Meal Counting and Claiming**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- Meals may only be charged to a student upon receipt of a reimbursable meal to assure proper benefits issuance.
- When entering the claim it is necessary to use the edit check to calculate your reimbursable meals by site for claim submission.
- Meals must be offered to all students each day school is in session a full day, so DPI has created <u>Field</u>
   <u>Trip meal resources</u> to help schools offer student meals (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning).
- REMINDER: Meal benefits apply only to the reimbursable meal. The reimbursable meal includes milk as one of the required components, and must be priced as a unit. If the student decides to take only milk, this is not a reimbursable meal and will be charged for the milk as an a la carte item.

# Findings and Corrective Action Needed: Meal Counting and Claiming

### 2. MEAL PATTERN AND NUTRITIONAL QUALITY

We extend sincere appreciation to the FSD for the time set aside to meet with us and answer our many questions. Your patience, willingness to learn, and prompt communication is greatly appreciated. Thank you for your dedication to serving compliant meals to Wisconsin students! All meals observed were reimbursable. Keep up the good work, Monroe School District.

# **Comments/Technical Assistance/Compliance Reminders**

CACFP: The updated Child and Adult Care Food Program (CACFP) meal pattern was implemented on October 1, 2017, replacing the previous meal pattern options for SFAs serving infants and children aged 1-5 and not yet in kindergarten. Pre-kindergarten is exempt from the CACFP meal pattern if they are comingled with older students following the National School Lunch Program; meaning that pre-k students can follow the NSLP meal pattern if they are served at the same time as older students and without distinction. More information regarding the updated CACFP meal pattern is available on the Infants and Preschool in NSLP and SBP webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/infants-and-preschool). Contact Erin Opgenorth (erin.opgenorth@dpi.wi.gov) or Tanya Kirtz (tanya.kirtz@dpi.wi.gov) with any questions.

**Training:** Regular trainings are offered on the Wisconsin DPI webpage through webcasts, webinars, and on-site trainings. Check our <u>training webpage</u> often for current and upcoming opportunities (dpi.wi.gov/school-nutrition/training).

**Garden Bar portions:** Proper portion size utensils should be used and are very important for self-service foods. This helps to encourage students to take the planned amount, and ensure the amount needed for a reimbursable meal is taken. In the case of carrots, cucumbers, or tomatoes, spoodles are not the most efficient serving tool, and tongs are more efficient. Communicate to staff and students how many pieces a student is intended to take. Be sure to note that on the production records as well.

**Production records:** Thank you for designing and implementing updated production records. Production records are intended to be useful tools to record information prior to production, during production, and following production. Thorough, accurate production records aid the menu planner with forecasting, ordering, menu planning, and reducing food waste. It is helpful to include not just portion size, but also crediting, on the production records. A list of production record requirements ("Must Haves and Nice to Haves") and sample production record templates can be found on our <u>Production Records</u> webpage (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning/production-records).

### Findings and Corrective Action Needed: Meal Pattern and Nutritional Quality

□ Finding #1: Bus-tub breakfast in the classroom (This free breakfast program takes place on Mondays. It is served, NOT OVS. This has been granted permission per DPI contract.) *Please note that on future Administrative Reviews (AR)*, repeat violations of minimum quantity shortages may result in fiscal action. Only ½ cup of fruit is served on Monday, and it is in the form of juice. This results in a daily/weekly fruit shortage and surpasses the limit of 50% of fruit in the form of juice. To remedy this situation, it is recommended to add ½ cup of solid fruit, dried fruit, or non-starchy vegetable to the Monday breakfast (ex, craisins, fresh fruit, fruit cups, packaged apples, packaged baby carrots, etc).

### Fruit shortage

- The breakfast meal pattern requires at least 1 cup of fruit to be offered daily at breakfast. As a reminder, no more than half (50 percent) of the fruit offered over the course of a week can be in the form of juice. Offering  $\frac{1}{2}$  cup of juice on Monday does not meet the daily (1 cup) and weekly (5 cups) minimum requirements for the fruit component.
- More than 50% fruit as juice
  - During the review week ½ cup of juice is offered 5 days (Monday-Friday) and ½ cup of fruit is offered 4 days (Tuesday-Friday). More than half of the fruit served is in the form of juice. No more than 50% of fruit can be served in the form of juice over a week.

**Corrective Action Needed for Finding #1:** Submit a written plan of action explaining what will be done to ensure that 1 cup of fruit is provided each day and no more than 50% of fruit will be served in the form of juice each week at breakfast. Specifically, address changes that will be made to the bus-tub breakfast.

□ Finding #2: Daily and weekly lunch grain shortage Please note that on future Administrative Reviews (AR), repeat violations of minimum quantity shortages may result in fiscal action.

Each entrée must be considered as a separate service line, and be evaluated for meal pattern compliance individually. Students were being offered at minimum 6.25 oz eq grain during the week, which does not meet the K-8 meal pattern requirement of minimum 8.0 oz eq grain per week. Outlined below are the minimum daily grain contributions:

- Monday: 0.5 oz. eq. grain from taco shell with taco meal -DAILY SHORTAGE
- Tuesday: 2.0 oz. eq. grain from either then BBQ or turkey sandwich meal
- Wednesday: 0.75 oz. eq. grain from pasta with the spaghetti meal -DAILY SHORTAGE
- Thursday: 2.0 oz. eq. grain from noodles and breadstick with chicken and noodles meal
- Friday: 1.0 oz. eq. grain from nugget breading with chicken nugget meal

**Corrective Action Needed for Finding #2:** Submit a written statement explaining how daily and weekly grain shortages will be prevented, particularly on days that tacos and spaghetti will be served.

# ☐ Finding #3: Standardized recipes

Recipes should be updated to reflect current practices and products. Standardized recipes exist, but many are not accurately reflecting what is happening in the kitchen. The standardized recipe resource in the production kitchen is outdated, and does not comply with current grain component requirements. Recipe standardization is very important to ensure that each meal is consistently planned to meet the daily and weekly requirements. The recipe standardization process will take several times producing the menu item to make sure it comes out the same way. This requires organized record keeping throughout the process. Continue to work towards recipe standardization, and use all resources available to you. Visit our Recipe Resources and Tools webpage for additional information (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning/recipes).

# Corrective Action Needed for Finding #3: Submit standardized recipes for

- chicken and noodles
- spaghetti
- bean salad (salad bar)

### ☐ Finding #4: Weight vs. Volume

Meat/meat alternate (M/MA) is credited by weight, not by fluid ounces. Spoodles measure fluid ounces (volume), not ounces (weight), so it is not appropriate to use a 4 fluid ounce spoodle for an intended 4 ounce (by weight) serving of M/MA. Fluid ounces are a volume measure, while ounces are a weight measure. To ensure that students are receiving the adequate amount of meat/meat alternate, weigh the meat/meat alternate, then determine which scoop will hold that weight of meat. Chicken was planned to be served in 2 ounces by weight, but staff was serving chicken in a 2 fluid ounce scoop. Although in this case 2 fl oz chicken did weigh 2 oz, this is not always true.

**Corrective Action Needed for Finding #4:** Review with staff the <u>Portion Control webcast</u>, with emphasis on the weight vs. volume portion (https://media.dpi.wi.gov/school-nutrition/whats-the-scoop-on-portion-control/story\_html5.html). Submit a roster or sign-in sheet for all staff.

# ☐ Finding #5: Signage

It is required to post signage visible to the students that indicates the offered components in each meal and tells students what they must select in order for their meal to count as reimbursable. The breakfast signage should list the three components and the four items offered, and must communicate to students that under Offer versus Serve, they must select at least three food items, one of which must be at least  $\frac{1}{2}$  cup of fruit, vegetable, or a combination of fruit and vegetable.

It is up to the menu planner to determine in advance whether items crediting as 2.0 ounce equivalents (oz. eq.) count as one or two food items. He or she must clearly communicate to students what foods they can (must) select in order to have three food items for a reimbursable breakfast. (For example, the BeneFit

Breakfast Bar was 2.0 oz. eq., so it could be counted as either one or two food items). Under Offer versus Serve (OVS) for the breakfast meal pattern, four food items must be offered from the three components (grain [and optional meat/meat alternate], fruit/vegetable, and milk). An item is defined as 8 fluid ounces of milk; ½ cup of fruit and/or vegetable; and 1.0 ounce equivalent (oz eq) of grain (and optional meat/meat alternate).

If you are interested in ordering signage from SNT, please visit the <u>Team Nutrition</u> webpage (dpi.wi.gov/team-nutrition) and complete the Resource Order Form.

Corrective Action Needed for Finding #5: Submit a picture of signage hung in the breakfast service line.

Once the Public Health Nutritionist has all crediting documentation and updated standardized recipes for the week of review, it can be analyzed to determine if the meal patterns for the National School Lunch Program and School Breakfast Program are being met. Until that time, the review cannot be closed. Please be aware that the possibility to conduct a weighted nutrient analysis exists if substantial errors are found. Additional errors may require additional corrective action and may also be subject to fiscal action.

# 3. RESOURCE MANAGEMENT

# Nonprofit School Food Service Account

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

**Annual Financial Report (AFR)** 

- All revenues (reimbursements and student payments) and expenses (including food, labor, equipment, purchased services, and the other category) need to be separated into each program; this will aid the school in calculating its "yearly" reference period for nonprogram food compliance which is highly recommended.
- When a student deposits funds in their lunch account which will be used for meal purchases, the amount received is not treated as revenue until the meal has actually been served to the student. The amount of funds on hand in student accounts is treated as a deposit or liability account in either the foodservice fund (Fund 50) or the general fund (Fund 10) until the meal is served, at which point the deposit account is converted to revenue. This amount should not be recorded as revenue or part of the fund balance on your Annual Financial Report.
- The ending balance on June 30 from the previous year needs to be the beginning balance on July 1 for the current year.
- The ending balance, on June 30, can never be a negative balance. A transfer must be made from the non-federal funds to bring the ending balance to \$0.00.
- These categories of the AFR that should be addressed when tracking revenues and expenditures include:
  - Expenses for paper supplies, chemicals, thermometers, etc., should be reported under "Other".
     Only expenses for edible food items and beverages should be reported under "Food".
  - "Equipment" should reflect major purchases of equipment. Utensils, pans, smaller equipment such as a cart, etc., should be reported under "Other".
  - Under "Purchases Services" report any time you pay someone for services provides such as equipment repair and health inspections.
  - Under "Ala Carte", report the expenses for any food items served to students that are not claimed as part of the reimbursable meal. Revenues and expenses from adult meals would also be included here.

When revenues are recorded from the federal reimbursement payments, make sure that you are recording the full reimbursement based on the printed claim form and not what is actually deposited into your account. As you will note on the claim, there may be money deducted from shipping, handling and processing fees for USDA Foods. The amount deducted from your revenue should be reported as a food expenditure.

# **Allowable Costs**

- The nonprofit school food service account is to be used for the operation of the school meal program including food, supplies, equipment and personnel.
- The nonprofit school food service account may not be used to purchase land and/or buildings unless approved by FNS.
- Allowable costs are defined in 2 CFR 200 Subpart E and should be necessary, reasonable and allocable. More information on allowable costs can be found within the <a href="Indirect Costs guidance">Indirect Costs guidance</a> (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial).
- Bad debt is an unallowable expense to the food service program. A transfer must be made from non-federal funds to cover student account write-offs. <u>SP23-2017 Unpaid Meal Charges guidance Q & A</u> may be found our Financial Management webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial).

### **Unpaid Meal Charge Policy**

- USDA Policy Memorandum SP 46-2016 requires all SFAs operating federal school meal programs to have a written and clearly communicated policy that addresses unpaid meal charges. For a snap-shot on what the policy must include, see the <u>Unpaid Meal Charges In a "Nutshell"</u> (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/unpaid-meal-charges-nutshell.pdf). For a more comprehensive overview, see SP 23-2017: <u>Unpaid Meal Charges Guidance</u> https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-23-2017.pdf
  - Best Practices
  - Local meal charge policy checklist
  - Sample outstanding balance letter
  - Sample robo-call script
- Funds in student meal accounts are considered a liability until a meal is purchased. When the funds are left "unclaimed", they cannot be used to offset another student's negative account, unless *paid* households have *chosen to donate* those funds to the school food service account. All funds left in any student meal account which cannot be contacted must be turned over to the Wisconsin Department of Revenue (DOR) as unclaimed property. The DOR has rules concerning <u>unclaimed property</u> that must be followed (https://www.revenue.wi.gov/DOR%20Publications/pb82.pdf).

□ Fi	inding	g: Tł	ne fi	nding	was	that th	e unp	aid m	neal b	alan	се р	olicy	y was	not p	rovid	ed in	a wri	itten f	forma	at to
hou	seholo	ds a	t the	e begi	nnir	ng of the	e scho	ol ye	ar.											
_		_		_				• •												

**Corrective Action Required:** Please submit a statement on how this will be corrected.

# **Revenue from Nonprogram Foods**

 Nonprogram foods include: Adult Meals, A la Carte, Extra Entrees, Extra Milk (for cold lunch or milk break), Vended Meals (meals sold to other agencies), Catered Meals, and Food Service operated Vending Machines.

- All costs associated with nonprogram foods, including food, labor, equipment, and purchased services
  must be covered by revenues received from the sale of those foods. Nonprogram foods may not be
  supported by reimbursable meals or have a nonprogram foods loss absorbed by the food service
  account. Thus nonprogram foods may never run in the negative unless non-federal funds are
  transferred into the food service fund to cover the deficit.
- Nonprogram Food costs and revenues must be separated from Program food costs and revenues.
- The USDA Nonprogram Revenue Tool must be completed yearly, at a minimum. The <a href="DPI">DPI</a>
  <a href="Nonprogram Food Revenue Tool/Calculator">Nonprogram Food Revenue Tool/Calculator</a> located on our website feeds into the USDA tool and aids in calculating prices of nonprogram foods and meeting the USDA nonprogram food regulation (<a href="http://dpi.wi.gov/sites/default/files/imce/school-nutrition/xls/non-program-food-price-calculator.xlsx">http://dpi.wi.gov/sites/default/files/imce/school-nutrition/xls/non-program-food-price-calculator.xlsx</a>).

# Adult Meals

- Adult meals are considered non-program foods. Food service programs must price adult meals above the overall cost of the meals. Since adult meal costs can be difficult to calculate, SFAs must, at a minimum, follow the **minimum** pricing guidelines in Food Nutrition Services Instruction 782-5.
- A <u>Wisconsin Adult Meal Pricing Worksheet</u> has been developed to assist the SFA in pricing adult meals (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/wisconsin-adult-meal-pricing-guide.doc).
- Districts need to assess adult meal prices annually prior to contract submission to ensure student reimbursements are not being used to subsidize adult meals.

# Resources

- Nonprogram Foods Revenue Rule SP-20-2016 (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-20-2016.pdf)
- <u>Nonprogram Foods In a "Nutshell"</u> (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/nonprogram-foods-in-a-nutshell.pdf)

# **Indirect Costs**

### Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- DPI does not allow the annual assigned indirect cost rate to be applied to Fund 50 (Foodservice
  account within WUFAR). For both public and private schools in Wisconsin, any costs assessed to
  foodservice must be based on documented and justifiable costs for each school building as they
  pertain to your school situation rather than an indirect cost rate. This may include utilities, rent,
  printing and mailing services, administrative oversight, etc.
- Allowable Expenditures assessed to the food service fund must be supported with documentation for items such as gas, electricity, waste removal, fuel, water, etc. for the school district. Examples of supporting documentation for costs assessed to food service fund could include:
  - o Rent consultation with knowledgeable resource person on appropriate charges per facility (i.e., local reality broker who has knowledge of current rates for rent of similar facilities).
  - Utility charges separately metered or current usage study by the local utility company.

- Labor expenditures based on actual amount of time worked specifically for the purpose of school food service times the employee's wages and benefits.
- Printing/publishing documentation of actual costs or documentation to support how these costs were prorated from the district's total costs, based on volume.
- Waste disposal services, extermination services, and laundry services documentation of actual costs or documentation to support how these costs were prorated from the district's total.

### 4. GENERAL PROGRAM COMPLIANCE

# **Civil Rights**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

# Nondiscrimination Statement

• When including the <u>non-discrimination statement</u> on letters, menus, website, and other documents used to convey program information, it is necessary to use the current statement which was updated in 2015 (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/civil-rights). However, when space is very limited, such as on the printed menus or low balance notices, the abbreviated statement may be used, "This institution is an equal opportunity provider." Either of these statements must be in the same size font as the other text in the document.

### And Justice for All Poster

"And Justice for All" posters need to be posted in public view where the program is offered.

### Civil Rights Training

- Civil rights training must be conducted on a yearly basis for all staff and volunteers who administer any portion of a school nutrition program.
- Civil rights training had been attended by all staff in the schools and documentation was available for review.

# Civil Rights Self-Compliance Form

• The <u>Civil Rights Self-Evaluation Compliance</u> form is required to be completed by October 31 annually.

### Special Dietary Needs

- All food substitutions made outside of the meal pattern requirements must be supported by a signed medical statement from a licensed medical professional. SFAs may use the <u>prototype Medical Statement</u> for Special Dietary Needs posted on the DPI website, which is also available in Spanish and Hmong (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs). Meals served to students with special dietary needs with the signed medical statement do not need to meet meal pattern requirements. Additional information on <u>special dietary needs</u> can be found on the DPI School Nutrition Team website (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs). This <u>flow chart</u> gives guidance on special dietary needs, as well (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sdn-flowchart.pdf)
- School food service staff may make food substitutions, at their discretion, to accommodate children without a signed medical statement from a licensed medical practitioner. It is highly recommended

that the SFA have a completed medical statement on file from a medical authority (which could be the school nurse) to support the request. These accommodations made for students must meet the USDA meal pattern requirements in order for the meals to be reimbursable. It is recommended that the SFA develop a policy for handling these types of accommodations to ensure that requests are equitable for everyone.

- Juice may not be substituted for fluid milk unless juice is specified as a substitution on a medical statement signed by a licensed medical practitioner. Water is available to all students, but an SFA may choose to offer lactose free milk or provide a fluid milk substitute that meets the nutritional requirements set forth by USDA. Nutrition information for a fluid milk substitute the SFA wishes to provide for students, must be approved by the SNT office. For more information on <u>fluid milk substitutes</u>, please see our Special Dietary Needs webpage (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs).
- Fluid milk substitution rules apply to all federal school nutrition programs, including the National School Lunch Program, School Breakfast, and After School Snack Program, but do not apply to the Wisconsin School Day Milk Program. WSDMP allows juice as a milk substitution and is reimbursable. SFAs may offer lactose-free milk to children who have lactose intolerance without requiring DPI preapproval for use.

# **Overt Identification**

• The meal counting system must prevent overt identification of students receiving free and reduced price benefits.

# **Processes for complaints**

All SFAs should have procedures (written procedures preferred) in place for handling civil rights complaints in regards to discrimination in the National School Lunch Program and School Breakfast Program. A SFA may always attempt to resolve a situation that is occurring in real time. However, if an individual states that they wish to file a civil rights complaint, the SFA must provide them with the information necessary to do so and not impede an individual's right to file. Please refer to the <u>USDA Program Discrimination Complaint Form</u> for assistance in filing these complaints (https://www.ocio.usda.gov/sites/default/files/docs/2012/Complain\_combined\_6\_8\_12.pdf).

### **Findings and Corrective Action Needed: Civil Rights**

☐ Finding: The finding was that the civil rights poster was not the correct size.

Corrective Action Required: Please post the correct sized poster in a visible spot.

Corrected on-site no further action needed.

# **On-site Monitoring**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- Every school year, each SFA with more than one school must perform no less than one on-site review
  of the meal counting and claiming system and the readily observable general areas of review
  identified under 7 CFR 210.18(h) in each school operating the NSLP. In addition, 50% of schools
  operating the SBP administered by the SFA must be reviewed by February 1.
- The onsite monitoring forms have been updated to include the general areas of review and a new SBP program onsite review form found on our <u>Administrative Review</u> webpage under the SFA onsite monitoring section (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/administrative-review).

### **Local Wellness Policy**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

The local wellness policy requirement was established by the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004 and further strengthened by the Healthy, Hunger-Free Kids Act (HHFKA) of 2010. The final rule requires School Food Authorities (SFAs) to begin developing a revised local school wellness policy during School Year 2016-17 with full compliance of the final rule by June 30, 2017.

At a minimum, SFAs must permit participation by the general public and the school community including parents, students, and representatives of the school food authority, teachers of physical education, school health professionals, the school board, and school administrators in the wellness policy process. In addition, SFAs must designate one or more school officials to ensure the SFA complies with the policy.

### Content of the Wellness Policy

The final Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010 rule requires the SFA to retain basic records demonstrating compliance with the local school wellness (LWP) requirements. If no LWP has been developed, the SFA must establish a written policy. For assistance in the creation of a LWP, SFAs are encouraged to utilize the Wisconsin Wellness: Putting Policy into Practice - School Wellness Policy Toolkit (http://dpi.wi.gov/school-nutrition/wellness-policy/toolkit). At a minimum the wellness policy must include:

- Nutrition education (Recommended goals related to nutrition education include integrating into other core subjects or offering as a stand-alone course for all grade levels.)
- Nutrition promotion (At a minimum SFAs must review smarter lunchroom tools and strategies.
   Additional promotional activities include contests, surveys, food demonstrations, taste testing, and farm to school programming.)
- Physical activity (Recommended that SFAs offer time for students to meet the 60 minute goal, this
  could include recess, classroom physical activity breaks, and opportunities for physical activity
  before and after school.)
- Guidelines for all foods and beverages sold on the school campus during the school day (The LWP must contain guidelines for Federal school meal requirements and competitive food standards [Smart Snacks]).
- Guidelines for all foods and beverages provided on the school campus during the school day (SFAs
  must develop standards for foods provided to students, this includes classroom parties, schools
  celebrations, food offered as rewards/incentives.)
- Guidelines for food and beverage marketing (At a minimum, SFAs must restrict marketing to food and beverages that meet competitive food standards on the school campus during the school day.)
- Public involvement and committee leadership (SFAs must invite and allow for a diverse group of stakeholders to participate in the development, implantation, review, and updating of the LWP.
   SFAs must also identify the official responsible for oversight of the LWP to ensure school compliance.)
- Implementation, assessment and update of policy (At a minimum, SFAs must notify the public about the content, implementation of, and updates to the LWP. SFAs must complete a triennial assessment to evaluate compliance with the LWP, how the LWP compares to model wellness policies, and progress made in attaining the goals of the LWP).

#### Resources:

- Please refer to the USDA <u>summary of the requirements</u> for local school wellness policies (http://www.fns.usda.gov/sites/default/files/tn/LWPsummary\_finalrule.pdf).
- USDA Food and Nutrition Service has information on the <u>local school wellness policy</u> process and wellness policy elements (https://healthymeals.nal.usda.gov/school-wellness-resources).
- Wisconsin Team Nutrition has several <u>wellness policy resources</u> available, including a toolkit, a
  wellness policy builder, and wellness policy report card (http://dpi.wi.gov/schoolnutrition/wellness-policy).

# **Smart Snacks in Schools**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

At the time of the on-site review there were no competitive foods or beverages sold at Parkside. If any food or beverage sales occur in the future, the items must either be in compliance with the Smart Snacks general and nutritional guidelines, or must qualify as an exempt fundraiser. A staff member at each school should be responsible for documenting compliance of exempt fundraisers and any other competitive food sales. You can find fundraiser tracking tools on our <a href="Smart Snacks">Smart Snacks</a> webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/smart-snacks).

# **Professional Standards**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- The Professional Standards regulations in 7 CFR 210.30 established hiring standards for new school nutrition program directors, hired on or after July 1, 2015, that manage and operate the National School Lunch and School Breakfast Programs. In addition, the regulations established annual training standards for all school nutrition program directors, managers, and staff which must be tracked.
- Each SFA must designate at least one staff member as a program "director". A program "director" is the person designated to perform or oversee the majority of the program duties such as sanitation, food safety, nutrition and menu planning, food production, procurement, financial management, record keeping, customer service, nutrition education, and general day-to-day program management.
- The <u>hiring standards for SFA directors</u> are based on the size of the SFA and includes education, school nutrition experience and food safety training requirements
   (http://dpi.wi.gov/sites/default/files/imce/school-: nutrition/pdf/professional-standards-hiring-chart-by-district-size.pdf).
- Per SP 38-2016, any School Food Service Director hired after July 1, 2015 that does not meet the minimum education requirements cannot use the nonprofit school food service account to pay their salary; this would be an unallowable cost and the SFA's general fund may be used to pay the salary of a new director who is actively pursuing the minimum education requirements.

# Professional Standards: New Food Service Director Hiring Requirements

### <u>Professional Standards: Training Requirements</u>

- Annual training must be job-specific and intended to help employees perform their duties well. The
  required annual training hours vary according to the employee's role in the management and
  operation of the school nutrition program.
- Trainings can be provided in a variety of formats (online, in person, webinars) and through various providers (DPI, USDA, in-house, etc.).
- SFAs should clearly document all required training information and maintain that file including the name of staff person, date hired, title/position, brief list of core duties/responsibilities, status (full,

part-time, substitute, volunteer, etc.), professional standards position (director, manager or staff). Learning codes are not required, but encouraged. A template tracking tool is posted to our <a href="Professional Standards">Professional Standards</a> webpage (http://dpi.wi.gov/school-nutrition/training/professional-standards).

# Annual Training Requirements for All Staff

- Directors: 12 hours
- Managers: 10 hours
- Other Staff (20 hours or more per week): 6 hours
- Part Time Staff (under 20 hours per week): 4 hours
- If hired January 1 or later, only half of the training hours are required during the first school year of employment.

# Findings and Corrective Action: Professional Standards

☐ **Finding**: Non-food service staff have not completed the required training hours for the current school year.

**Corrective Action Needed:** Provide a training plan for meeting the required training hours for non-food service staff in the upcoming school year and include how trainings will be tracked.

# **Water**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

Water is required to be available at no charge to students during the lunch and breakfast meal services. Schools can provide free water in a variety of ways, such as water pitchers and cups on lunch tables, a water fountain, or a faucet that allows students to fill their own bottles or cups.

# Findings and Corrective Action: Water

☐ **Finding:** Water is not available to students during breakfast meal service.

**Corrective Action Needed**: Provide a statement of how water will be provided to all students during breakfast meal services moving forward.

### **Food Safety and Storage**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

<u>A Flash of Food Safety</u> is a video series designed to help school nutrition professionals understand and apply safe food practices (www.fns.usda.gov/ofs/food-safety-flashes). The <u>Office of Food Safety</u> website (www.fns.usda.gov/ofs/food-safety) includes food safety resources.

# **Food Safety Inspections**

- Every school operating USDA School Child Nutrition Programs must have two food safety inspections during each school year: including food safety inspection and a review of the site's Food Safety Plan.
- Food safety inspection reports must be posted in public view. Posting the food safety inspection report in the same location as the "And Justice For All" poster can be a convenient way to have both items publicly visible.

### **Temperatures**

 All cooling equipment must have internal temperatures taken and recorded daily on temperature logs. Posting them directly on the equipment makes recording convenient and a regular part of daily routines.

### **Food Safety Plans**

- SFAs are required to update food safety programs based on Hazard Analysis Critical Control Point
  (HACCP) principles to cover any facility where food is stored, prepared, or served for the purposes of
  the NSLP, SBP, or other FNS programs. This means the food safety program should contain standard
  operating procedures (SOP) for safe food handling on school buses, in hallways, school courtyards,
  kiosks, classrooms, or other locations outside the cafeteria.
- Thank you for maintaining a food safety plan which includes all process 1, 2, and 3 items, all applicable standard operating procedures (SOP), all equipment, and food service staff.

# Food Employee Reporting Agreements

- All food service employees must have a signed <u>Food Employee Reporting Agreement</u> on file (https://datcp.wi.gov/Documents/foodemployeereportingagreementsupplement.pdf).
- Employees must sign a new Food Employee Reporting Agreement form if changes are made to the
  document. While there are no requirements as to how frequently food service employees must sign a
  Food Employee Reporting Agreement form, it is the best practice for each food service employee to
  annually review and sign an agreement to reinforce the information contained in the document.

### **Storage**

- SFAs are required to ensure that facilities for the handling, storage, and distribution of purchased and donated foods are properly safeguarded against theft, spoilage, and other loss (7 CFR 210.13(d)).
- The on-site and/or off-site storage areas were reviewed, including freezers, refrigerators, dry good storage rooms and other areas.

# Time/Temperature Control for Safety (TCS) Food

Milk and dairy products

Shell eggs

Meat (beef, pork, and lamb)

Poultry Fish

Shellfish and crustaceans

Baked potatoes

Heat-treated plant food, such as cooked rice,

beans, and vegetables

Tofu or other soy protein Sprouts and seed sprouts

Sliced melons Cut tomatoes Cut leafy greens

Untreated garlic-and-oil mixtures

Synthetic ingredients, such as textured soy protein in meat alternatives

# Time as Public Health Control

- When using "Time as a Public Health Control:"
  - The internal temperature must be at or below 41 degrees Fahrenheit (°F) at the beginning of the holding period for cold time/temperature control for safety (TCS) food.
  - TCS food can be held up to 6 hours at an internal temperature between 41°F and 70°F under monitored conditions. Provisions must be made to discard product if the 6 hour time limit is exceeded, the temperature of the cold TCS food rises above 70°F, or the food is removed from service.

- Hot TCS foods can be held up to 4 hours at an internal temperature greater than 70°F. Provisions must be made to discard product if the 4 hour time limit is exceeded, the temperature of the hot TCS food falls to 70°F, or the food is removed from service.
- There can be no leftovers and no reuse of the items covered under this plan. Thus, if any TCS food is held without mechanical refrigeration during service, including TCS foods on garden bars, all leftover TCS food must be discarded.

# Sharing and No Thank You Tables

Both Sharing Tables and No Thank You Tables are permitted in Wisconsin. Definitions, considerations, and guidance for safe and responsible implementation for each type of table is outlined below.

# **Sharing Table**

A sharing table is a designated table for items students do not intend to consume. Students may pick up items from the sharing table during the meal period. Items must be pre-packaged and unopened. A designated food service worker or trained individual must monitor the sharing table throughout meal service, inspecting items for wholesomeness. The table should not be located immediately after the point of service/sale.

### No Thank You Table

A no thank you table is a designated table placed after the point of service for items students do not intend to consume. Students may not pick up items from this table during the meal period. At the end of meal service, a designated worker or trained individual must inspect the items for wholesomeness.

Sharing or no thank you tables are appropriate for students in first grade and up. Preschool, prekindergarten, and kindergarten students are considered a susceptible population at greater risk for foodborne illness.

#### Considerations

- 1. School food authorities (SFA) are making a conscientious effort to be good stewards of federal and state funding and USDA Foods received for the school meal and afterschool snack programs.
- 2. Offer versus Serve is effectively implemented. This includes training and supervising food service employees, informing students they may turn down up to two components at lunch and one food item at breakfast, and providing age appropriate signage.
- 3. The legal entity (e.g. school board, administrator) stated, in writing, sharing or no thank you tables are allowed at specific serving locations and accepts liability in the event of foodborne illness or injury.
- 4. Parents will be informed in writing.
- 5. The food safety plan for the specific serving locations where sharing or no thank you tables are allowed includes a standard operating procedure (SOP). Please work with the sanitarian and/or local regulatory authority before, during, and after the development of the SOP. Any changes required by the sanitarian will be made.
- 6. Items on the sharing or no thank you table are limited to school meal or snack components. Food items brought from home are excluded.
- 7. Fruits and vegetables with edible peels must be washed and wrapped or packaged for meal service.
- 8. Food on sharing or no thank you tables is not for adults (e.g. food service staff, aides, teachers, custodians).

#### Wholesome Leftovers

Wholesome leftovers may be re-served; given away to students during the same meal period (sharing tables) or later part of or subsequent school day (no thank you tables); given to the school nurse for students with medications or complaints of hunger; donated; or composted. "Wholesome" must be defined by the SFA as part of the SOP.

Only non-time/temperature control for safety (TCS) food items may be re-served and sold in child nutrition programs by the school food authority. TCS foods include milk, cheese, and yogurt, among many other food items.

Food safety decisions surrounding sharing and no thank you tables are at the discretion of the sanitarian and/or local regulatory authority. Implementation may vary across the state.

### **Monitoring Log**

Consider using a monitoring log for items left the sharing table or no thank you table. List prepackaged items and fruits with a non-edible peel or wrapper. At the end of meal service, count the items placed on the table. The employee who initials this log must check all leftover items for wholesomeness. No open items may be re-served. Use data to inform future menu planning and purchasing decisions. A template is available on the <u>Food Safety</u> webpage (https://dpi.wi.gov/school-nutrition/food-safety).

# Findings and Corrective Action: Food Safety

$\Box$ <b>Finding</b> : The finding was menu items categorized into Process 1, 2, and 3 chart were not site specific.
Corrective Action Needed: Categorize all menu items on chart for Menu Items Categorized by Process 1,
2, or 3 to reflect site specific. Submit an updated chart as corrective action.

☐ <b>Finding</b> : The most recent food safety inspection report is not posted in a publicly visible location.
Corrective Action Needed: Post most recent food safety inspection report in location visible to public
Completed on-site. No further action required.

☐ **Finding**: The finding was that the sharing table is not under direct supervision by trained adult. It is checked periodical between meal service.

**Corrective Action Needed**: Designate an adult to monitor and supervise the sharing table during meal service or contact sanitarian to see about a variance to the monitoring process of the sharing table. Please submit a statement on how this will issue will be corrected.

# **Buy American**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- The USDA requires that an SFA purchase, to the maximum extent practicable, domestic commodities
  or products. Using food products from local sources supports the local economy, small local farmers
  and provides healthy choices for children in the school meal programs. The Buy American provision is
  required whether food products are purchased by SFAs or entities that are purchasing on their behalf.
- The Buy American provision should be included in solicitations, contracts, and product specifications. A reply offer to comply with Buy American terms in a solicitation ensures contractors are aware of Buy American requirements. Furthermore, bidder assurance of the Buy American provision ensures that the bidder is responsive and responsible to the solicitation.

### Findings and Corrective Action Needed: Buy American

The USDA requires that an SFA purchase, to the maximum extent practicable, domestic commodities or products. Using food products from local sources supports the local economy, small local farmers and

provides healthy choices for children in the school meal programs. The Buy American provision is required whether food products are purchased by SFAs or entities that are purchasing on their behalf.

The Buy American provision should be included in solicitations, contracts, and product specifications. The SFA should maintain written procedures to ensure product received and inventory is compliant with the Buy American procedure. Sample written <u>procurement contract management procedures</u> (https://dpi.wi.gov/school-nutrition/procurement/contract-procedures/contract-management) and Buy American monitoring procedures.

There are limited exceptions to the Buy American provision which allow for the purchase of products not meeting the "domestic" standard as described above ("non-domestic") in circumstances when use of domestic products is truly not practicable. More information on this new requirement, including a tool to assist with tracking noncompliance products, can be found on the <u>SNT Procurement</u> webpage (http://dpi.wi.gov/school-nutrition/procurement/buy-american).

## Findings and Corrective Action Needed: Buy American

# ☐ Finding #1: Non-compliant items

The following products were identified in SFA's storage area as non-domestic and not listed on the SFA's Buy American – Noncompliant List or SFA equivalent form or did not have proper labeling to identify the country of origin:

- Mandarin oranges- China
- Garlic powder- China
- Dole fruit cups- Thailand
- Pimentos-Spain
- Frozen carrots- Canada
- Frozen green peas- Canada
- Bell peppers- Mexico

Corrective Action Needed for Finding #1: Begin using a Noncompliant Product List for tracking nondomestic products. Provide a copy of the form that will be used and include any noncompliant products currently in the SFAs food storage areas. Provide the completed list as corrective action. A template form is located on the <a href="mailto:procurement">procurement</a> webpage (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/buy-american-noncompliant-list.docx).

# Reporting and Recordkeeping

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

• All free and reduced price applications, including applications from households denied benefits must be kept on file for a minimum of three years after the final claim is submitted for the fiscal year to which they pertain.

### School Breakfast Program (SBP) and Summer Food Service Program (SFSP) Outreach

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

 At the beginning of the school year, the SFA must notify families of the availability of breakfast and schools should send reminders regarding the availability of the SBP multiple times throughout the school year.

### Summer Meals

A goal of USDA Child Nutrition Programs is to ensure all students have access to healthy and nutritious meals year-round. USDA requires all SFAs to inform families of where their students can receive a free meal in the summer months. SFAs can inform families of summer meals via the following methods:

- Promotion of the <u>summer meals locator</u> on the DPI Summer Meals webpage (https://dpi.wi.gov/community-nutrition/sfsp/find-summer-meals-site)
- Promotion of calling 211 to locate meals in the area
- Promotion of the ability to text 'food' to 877-877 to locate meals in the area
- Promotion of the USDA Summer Food website (http://www.fns.usda.gov/summerfoodrocks)

#### Resources:

- To access an inclusive map of all potential participating sites in your area, see the <u>interactive map</u> on the SFSP website (http://www.fns.usda.gov/capacitybuilder).
- For more information on Summer Feeding option contact: Amy J. Kolano, RD, CD, Summer Food Service Program Coordinator Phone: 608.266.7124; e-mail: amy.kolano@dpi.wi.gov

#### 5. OTHER FEDERAL PROGRAMS REVIEWS

# **Afterschool Snacks**

# Commendations/Comments/Technical Assistance/Compliance Reminders

The National School Lunch Program (NSLP) offers reimbursement to help schools serve snacks to children after their regular school day ends. Afterschool snacks give children a nutritional boost and draw them into supervised activities that are safe, fun and filled with learning opportunities. An Afterschool Snack Program can participate as "area eligible" if it is located at a school or in the attendance area of a school where at least 50 percent of the enrolled children are eligible for free or reduced price meals (https://dpi.wi.gov/school-nutrition/after-school). In an Area Eligible Afterschool Snack Program, all participating students are claimed in the free eligibility category when a reimbursable snack is selected. Programs must qualify annually.

### **Special Milk Program**

# Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

# Findings and Corrective Action: Special Milk Program

☐ Finding #1: The finding was that the point of service was using a back out system to count milk by teachers in the classroom. This is not an allowable practice.

**Corrective Action Required:** Please submit a statement on how this will be corrected in the future.

# Wisconsin School Day Milk Program (WSDMP)

### Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- Wisconsin School Day Milk Program requires the distribution of free milk to students eligible for free and reduced priced meals, but only for students in K-5<sup>th</sup> grade.
- Point of Service Counts (POS) for the Wisconsin School Day Program and the Special Milk Program
  must be recorded by who "did" take milk not by marking who "did not" take one. Technical assistance
  was provided.
- Per the Agreement for the WSDMP in the points the SFA agrees to, number 3 states that schools will serve Wisconsin-produced milk. Please check with your distributor to see if they can verify that and perhaps include that stipulation in the SFA's milk bid.

# Findings and Corrective Action: Wisconsin School Day Milk Program

☐ **Finding:** The finding was that the point of service was using a back out system to count milk by teachers in the classroom. This is not an allowable practice.

**Corrective Action Required:** Please submit a statement on how this will be corrected in the future.

☐ Finding: The finding was that milk was distributed to classrooms in a non-insulated container and any left overs were placed back in the milk cooler. This is not an acceptable practice. Technical assistance was provided.

**Corrective Action Needed:** Please correct this process and submit a statement on how this issue will be corrected in the future.

Dr. Tony Evers, State Superintendent of Wisconsin Department of Public Instruction, shares a vision that every student will graduate prepared for college and career. His goals are for students to have the knowledge, skills, and habits that will allow them to succeed in life after high school. Access to quality nutrition plays a major role in developing those life-long habits.

The School Nutrition Team believes that what school nutrition programs do every day plays a very important part in the success of every child being able to graduate. We all know that well-nourished children are ready to learn. Thank you for all you do to ensure student success.

For more information on this initiative, please visit the <u>Wisconsin DPI Every Child a Graduate</u> webpage (dpi.wi.gov/statesupt/agenda-2017).

With School Nutrition Programs!
