

UNPAID MEAL CHARGES: USDA Policy Memorandum SP 46-2016 requires all School Food Authorities (SFAs) operating federal school meal programs to have a written and clearly communicated policy to address unpaid meal charges by July 1, 2017.

Unpaid Meal Charge Policy

- Must explain how the SFA will handle situations where children eligible to receive reduced-price or paid meals do not have money in their account or in hand to cover the cost of their meal at the time of service.
 - If a child has money to purchase a reduced-price or paid meal at the time of the meal service, the child must be provided a meal. SFAs may not use the child's money to repay unpaid charges if the child intended to use the money to purchase that day's meal.
- Should be implemented and enforced SFA-wide.
- Local discretion to vary policy based on student grade level.
- Must be provided in writing (mail, email, back-to-school packet, student handbook, etc.)
 to all households at the start of each school year and to households transferring to the
 school district during the school year. Only posting the policy to the school website does
 not meet the requirement.
- Must be provided in writing to all school or SFA-level staff who are responsible for policy enforcement. SFAs are encouraged to provide information about the policy to principals and other school or district administrators to ensure the policy is supported.
 - Schools may not enlist the assistance of unauthorized persons, such as parent or guardian volunteers, to follow up with debt collection efforts.
- SFAs are encouraged to review the policy on a regular basis (e.g., annually or biannually).

Alternate Meals

• SFAs are not required by USDA to provide a meal to paid or reduced-price students with negative account balances. SFAs that do provide an alternate meal, must adhere to the following. Special Dietary Needs must also be accommodated.

Claiming Meal	Not Claiming but Charging	Not Claiming or Charging
Must meet meal pattern	Each item must be priced Individually	Meal is provided free of charge
SFA may limit entrée choice		Meal does not need to meet
to less expensive option	Each item must meet Smart Snacks	Smart Snacks
If Offer versus Serve, SFA must offer: • Lunch - 5 components • Breakfast - 4 items	Item pricing is subject to non- program foods regulation	Meal cost must be funded from a non-federal source and is subject to nonprogram foods regulation
		Food service fund may NOT absorb meal cost

Delinquent Debt

- When payment is overdue, the debt is classified as delinquent and it is considered collectable while efforts are being made to collect it.
- A debt owed to the Nonprofit School Food Service Account remains on the accounting documents until it is either collected or is determined to be uncollectable and is written off
- The debt may be carried over from year to year.

Bad Debt

- When local officials determine further collection efforts for delinquent debt are not possible or too costly, the debt must be reclassified as "bad debt."
- When this uncollectable debt becomes bad debt, it is written off as an operating loss.
- Food service funds may not be used to cover costs related to the bad debt.
- These losses must be restored using non-federal funds such as the school district's general fund. A transfer must be made into the Nonprofit School Food Service Account to cover the loss.
- Once delinquent meal charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements.

When a child leaves the district or graduates, SFAs MUST attempt to return remaining student account funds. However, SFAs may allow families that are not approved for free or reduced-price meals to donate their remining funds to cover unpaid meal charges that were uncollectable.

Households approved for reduced-price meal benefits MUST receive a refund. There is a federal requirement that children eligible for reduced-price meals pay a maximum of 40 cents per lunch meal and 30 cents per breakfast meal. Retaining the unused funds would result in the per meal price exceeding the federal maximums.
