## II. Monitoring Tool

**Grantee Instructions/Instructions for Providing Evidence:** The purpose of the Nita M. Lowey 21st Century Community Learning Centers (21st CCLC) Monitoring Tool is to collect the evidence needed to demonstrate that your 21st CCLC program is in compliance with state and federal requirements. The majority of the elements listed below align with a state or federal requirement for Wisconsin 21st CCLC programs. In addition, the tool includes elements of promising practices for high quality programming. The elements are organized into sections according to DPI's Guiding Principles for 21st CCLC Programs (<https://dpi.wi.gov/sites/default/files/imce/sspw/pdf/clcguideprinciplesfull.pdf>)

(<https://dpi.wi.gov/sites/default/files/imce/sspw/pdf/clcguideprinciplesfull.pdf>). If the monitoring event occurs at the beginning of the school year, evidence from the previous grant year may be included. Otherwise, all evidence should reflect most current operations and activities.

For each element, there is a list of the types of documents that are considered acceptable evidence of compliance. Please note: for many elements, there are required documents you must include. You are also given the option of including documentation not listed. Any evidence provided should consist of materials or artifacts that clearly document program policies, procedures, or activities that demonstrate compliance with the monitoring element. Written descriptions of activities may be allowable as indicated below. At least one form of documentation must be submitted for every compliance-related element marked with a red asterisk.

To submit documentation, click the check box next to the type of evidence provided. The system will then prompt you to upload the selected type of evidence. If “Other” is selected, in addition to uploading the evidence, you will be prompted to provide a brief explanation describing the documentation and how it demonstrates compliance.

**When uploading evidence, do not include any personally identifiable information (PII) about students or family members (e.g., names, addresses, etc.).** If a document submitted to the portal lists student names or other identifying information, please blackout or otherwise delete this information.
